Editors' introduction: A handbook of phonetics <i>William F. Katz and Peter F. Assmann</i>	1
---	---

PART I

History, scope, and techniques

1 History of speech synthesis <i>Brad H. Story</i>	9
2 Advances in vocal tract imaging and analysis <i>Asterios Toutios, Dani Byrd, Louis Goldstein, and Shrikanth Narayanan</i>	34
3 Under-researched languages: Phonetic results from language archives <i>D.H. Whalen and Joyce McDonough</i>	51

PART II

Physiological basis of speech and hearing

4 The phonetics of voice <i>Marc Garellek</i>	75
5 Articulatory phonetics <i>Bryan Gick, Murray Schellenberg, Ian Stavness, and Ryan C. Taylor</i>	107

6	Neural bases of speech production <i>Jason W. Bohland, Jason A. Tourville, and Frank H. Guenther</i>	126
7	Phonetics and the auditory system <i>Matthew B. Winn and Christian E. Stilp</i>	164
8	The neural basis for auditory and audiovisual speech perception <i>Jonathan E. Peelle</i>	193
<hr/>		
PART III		
	Theories and models of speech perception and production	217
9	The acoustics and perception of North American English vowels <i>James M. Hillenbrand</i>	219
10	The phonetic properties of consonants <i>Marija Tabain</i>	264
11	Theories and models of speech perception <i>Michael Kiefte and Terrance M. Nearey</i>	289
12	Prosody, tone, and intonation <i>Yi Xu</i>	314
PART IV		
	Linguistic/perceptual phonetics	357
13	The interface between phonetics and phonology <i>John Kingston</i>	359
14	The phonetic basis of the origin and spread of sound change <i>Jonathan Harrington, Felicitas Kleber, Ulrich Reubold, Florian Schiel, and Mary Stevens</i>	401
15	The phonetics of second language learning and bilingualism <i>Charles B. Chang</i>	427
16	Innovations in sociophonetics <i>Erik R. Thomas</i>	448
17	Phonetics and second language teaching research <i>Murray J. Munro and Tracey M. Derwing</i>	473

PART V		
Applications and extensions		497
18	The phonetics of sex and gender <i>Benjamin Munson and Molly Babel</i>	499
19	New horizons in clinical phonetics <i>William F. Katz</i>	526
20	Vocal-tract models in phonetic teaching and research <i>Takayuki Arai</i>	570
21	Introduction to forensic voice comparison <i>Geoffrey Stewart Morrison and Ewald Enzinger</i>	599
	<i>Index</i>	635
