

# Table of Contents

<b>Preface</b>	<b>v</b>
<b>Chapter 1: Defining Dependencies</b>	<b>1</b>
<b>Declaring dependency configurations</b>	<b>1</b>
<b>Declaring dependencies</b>	<b>4</b>
External module dependencies	5
Defining client module dependencies	9
Using project dependencies	10
Defining file dependencies	11
Using internal Gradle and Groovy dependencies	11
<b>Using dynamic versions</b>	<b>12</b>
<b>Getting information about dependencies</b>	<b>13</b>
Accessing dependencies	16
Buildscript dependencies	17
<b>Optional Ant task dependencies</b>	<b>19</b>
<b>Managing dependencies</b>	<b>20</b>
<b>Summary</b>	<b>24</b>
<b>Chapter 2: Working with Repositories</b>	<b>25</b>
<b>Declaring repositories</b>	<b>25</b>
Using the Maven JCenter repository	26
Using the Maven Central repository	28
Using the Maven local repository	29
Using Maven repositories	30
Using the flat directory repository	34
Using Ivy repositories	36
<b>Using different protocols</b>	<b>40</b>
<b>Summary</b>	<b>41</b>

---

<b>Chapter 3: Resolving Dependencies</b>	<b>43</b>
<b>Understanding dependency resolution</b>	<b>43</b>
Configuring transitive dependencies	44
Disabling transitive dependencies	45
Excluding transitive dependencies	47
Using artifact-only dependencies	51
<b>Resolving version conflicts</b>	<b>51</b>
Using the newest version	52
Failing on version conflict	58
Forcing a version	59
<b>Customizing dependency resolution rules</b>	<b>62</b>
Using client modules	67
<b>Using dynamic versions and changing modules</b>	<b>69</b>
<b>Understanding the dependency cache</b>	<b>69</b>
Command-line options for caching	71
Changing cache expiration	71
<b>Summary</b>	<b>74</b>
<b>Chapter 4: Publishing Artifacts</b>	<b>75</b>
<b>Defining artifact configurations</b>	<b>75</b>
<b>Defining artifacts</b>	<b>78</b>
Using the archive task	79
Using artifact files	80
<b>Creating artifacts</b>	<b>83</b>
<b>Publishing artifacts to the local directory</b>	<b>87</b>
Excluding the descriptor file	90
<b>Signing artifacts</b>	<b>92</b>
Using configurations to sign	92
Using archive tasks to sign	94
<b>Summary</b>	<b>96</b>
<b>Chapter 5: Publishing to a Maven Repository</b>	<b>97</b>
<b>Defining publication</b>	<b>97</b>
<b>Defining publication artifacts</b>	<b>98</b>
<b>Using archive task artifacts</b>	<b>99</b>
<b>Using file artifacts</b>	<b>103</b>
<b>Using software components</b>	<b>104</b>
<b>Generating POM files</b>	<b>105</b>
Customizing the POM file	109
<b>Defining repositories</b>	<b>114</b>
Publishing to the local Maven repository	114

---

---

Publishing to the Maven repository	116
Publishing to Artifactory	118
Publishing to Nexus	120
<b>Summary</b>	<b>123</b>
<b>Chapter 6: Publishing to Bintray</b>	<b>125</b>
<hr/>	
<b>What is Bintray?</b>	<b>125</b>
Defining a new repository	126
<b>Defining the Bintray plugin</b>	<b>127</b>
<b>Deploying publications to Bintray</b>	<b>129</b>
<b>Configuring the Bintray plugin</b>	<b>135</b>
<b>Summary</b>	<b>139</b>
<b>Chapter 7: Publishing to an Ivy Repository</b>	<b>141</b>
<hr/>	
<b>Defining publications</b>	<b>141</b>
<b>Defining publication artifacts</b>	<b>142</b>
<b>Using archive task artifacts</b>	<b>143</b>
Using file artifacts	147
Using software components	147
<b>Generating Ivy descriptor files</b>	<b>148</b>
Customizing the descriptor file	153
<b>Defining repositories</b>	<b>156</b>
Publishing to a local directory	156
Publishing to Artifactory	158
Publishing to Nexus	161
<b>Summary</b>	<b>164</b>
<b>Index</b>	<b>165</b>

---

## What this book covers

*Chapter 1, Defining Dependencies*, introduces dependency configurations as a way to organize dependencies. You will learn about the different types of dependencies in Gradle.

*Chapter 2, Working with Repositories*, covers how we can define repositories that store our dependencies. We will see not only how to set the location, but also the layout of a repository.

*Chapter 3, Resolving Dependencies*, is about how Gradle resolves our dependencies. You will learn how to customize the dependency resolution and resolve conflicts between dependencies.
