1 Introduction	1
<i>Michael Faure and Nicole Niessen</i>	
1 Problem definition: reasons for this book	1
2 History and origins of this book	3
3 Methodology	4
3.1 Legal multidisciplinary	4
3.2 Comparative approach	6
3.3 Multidisciplinary	6
4 Framework of the project	6
5 Structure of this book	7
6 Contributors	7
7 Words of thanks	8
2 Human rights and general principles and their importance as a legislative technique. Do they matter in legislation? An analysis with specific reference to environmental protection	9
<i>Aalt Willem Heringa</i>	
1 Introduction	9
2 Interpretation	10
3 Legislative technique	11
4 Application in environmental law: learning from the European Court of Human Rights	12
4.1 General principles approach by the European Court of Human Rights	12
4.2 Applicability of Article 8 § 1 of the Convention	14
4.3 The general principles and their role in environment cases	15
4.4 General lessons	19
5 Lessons for codification projects	20
6 How to proceed in environmental lawmaking?	21

3	Three principles of environmental law: the polluter-pays principle, the principle of prevention, and the precautionary principle	24
	<i>Andri G. Wibisana</i>	
1	Introduction	24
2	The polluter-pays principle	25
2.1	The origin of the principle	25
2.2	Application of the principle	28
2.2.1	Instruments to implement the principle	28
2.2.1.1	Liability rules: negligence versus strict liability	28
2.2.1.2	Liability and regulation	30
2.2.1.3	Liability and insurance	32
2.2.2	Regulation or liability: defining the polluter	33
2.3	The polluter-pays principle according to Act No. 23 of 1997	36
3	The preventive principle	37
3.1	Introduction	37
3.2	The relationship between the preventive principle and other principles	39
3.3	The preventive principle according to Act No. 23 of 1997	40
4	The precautionary principle	41
4.1	The development of the principle	41
4.2	The development of the precautionary principle at international level	42
4.3	Interpretations of the precautionary principle	44
4.3.1	Different formulations on the precautionary principle	44
4.3.2	The need for a common interpretation of the precautionary principle?	48
4.4	The precautionary principle and CBA	50
4.5	Risk analysis and the precautionary principle	55
5	Conclusion	56
4	The implications of international conventions for the development of the Environmental Management Act	77
	<i>Daud Silalahi</i>	
1	Introduction	77
2	Transnational-environmental issues to be included in the new Environmental Management Act	79
2.1	Article 211 Law of the Sea 1982 concerning sea pollution from vessels	80

2.2	Article 220 Law of the Sea 1982 concerning enforcement by coastal states	81
2.3	Article 227 concerning investigation of foreign vessels	81
2.4	Article 228 concerning suspension and restrictions on institution of proceedings	81
2.5	Article 229 and 235 concerning institution of civil proceedings and responsibility and liability	82
2.6	Article 292 concerning prompt release of vessels	82
2.7	Act No. 6/1996 concerning Indonesian Waters	83
2.8	Act No. 21/1992 concerning navigation	83
2.9	Act No. 5/1990 concerning conservation and ecosystem	83
2.10	Action programmes	83
3	Comparative studies	85
3.1	Australia	85
3.2	The Philippines	86
3.3	Canada and USA	86
4	Comments on several rules of the Environmental Management Act of 1997	86
4.1	The improvement of several general provisions	86
4.2	Improvement of basic principles	87
4.3	Institutional arrangements	87
4.4	Legal instruments	87
5	Conclusions	89
5	Elaborating on integration of environmental legislation: the case of Indonesia	92
	<i>Marjan Peeters</i>	
1	To distinguish the concepts of external and internal integration	92
1.1	Sustainable development and external integration	92
1.2	Internal integration: the focus of this contribution	94
2	Integration of environmental legislation	95
2.1	Some strong arguments for integration of environmental legislation	95
2.1.1	Ecological unity as a justification for integration	95
2.1.2	Integration as an economic sound approach	95
2.1.3	Integration, centralization and decentralization	96
2.2	Harmonization and coordination as methods for coherency	97

2.3	Ultimate goal: one Environmental Code	99
2.3.1	Indeed an ultimate goal	99
2.3.2	A scheme for one Environmental Code	100
2.4	The concept of integration balanced with the choice of instruments and the structure of the administrative organization	102
2.4.1	An optimal instrument mix	102
2.4.2	The administrative organization	103
2.5	Conclusion: The challenging task to design environmental legislation	105
3	Two classical ways for regulatory interventions and their ability to facilitate an integrative approach	106
3.1	Introduction	106
3.2	The integrated permit	107
3.3	General rules	111
4	The Indonesian Environmental Management Act 1997	114
4.1	One Indonesian Environmental Code?	115
4.2	The EMA as a basis for integrated regulatory interventions	116
4.2.1	Licensing	117
4.2.2	General rules	119
4.3	A balanced approach	121
5	Conclusion	121
6	Toward integrated environmental law: Indonesian experiences so far and expectations of a future Environmental Management Act	128
	<i>Takdir Rahmadi</i>	
1	The idea of integrated environmental management	128
2	How to implement integrated environmental management into reality: the Indonesian experience so far	130
2.1	Institutional arrangements	130
2.2	Struggling for the creation of an integrated environmental law	133
2.2.1	The relationship of the EMA with sectoral legislation	133
3	The Future EMA	135
3.1	Environmental Code as an ultimate goal	135
3.2	Integrated licences	136
3.3	Combination of command and control, voluntary approach and market-based instruments	140
4	Conclusions	141

7	Decentralized environmental management	143
	<i>Nicole Niessen</i>	
1	Introduction	143
2	Decentralization of environmental management: a comparative analysis	144
2.1	Decentralization: pros and cons	144
2.2	Decentralized environmental management in Europe and the USA	146
2.3	Decentralized environmental management in developing countries	149
3	The Dutch model: a rough sketch	150
3.1	A decentralized unitary state	150
3.2	General administrative law	152
3.3	Environmental protection law	154
3.4	Multi-level environmental management	157
4	Decentralization of environmental management in Indonesia	158
4.1	The legal-institutional framework for regional government	158
4.2	The legal-institutional framework for environmental management	161
4.3	Discord between the EMA 1997 and the RGA 1999	163
4.4	Constraints and criticism	166
5	Towards a new paradigm for environmental management in Indonesia?	170
5.1	Why legal reform?	170
5.2	General lawmaking caveats	171
5.3	Legal-institutional design for multilevel environmental management	172
5.4	Non-legal means to strengthen environmental management capacity	177
6	Conclusion	177
8	Supervision and enforcement in the Law Concerning Environmental Management, Law No. 23 of 1997	182
	<i>Frits Stroink</i>	
1	Introduction	182
2	Some general starting points of constitutional and administrative law	183
3	The Indonesian EMA revisited?	186

9	Towards a new model of criminalization of environmental pollution: the case of Indonesia	188
	<i>Michael Faure</i>	
1	Introduction	188
2	Administrative dependence of environmental criminal law	190
3	Problems with the absolute administrative dependence of environmental criminal law	191
3.1	Too limited protection of the environment	191
3.2	Example: Bayer-case	192
3.3	Farewell to administrative dependence of the criminal law?	193
3.4	Towards a more limited administrative dependence of the criminal law?	194
4	Towards a new model for the protection of the environment through the criminal law	195
4.1	Abstract endangerment	195
4.2	Concrete endangerment	197
4.3	Independent crime for pollution with serious consequences	198
4.4	An optimal combination of various provisions	200
5	Application: Council of Europe Convention	202
5.1	Applying the new model	202
5.2	Concrete endangerment	202
5.3	Independent crime	202
5.4	Abstract endangerment	203
6	Indonesian Environmental Management Act	204
6.1	Chapter IX	204
6.2	Article 41(1)	204
6.3	Article 41(2)	206
6.4	Article 42(1)	206
6.5	Article 43	207
6.6	Articles 44–46	208
6.7	In sum	209
7	An alternative formulation	209
7.1	Goal	209
7.2	Concrete endangerment	210
7.3	Abstract endangerment	211
7.4	Independent crime with serious consequences	213
8	Concluding remarks	214

10	Economic instruments: suited to developing countries? <i>Michael Faure, Marjan Peeters and Andri G. Wibisana</i>	218
1	Introduction	218
2	Shortcomings of command and control	220
3	Economic principles of environmental taxation	225
3.1	The Pigouvian tax	225
3.2	In practice: regulatory charges	228
3.3	Regulatory versus budgetary charges	230
4	Emissions trading	231
4.1	Economic principles	231
4.2	A closer look at some potential problems with implementing emissions trading	234
4.3	Practice in the US: emissions trading for stationary sources under the Clean Air Act	236
4.4	Practice in the US: the acid rain allowance trading programme	237
4.5	Practice in Europe: EU Directive of 13 October 2003 on CO ₂ emissions (2003/87/EC)	239
5	Regulation, marketable permits and taxes compared	241
6	Practice	244
6.1	Marketable permits	244
6.2	Environmental taxes	247
7	Interest group analysis	249
7.1	Lobby for barriers to entry or lenient standards	249
7.2	Influence of private interest on instrument choice	252
7.3	Example: the Dutch energy tax	253
8	Concluding remarks	255
11	Towards effective environmental legislation in Indonesia? <i>Michael Faure and Nicole Niessen</i>	263
1	Introduction	263
2	Law and development	264
2.1	Law reform in developing countries	264
2.2	Drafting country-specific laws	265
2.3	Legislative quality indicators	266
3	Developing environmental law	267
3.1	Definition of the environment	267
3.2	Integration, harmonization and coordination	269
3.3	Multi-level approach	271
3.4	International environmental law	273
4	Choice of instruments	275
4.1	Command and control	275

4.2	Economic instruments	277
4.3	Instrument mix	278
5	Enforcement	279
5.1	Administrative sanctions	280
5.2	Criminal law	280
5.3	Mix of enforcement instruments	281
6	Implementation constraints	282
6.1	Conflicting interests	282
6.2	Capacity building	283
6.3	Corruption, collusion, nepotism	284
7	The way forward	285
12	Appendix	289
	<i>Index</i>	325
