<i>Preface</i>	ix
MARTIN K. JONES	
Introduction	3
MANON SAVARD, MARCO MADELLA, AND CARLA LANCELOTTI	
I. METHODOLOGIES IN ARCHAEOBOTANY	
1. Sample-Size Estimation and Interassemblage Quantification in Archaeobotany	9
GYOUNG-AH LEE	
2. Regional Exchanges in Southeastern Arabia during the Late Pre-Islamic Period: Phytolith Analysis of Ceramic Thin Sections from ed-Dur (UAE)	26
LUC VRYDAGHS, PAUL DE PAEPE, KATRIEN RUTTEN, AND ERNIE HAERINCK	
3. Examining Agriculture and Climate Change in Antiquity: Practical and Theoretical Considerations	47
ALEXIA SMITH	
II. CASE STUDIES IN ARCHAEOBOTANY AND VEGETATION HISTORY	
4. Swahili Urban Food Production: Archaeobotanical Evidence from Pemba Island, Tanzania	73
SARAH C. WALSHAW	
5. Plant Food Subsistence in Context: An Example from Epipaleolithic Southwest Anatolia	100
DANIÈLE MARTINOLI	

6. Vegetation Proxy Data and Climate Reconstruction: Examples from West Asia NAOMI F. MILLER	120
7. Significance of Prehistoric Weed Floras for the Reconstruction of Relations between Environment and Crop Husbandry Practices in the Near East SIMONE RIEHL	135
III. SOCIAL ARCHAEOBOTANY	
8. Historical Aspects of Early Plant Cultivation in the Uplands of Eastern North America KRISTEN J. GREMILLION	155
9. Routine Activities, Tertiary Refuse, and Labor Organization: Social Inferences from Everyday Archaeobotany DORIAN Q FULLER, CHRIS STEVENS, AND MERIEL McCLATCHIE	174
10. Of Crops and Food: A Social Perspective on Rice in the Indus Civilization MARCO MADELLA	218
11. Anthracological Research on the Brazilian Coast: Paleoenvironment and Plant Exploitation of <i>Sambaqui</i> Moundbuilders RITA SCHEEL-YBERT AND MARIA DULCE GASPAR	237
IV. GENETICS IN ARCHAEOBOTANY	
12. Rice of Asian Origin YO-ICHIRO SATO	265
13. A Review of the Research on the Origin of Six-Row Barley KEN-ICHI TANNO	277
14. Maize Cob Phytoliths as Indicators of Genetics and Environmental Conditions LINDA SCOTT CUMMINGS	292
<i>Editors and Contributors</i>	301
<i>Index</i>	305
