

CONTENTS

ARTICLES

- Effect of melatonin on the release of prothoracicotropic hormone from the brain of *Periplaneta americana* (Blattodea: Blattidae) — K. RICHTER, E. PESCHKE & D. PESCHKE 341
- Plumbagin and azadirachtin deplete hemolymph ecdysteroid levels and alter the activity profiles of two lysosomal enzymes in the fat body of *Helicoverpa armigera* (Lepidoptera: Noctuidae) — A. JOSEPHRAJKUMAR, B. SUBRAHMANYAM & SRINIVASAN 347
- Food remains in the guts of *Coccinella septempunctata* (Coleoptera: Coccinellidae) adults and larvae — H. TRILTSCH 355
- Effect of host plant on body size of *Frankliniella occidentalis* (Thysanoptera: Thripidae) and its correlation with reproductive capacity — W.J. DE KOGEL, D. BOSCO, M. VAN DER HOEK & C. MOLLEMA 365
- Host spatial pattern influences induction of parasitization by *Trichogramma* (Hymenoptera: Trichogrammatidae) — N.D. VOINOVICH, T.YA. UMAROVA & S.YA. REZNIK 369
- Contributions of Monte-Carlo test procedures for the study of the spatial distribution of the European Vine Moth, *Lobesia botrana* (Lepidoptera: Tortricidae) in European vineyards — I. BADENHAUSSER, P. LECHARPENTIER, L. DELBAC & P. PRACROS 375
- Diversity and abundance of insect herbivores collected on *Castanopsis acuminatissima* (Fagaceae) in New Guinea: Relationships with leaf production and surrounding vegetation — Y. BASSET 381
- Genetic identity and relationship between four *Anagrus* species (Hymenoptera: Mymaridae) using RAPD analysis — E. CHIAPPINI, L. SORESSI, C. FOGHER & M. ZANIRATO 393
- Hybridisation between *Aphis grossulariae* and *Aphis schneideri* (Sternorrhyncha: Aphididae): An experimental approach — R. RAKAUSKAS 401
- Field observations, laboratory rearing and descriptions of immatures of the planthopper *Hyalesthes obsoletus* (Hemiptera: Cixiidae) — R. SFORZA, T. BOURGOIN, S.W. WILSON & E. BOUDON-PADIEU 409
- Tingidae (Hemiptera) of Vanuatu (New Hebrides): New species and new records — E. GUILBERT 419
- Revision of the genus *Macroscytus* (Heteroptera: Cydnidae) in Madagascar and adjacent islands, with description of four new species — J.A. LIS 427
- Monophyly of the subgenus *Leptempis*, and description of seven new species of the *Empis* (*Leptempis*) *rustica*-group (Diptera: Empididae) — C. DAUGERON 439
- The male of *Tetanoptera leucodactyla* (Diptera: Sciomyzidae) — L.V. KNUTSON & J.-C. VALA 451

NOTE

- Stimulation of locomotion in *Pyrrhocoris apterus* (Heteroptera: Pyrrhocoridae) is wing-morph independent and correlated with lipid mobilization by adipokinetic hormone — R. SOCHA, D. KODRÍK & R. ZEMEK 459

- Book reviews 345, 346, 354, 374, 392, 418, 438, 450, 458, 462
- Erratum 463
- List of referees 1999 464
- Contents of Volume 96 466
