

CONTENTS

REVIEW

- Measuring and reporting life-cycle duration in insects and arachnids — H.V. DANKS 285

ARTICLES

- Functional anatomy of the spermatheca and its duct in the seed bug *Lygaeus simulans* (Heteroptera: Lygaeidae) — R. GSCHWENTNER & A. TADLER 305
- Life history correlates and reproductive biology of *Laelius pedatus* (Hymenoptera: Bethyridae) in The Netherlands — P.J. MAYHEW & W.R.B. HEITMANS 313
- Overwintering of *Coccinella septempunctata* (Coleoptera: Coccinellidae) at different altitudes in the Karkonosze Mts, SW Poland — P. CERYNGIER 323
- Seasonal activity and reproductive biology of the ground beetle *Carabus dufouri* (Coleoptera: Carabidae) — A.M. CARDENAS & J.M. HIDALGO 329
- Phenology and sex ratio of the parasitoids of a cereal leaf miner *Chromatomyia fuscata* (Diptera: Agromyzidae) — E.B. HÅGVAR, N. TRANDEM & T. HOFVANG 339
- Host-instar selection in the aphid parasitoid *Monoctonus paulensis* (Hymenoptera: Braconidae, Aphidiinae): a preference for small pea aphids — A. CHAU & M. MACKAUER 347
- Development of the solitary larval endoparasitoid *Glyptapanteles porthetriae* (Hymenoptera: Braconidae) in its host *Lymantria dispar* (Lepidoptera: Lymantriidae) — C. NUSSBAUMER & A. SCHOPF 355
- Egg distribution in the large copper butterfly *Lycaena dispar batavus* (Lepidoptera: Lycaenidae): Host plant versus habitat mediated effects — M.R. WEBB & A.S. PULLIN 363
- Assessing spider community structure in a beech forest: Effects of sampling method — K. HÖVEMEYER & G. STIPPICH 369
- Experimental hybridisation between *Aphis grossulariae* and *Aphis triglochinis* (Sternorrhyncha: Aphididae) — R. RAKAUSKAS 377
- Application of ubiquitin SSCP analysis in taxonomic studies within the subgenus *Orinocarabus* (Coleoptera: Carabidae: *Carabus*) — D. SEDLMAIR, R. GERSTMEIER & R. EINSPANIER 387
- Larval morphology and biology of two species of *Aphodius* (*Plagiogonus*) from the Iberian Peninsula (Coleoptera: Scarabaeidae: Aphodiinae) — J.R. VERDÚ & E. GALANTE 395
- Description of the early stages of *Anomalipus plebejus plebejulus* (Coleoptera: Tenebrionidae) from Zimbabwe with notes on the classification of the Opatrinae — D. IWAN & S. BEČVÁŘ 403
- New genus and species of Oriental Meligethinae with new observations on the genera *Cryptarchopria* and *Kabakovia* (Coleoptera: Nitidulidae) — J. JELÍNEK 413
- African-Arabian and Asian-Pacific "*Mocis frugalis*": Two distinct species (Lepidoptera: Noctuidae) — A. ZILLI .. 419
- Merlax bohemicus* gen. n., sp. n., a new fossil dragonfly from the Lower Miocene of northern Bohemia (Odonata: Aeshnidae) — J. PROKOP & A. NEL 427

NOTES

- Diapausing larvae of the midge *Aphidoletes aphidimyza* (Diptera: Cecidomyiidae) survive at subzero temperatures in a supercooled state but tolerate freezing if inoculated by external ice — V. KOŠTÁL & J. HAVELKA 433
- Differences in the male calling songs of two sibling species of *Cicada* (Hemiptera: Cicadoidea) in Greece — P.C. SIMÕES, M. BOULARD, M.T. REBELO, S. DROSOPOULOS, M.F. CLARIDGE, J.C. MORGAN & J.A. QUARTAU 437

- Book reviews 362, 375, 402
