

CONTENTS

ARTICLES

- Environmental regulation of the purine synthesis enzyme purH transcript during adult diapause in *Leptinotarsa decemlineata* (Coleoptera: Chrysomelidae) — G.D. YOCUM 199
- New cytogenetic data on Nabidae (Heteroptera: Cimicomorpha), with a discussion of karyotype variation and meiotic patterns, and their taxonomic significance — V.G. KUZNETSOVA, S. GROZEVA & S. NOKKALA 205
- Cytogenetic studies on *Mepraia gajardoi* (Heteroptera: Reduviidae). Chromosome behaviour in a spontaneous translocation mutant — R. PÉREZ, L. CALLEROS, V. ROSE, M. LORCA & F. PANZERA 211
- Patterns in abdominal pumping, miniature inspirations and heartbeats simultaneously recorded during cyclical gas exchange in adult *Hylobius abietis* (Coleoptera: Curculionidae) using a respirometer and IR actographs — I. SIBUL, A. KUUSIK & K. VOOLMA 219
- Ability of primary and secondary reproductives to inhibit the development of neotenics in *Kaloterme flavicollis* (Isoptera: Kalotermitidae) — J. KINDL 227
- Supercooling capacity and cold hardiness of the eggs of the grasshopper *Chorthippus fallax* (Orthoptera: Acrididae) — S.-G. HAO & L. KANG 231
- Intraguild predation between the aphidophagous ladybird beetles *Harmonia axyridis* and *Coccinella undecimpunctata* (Coleoptera: Coccinellidae): the role of body weight — S. FÉLIX & A.O. SOARES 237
- Effects of parasitoid associated factors of the endoparasitoid *Glyptapanteles liparidis* (Hymenoptera: Braconidae) — N.A. TILLINGER, G. HOCH & A. SCHOPF 243
- Host specificity or habitat structure? — The epicortical beetle assemblages in an Australian subtropical rainforest — F. MENZEL, R.L. KITCHING & S.L. BOULTER 251
- Immature stages of New Caledonian Tingidae (Heteroptera): Description and development — E. GUILBERT 261
- Review of larval morphology of beetles of the suborder Archostemata (Insecta: Coleoptera), including first-instar chaetotaxy — V.V. GREBENNIKOV 273
- Larval morphology of three species of Hygrobiidae (Coleoptera: Adepaga: Dytiscoidea) with phylogenetic considerations — Y. ALARIE, R.G. BEUTEL & C.H.S. WATTS 293
- Description of the first instar larvae of three species of *Meloe* with a key to the triangulins of Central European species of this genus (Coleoptera: Meloidae) — J. LÜCKMANN & S. SCHARF 313

NOTES

- Number and position of wounds on honey bee (*Apis mellifera*) pupae infested with a single *Varroa* mite — G. KANBAR & W. ENGELS 323
- The effect of heat stress on the survival of the rose grain aphid, *Metopolophium dirhodum* (Hemiptera: Aphididae) — C.-S. MA, B. HAU & H.-M. POEHLING 327
- Instar preference and parasitization of *Aphis gossypii* and *Myzus persicae* (Hemiptera: Aphididae) by the parasitoid *Aphidius colemani* (Hymenoptera: Aphidiidae) — D.CH. PERDIKIS, D.P. LYKOURESSIS, N.G. GARANTONAKIS & S.A. IATROU 333
- Some observations on the reproductive biology of the scuttle fly *Megaselia andrenae* (Diptera: Phoridae) at the nesting site of its host *Andrena agilissima* (Hymenoptera: Andrenidae) — C. POLIDORI, R.H.L. DISNEY & F. ANDRETTI 337
- Sex ratio of apollo butterfly *Parnassius apollo* (Lepidoptera: Papilionidae) — facts and artifacts — P. ADAMSKI ... 341
- Book reviews 226, 250, 272, 332, 346
- Obituary 345
