

CONTENTS

The effects of temperature on aphid morphology, using a multivariate approach — R.L. BLACKMAN & J.M. SPENCE	7
Environmental factors and morphological discrimination between spring and summer migrants of the grain aphid, <i>Sitobion avenae</i> (Homoptera: Aphididae) — A.J. HELDEN, A.F.G. DIXON & N. CARTER	23
Deadlines and delays as factors in aphid sex allocation — S.A. WARD & P. WELLINGS	29
Birth weight and the rate of increase in the cowpea aphid <i>Aphis craccivora</i> (Homoptera: Aphididae) — V. TRAIČEVSKI & S.A. WARD	37
Sieve element acceptance by aphids — W.F. TJALLINGII	47
Resource deprivation as an anti-herbivore strategy in plants, with particular referen- ce to aphids — N.A.C. KIDD	53
Sink strength and clone size of sympatric, gall-forming aphids — M. BURSTEIN, D. WOOL & A. ESHEL	57
Ecology of host alternation in aphids — A.F.G. DIXON & R. KUNDU	63
Phenotypic plasticity and fitness in aphids — W.W. WEISER & B. STADLER	71
Use of DNA sequences to reconstruct the history of the association between members of the Sternorrhyncha (Homoptera) and their bacterial endosym- bionts — N.A. MORAN, P. BAUMAN & C. VAN DOHLEN	79
Circadian rhythm of sex pheromone production and male activity of coexisting sibling species of <i>Cryptomyzus</i> aphids (Homoptera: Aphididae) — J.A. GULDEMOND, W.T. TIGGES & P.W.F. DE VRIJER	85
Evolution of host range in aphids — P. KINDLMANN & A.F.G. DIXON	91
Possible sound producing structures present in some Macrosiphini (Homoptera: Aphididae) — J. HOLMAN	97
Dynamics of re-migration of sexuparae to their primary hosts in the gall-forming Fordinae (Homoptera: Aphidoidea: Pemphigidae) — D. WOOL, O. MANHEIM, M. BURSTEIN & T. LEVI	103
DNA fingerprinting of cereal aphids using (GATA) ₄ — P. DE BARO, T. SHERRATT, S. WRATTEN & N. MACLEAN	109
Variation in behavioural migration in aphids — J. HARDIE	115
How variable are rates of colonisation? — P.W. WELLINGS	121
Why are there so few aphid species in the temperate areas of the southern hemisphere? — O.E. HEIE	127
The relationship between the regional number of aphid species and plant species diversity — A. MACKENZIE, A.F.G. DIXON & P. KINDLMANN	135
The simplification of aphid terminology — R.L. BLACKMAN	139
