PREFACE v

PART 1 LIFE AND DEATH OF MICROORGANISMS

- Chapter 1 Microbiology in the Biological World 1
- Chapter 2 Biochemistry of the Molecules of Life 7
- Chapter 3 Functional Anatomy of Prokaryotes and Eukaryotes 13
- Chapter 4 Dynamics of Bacterial Growth 21
- Chapter 5 Metabolism: The Generation of Energy and Synthesis of Small Molecules 29
- Chapter 6 Informational Molecules: Function, Synthesis, and Regulation of Activity 35
- Chapter 7 Bacterial Genetics 41
- Chapter 8 Microbiology and Biotechnology 47
- Chapter 9 Control of Microbial Growth 53

PART 2 MICROBIAL WORLD

- Chapter 10 Classification and Identification of Bacteria 59
- Chapter 11 Prokaryotic Microorganisms: Eubacteria and Archaeobacteria 63
- Chapter 12 Eukaryotic Microorganisms: Algae, Fungi, and Protozoa 69
- Chapter 13 The Nature and Study of Viruses 75
- Chapter 14 Viruses of Animals and Plants 81

PART 3 MICROORGANISMS AND HUMANS

- Chapter 15 Interactions Between Humans and Microorganisms 87
- Chapter 16 Immunology: The Specific Immune Response—Antigens, Antibodies, and Cell-Mediated Immunity 93
- Chapter 17 Immunology: Disorders of the Immune System 99
- Chapter 18 Epidemiology and Public Health 105
- Chapter 19 Skin Infections 111
- Chapter 20 Upper Respiratory System Infections 117
- Chapter 21 Lower Respiratory System Infections 121
- Chapter 22 Upper Alimentary System Infections 127
- Chapter 23 Lower Alimentary System Infections 131
- Chapter 24 Genitourinary Infections 137
- Chapter 25 Nervous System Infections 143
- Chapter 26 Wound Infections 149
- Chapter 27 Blood and Lymphatic Infections: Bacterial 153
- Chapter 28 Blood and Lymphatic Infections: Viral and Protozoan 157
- Chapter 29 Antimicrobial and Antiviral Medicines 161

PART 4 APPLIED MICROBIOLOGY

- Chapter 30 Microbial Ecology and Terrestrial Microbiology 167
- Chapter 31 Microbiology and Ecology of Aquatic Environments 173
- Chapter 32 Microbiology of Waste Treatment 177
- Chapter 33 The Microbiology of Food and Beverages 181
