

CONTENT

	Content	3
	List of Figures	5
	List of Tables	6
1	INTRODUCTION	7
2	EDUCATION IN THE 21TH CENTURY	9
2.1	Selected Problems of Education by means of Technologies	10
2.2	Education in the Virtual Environment	14
3	E-LEARNING - VIRTUAL LEARNING ENVIRONMENT	18
3.1	Multi-User Virtual Environment	20
3.2	Method of E-learning in the International Context of Higher Educations	24
3.3	From the History, Types and Elements of E-learning	31
3.4	Kinds and Components of E-learning	32
3.5	Traditional versus Distance Education and Primary Education	33
3.6	Life-long Learning	34
3.6	Key Competencies vs. Lifelong Learning	36
3.7	Distance Education and E-Learning	37
4	E-learning and real instruction	44
4.1	Didactic problems in the process of course design	48
4.2	Designing e-courses and their evaluation	50
4.3	Study materials in e-learning	51
4.4	Typical characteristics of study materials in e-learning	53
4.5	Quality of education in the e-learning context	60
4.5.1	Quality in terms of Integrating Technologies in Education	63
4.5.2	quality in terms of E-Learning	65
5	Learning Management Systems (LMS)	70
5.1	Definition of terms LMS and course	70
5.1.1	Team of Implementation and Users' Roles at LMS	72
5.2	Advantages and disadvantages of LMS	75
5.2.1	Benefits	76
5.2.2	Disadvantages and Limitations Possible	79
5.3	Technology affecting modern LMS	81
5.4	Trends in LMS	84
5.4.1	M-learning, multi-screening and their impacts on the responsible LMS design	84
5.4.2	Webinars	91
5.4.3	Gamification	92
5.4.4	Massive Open online Courses	92

6	Comparative Analysis of the LMS Selected Systems	94
6.1	Moodle	94
6.2	Blackboard	98
6.3	EnterpriseKnowledgePlatformTM	101
6.4	Evaluation Criteria	104
6.5	Comparison Selected Systems	104
6.5.1	Displaying in Tablets and Mobile Phones	106
6.5.2	Analysis Summary	107
7	Communication and cooperation within LMS	109
7.1	Defining basic terminology	109
7.1.1	On-Line Tools supporting Communication and Cooperation	114
7.2	Communication tools	115
7.2.1	Communication in terms of Moodle Tools	118
7.2	Cooperation tools	121
7.2.1	Cooperation in terms of Moodle Tools	122
8	RESEARCH ON THE USE OF COOPERATION AND COMMUNICATION TOOLS IN LMS MOODLE	123
8.1	Research objectives	124
8.2	Defining the research problem	125
8.3	Research methodology	127
8.3.1	Quantitative Methods	127
8.3.2	Qualitative Methods	130
8.3.3	Research Process	131
8.4	Research sample description	132
8.5	Research results	133
8.5.1	Pedagogical Experiment	133
8.5.2	Focus Group - Reflection of Specific Tools	146
8.6	Final summary of research results, interpretation and discussion	148
9	Conclusion	151
	List of sources	152
	Register	159
	Resume	161
	Resumé	162
