Foreword .....	vii
Introduction.....	ix
Editors .....	xiii
Contributors .....	xv

## **SECTION 1 Classical Techniques**

<b>Chapter 1</b> Using Spectroscopic Techniques to Examine Drug–DNA Interactions .....	3
--	---

*Matthew R. Hicks, Nikita U. Orkey, Michelle J. Pisani, J. Grant Collins, Nial J. Wheate, and Janice R. Aldrich-Wright*

<b>Chapter 2</b> Probing DNA and RNA Interactions with Biogenic and Synthetic Polyamines: Models and Biological Implications .....	43
--	----

*H. A. Tajmir-Riahi, A. Ahmed Ouameur, I. Hasni, P. Bourassa, and T. J. Thomas*

## **SECTION 2 Emerging Techniques**

<b>Chapter 3</b> Mass Spectrometry–Based Techniques for Studying Nucleic Acid/Small Molecule Interactions.....	67
--	----

*Richard H. Griffey*

<b>Chapter 4</b> Real-Time Monitoring of Nucleic Acid Interactions with Biosensor-Surface Plasmon Resonance.....	91
--	----

*Rupesh Nanjunda, Manoj Munde, Yang Liu, and W. David Wilson*

<b>Chapter 5</b> Studying Aptamer/Ligand Interactions Using Fluorescence Correlation Spectroscopy .....	123
---	-----

*Eileen Magbanua, Katja Eydeler, Volker Alexander Lenski, Arne Werner, and Ulrich Hahn*

<b>Chapter 6</b>	Studying Nucleic Acid–Drug Interactions at the Single-Molecule Level Using Optical Tweezers.....	135
	<i>Thayaparan Paramanathan, Micah J. McCauley, and Mark C. Williams</i>	
<b>Chapter 7</b>	Fluorescent Nucleoside Analogs for Monitoring RNA–Drug Interactions .....	159
	<i>Mary S. Noé, Yun Xie, and Yitzhak Tor</i>	
<b>Chapter 8</b>	Atomic Force Microscopy Investigation of DNA–Drug Interactions .....	183
	<i>Jozef Adamcik and Giovanni Dietler</i>	
<b>Chapter 9</b>	Characterizing RNA–Ligand Interactions Using Two-Dimensional Combinatorial Screening.....	197
	<i>Sai Pradeep Velagapudi and Matthew D. Disney</i>	
<b>Chapter 10</b>	EPR Spectroscopy for the Study of RNA–Ligand Interactions .....	223
	<i>Snorri Th. Sigurdsson</i>	
<b>Chapter 11</b>	Electrochemical Approaches to the Study of DNA/Drug Interactions .....	241
	<i>Shinobu Sato and Shigeori Takenaka</i>	
<b>Chapter 12</b>	Nanopore Ion Microscope for Detecting Nucleic Acid/Drug Interactions .....	261
	<i>Meni Wanunu</i>	
<b>Chapter 13</b>	A Primer for Relaxation Kinetic Measurements.....	285
	<i>Ulai Noomnarm and Robert M. Clegg</i>	
<b>Chapter 14</b>	DNA–Drug Interactions: A Theoretical Perspective .....	315
	<i>B. Jayaram, Tanya Singh, and Marcia O. Fenley</i>	
<b>Chapter 15</b>	Computational Studies of RNA Dynamics and RNA–Ligand Interactions .....	337
	<i>Julia Romanowska, Dariusz Ekonomiuk, and Joanna Trylska</i>	
<b>Index</b> .....		361
