Preface.....	ix
Acknowledgments from Elizabeth “Izzie” Gall	xi
Editors	xiii
Contributors	xv
Chapter 1 Nutrient Cycling and Trophic Lifestyles	1
<i>Elizabeth “Izzie” Gall and Nouredine Benkeblia</i>	
Chapter 2 Evolution and Symbiosis	21
<i>Elizabeth “Izzie” Gall</i>	
Chapter 3 Population Dynamics	27
<i>Elizabeth “Izzie” Gall</i>	
Chapter 4 The Kingdom Fungi	35
<i>Steven Stephenson and Elizabeth “Izzie” Gall</i>	
Chapter 5 Limiting Factors in Agriculture	51
<i>Nouredine Benkeblia</i>	
Chapter 6 Principles of Crop Breeding and Productivity	69
<i>Elizabeth “Izzie” Gall</i>	
Chapter 7 Pests and Pest Management Methods	83
<i>Juan F. Barrera</i>	
Chapter 8 Economic Factors in Agriculture	95
<i>Elizabeth “Izzie” Gall and Barbara Weil Laff</i>	
Chapter 9 The Green Revolution: Agricultural Shifts of the 20th Century	111
<i>Elizabeth “Izzie” Gall</i>	
Chapter 10 The Second Green Revolution and the Role of Mycoagroecology	125
<i>Elizabeth “Izzie” Gall</i>	

SECTION I Partners

- Chapter 11** Plant-Fungal Mutualisms 135
Jason C. Slot
- Chapter 12** Incorporating Microbes into Agricultural Soils..... 145
Elizabeth “Izzie” Gall

SECTION II Pests and Pest Control Agents

- Chapter 13** Fungal Diseases in Agriculture: Significance, Management, and Control 161
Noureddine Benkeblia
- Chapter 14** Fungal Pathogens in Forested Ecosystems..... 175
Denita Hadziabdic, Aaron Onufrak, and Romina Gazis
- Chapter 15** Fungal Interactions with Other Pests 197
Guillermo E. Valero David and Jason C. Slot

SECTION III Products

- Chapter 16** Principles of Modern Fungal Cultivation..... 217
Elizabeth “Izzie” Gall
- Chapter 17** Integrating Fungi into Existing Farms 227
Elizabeth “Izzie” Gall
- Chapter 18** Fungi in Food Processing..... 243
Noureddine Benkeblia
- Index**..... 265
