## Anatomy and Physiology

<b>1</b>	<b>Gross Anatomy, Cranial and Spine</b> . . . . .	56
1.1	Cortical surface anatomy . . . . .	56
1.2	Central sulcus on axial imaging . . . . .	58
1.3	Surface anatomy of the cranium . . . . .	60
1.4	Surface landmarks of spine levels . . . . .	63
1.5	Cranial foramina and their contents . . . . .	63
1.6	Internal capsule . . . . .	66
1.7	Cerebellopontine angle anatomy . . . . .	67
1.8	Occipitoatlantoaxial-complex anatomy . . . . .	67
1.9	Spinal cord anatomy . . . . .	69

<b>2</b>	<b>Vascular Anatomy</b> . . . . .	74
----------	-----------------------------------	----

2.1	Cerebral vascular territories . . . . .	74
2.2	Cerebral arterial anatomy . . . . .	74
2.3	Cerebral venous anatomy . . . . .	84
2.4	Spinal cord vasculature . . . . .	87

<b>3</b>	<b>Neurophysiology and Regional Brain Syndromes</b> . . . . .	90
----------	---	----

3.1	Neurophysiology . . . . .	90
3.2	Regional brain syndromes . . . . .	98
3.3	Jugular foramen syndromes . . . . .	102

## General and Neurology

<b>4</b>	<b>Neuroanesthesia</b> . . . . .	108
----------	----------------------------------	-----

4.1	ASA classification . . . . .	108
4.2	Neuroanesthesia parameters . . . . .	108
4.3	Drugs used in neuroanesthesia . . . . .	109
4.4	Anesthetic requirements for intraoperative evoked potential monitoring . . . . .	112
4.5	Malignant hyperthermia . . . . .	112

<b>5</b>	<b>Sodium Homeostasis and Osmolality</b> . . . . .	114
----------	--	-----

5.1	Serum osmolality and sodium concentration . . . . .	114
5.2	Hyponatremia . . . . .	114
5.3	Hypernatremia . . . . .	124

<b>6</b>	<b>General Neurocritical Care</b> .....	131
6.1	Parenteral agents for hypertension .....	131
6.2	Hypotension (shock) .....	132
6.3	Acid inhibitors .....	134
6.4	Rhabdomyolysis .....	136
<b>7</b>	<b>Sedatives, Paralytics, Analgesics</b> .....	139
7.1	Sedatives and paralytics .....	139
7.2	Paralytics (neuromuscular blocking agents) .....	141
7.3	Analgesics .....	143
<b>8</b>	<b>Endocrinology</b> .....	151
8.1	Pituitary embryology and neuroendocrinology .....	151
8.2	Corticosteroids .....	153
8.3	Hypothyroidism .....	158
<b>9</b>	<b>Hematology</b> .....	160
9.1	Circulating blood volume .....	160
9.2	Blood component therapy .....	160
9.3	Anticoagulation considerations in neurosurgery .....	163
9.4	Extramedullary hematopoiesis .....	179
<b>10</b>	<b>Neurology for Neurosurgeons</b> .....	182
10.1	Dementia .....	182
10.2	Headache .....	182
10.3	Parkinsonism .....	184
10.4	Multiple sclerosis .....	187
10.5	Acute disseminated encephalomyelitis .....	190
10.6	Motor neuron diseases .....	191
10.7	Guillain-Barré syndrome .....	193
10.8	Myelitis .....	195
10.9	Neurosarcoidosis .....	198
<b>11</b>	<b>Neurovascular Disorders and Neurotoxicology</b> .....	202
11.1	Posterior reversible encephalopathy syndrome (PRES) .....	202
11.2	Crossed cerebellar diaschisis .....	202
11.3	Vasculitis and vasculopathy .....	203
11.4	Neurotoxicology .....	212

<b>Imaging and Diagnostics</b>	
<b>12 Plain Radiology and Contrast Agents</b>	222
12.1 C-Spine X-rays	222
12.2 Lumbosacral (LS) spine X-rays	226
12.3 Skull X-rays	227
12.4 Contrast agents in neuroradiology	230
12.5 Radiation safety for neurosurgeons	234
<b>13 Imaging and Angiography</b>	238
13.1 CAT scan (AKA CT scan)	238
13.2 Pregnancy and CT scans	239
13.3 Magnetic resonance imaging (MRI)	239
13.4 Angiography	247
13.5 Myelography	247
13.6 Radionuclide scanning	247
<b>14 Electrodiagnostics</b>	249
14.1 Electroencephalogram (EEG)	249
14.2 Evoked potentials	249
14.3 NCS/EMG	254
<b>Developmental Anomalies</b>	
<b>15 Primary Intracranial Anomalies</b>	260
15.1 Arachnoid cysts, intracranial	260
15.2 Craniofacial development	264
15.3 Dandy Walker malformation	270
15.4 Aqueductal stenosis	273
15.5 Agenesis of the corpus callosum	274
15.6 Absence of the septum pellucidum	276
15.7 Intracranial lipomas	276
15.8 Hypothalamic hamartomas	277
<b>16 Primary Spinal Developmental Anomalies</b>	280
16.1 Spinal arachnoid cysts	280
16.2 Spinal dysraphism (spina bifida)	280
16.3 Failure of vertebral segmentation and formation	288
16.4 Klippel-Feil syndrome	289

16.5	Tethered cord syndrome . . . . .	290
16.6	Split cord malformation . . . . .	292
16.7	Lumbosacral nerve root anomalies . . . . .	293
	Hypotension (shock) . . . . .	132
<b>17</b>	<b>Primary Craniospinal Anomalies</b> . . . . .	295
17.1	Chiari malformations . . . . .	295
17.2	Neural tube defects . . . . .	308
17.3	Neurenteric cysts . . . . .	313
	<b>Coma and Brain Death</b> . . . . .	
<b>18</b>	<b>Coma</b> . . . . .	318
18.1	Coma and coma scales . . . . .	318
18.2	Posturing . . . . .	319
18.3	Etiologies of coma . . . . .	319
18.4	Herniation syndromes . . . . .	324
18.5	Hypoxic coma . . . . .	328
<b>19</b>	<b>Brain Death and Organ Donation</b> . . . . .	330
19.1	Brain death in adults . . . . .	330
19.2	Brain death criteria . . . . .	330
19.3	Brain death in children . . . . .	335
19.4	Organ and tissue donation . . . . .	336
	<b>Infection</b> . . . . .	
<b>20</b>	<b>Bacterial Infections of the Parenchyma and Meninges and Complex Infections</b> . . . . .	340
20.1	Meningitis . . . . .	340
20.2	Cerebral abscess . . . . .	343
20.3	Subdural empyema . . . . .	350
20.4	Neurologic involvement in HIV/AIDS . . . . .	353
20.5	Tuberculosis of the CNS (neurotuberculosis) . . . . .	357
20.6	Lyme disease—neurologic manifestations . . . . .	364
20.7	Nocardia brain abscess . . . . .	366
<b>21</b>	<b>Skull, Spine, and Post-Surgical Infections</b> . . . . .	371
21.1	Shunt infection . . . . .	371
21.2	External ventricular drain (EVD)-related infection . . . . .	374
21.3	Wound infections . . . . .	377

21.4	Osteomyelitis of the skull . . . . .	380
21.5	Spine infections . . . . .	380
<b>22</b>	<b>Other Nonbacterial Infections</b> . . . . .	<b>397</b>
22.1	Viral encephalitis . . . . .	397
22.2	Creutzfeldt-Jakob disease . . . . .	399
22.3	Parasitic infections of the CNS . . . . .	404
22.4	Fungal infections of the CNS . . . . .	409
22.5	Amebic infections of the CNS . . . . .	410
	<b>Hydrocephalus and Cerebrospinal Fluid (CSF)</b>	
<b>23</b>	<b>Cerebrospinal Fluid</b> . . . . .	<b>414</b>
23.1	General CSF characteristics . . . . .	414
23.2	Bulk flow model . . . . .	414
23.3	CSF constituents . . . . .	415
23.4	Cranial CSF fistula . . . . .	415
23.5	Spinal CSF fistula . . . . .	418
23.6	Meningitis in CSF fistula . . . . .	418
23.7	Evaluation of the patient with CSF fistula . . . . .	418
23.8	Treatment for CSF fistula . . . . .	420
23.9	Spontaneous intracranial hypotension (SIH) . . . . .	421
<b>24</b>	<b>Hydrocephalus – General Aspects</b> . . . . .	<b>426</b>
24.1	Basic definition . . . . .	426
24.2	Epidemiology . . . . .	426
24.3	Etiologies of hydrocephalus . . . . .	426
24.4	Signs and symptoms of HCP . . . . .	427
24.5	Imaging diagnosis of hydrocephalus . . . . .	431
24.6	Differential diagnosis of hydrocephalus . . . . .	433
24.7	External hydrocephalus (AKA benign external hydrocephalus) . . . . .	433
24.8	X-linked hydrocephalus . . . . .	434
24.9	“Arrested hydrocephalus” in pediatrics . . . . .	435
24.10	Entrapped fourth ventricle . . . . .	436
24.11	Ventriculomegaly in adults . . . . .	437
24.12	Normal pressure hydrocephalus (NPH) . . . . .	438
24.13	Hydrocephalus and pregnancy . . . . .	447
<b>25</b>	<b>Treatment of Hydrocephalus</b> . . . . .	<b>452</b>
25.1	Medical treatment of hydrocephalus . . . . .	452

25.2	Spinal taps . . . . .	452
25.3	Surgical . . . . .	452
25.4	Endoscopic third ventriculostomy . . . . .	453
25.5	Shunts . . . . .	454
25.6	Shunt problems . . . . .	458
25.7	Specific shunt systems . . . . .	467
25.8	Surgical insertion techniques. . . . .	475
25.9	Instructions to patients . . . . .	475
<b>Seizures</b>		
26	<b>Seizure Classification and Syndromes</b> . . . . .	480
26.1	Seizure definitions and classification . . . . .	480
26.2	Epilepsy syndromes . . . . .	482
27	<b>Antiseizure Medication (ASM)</b> . . . . .	485
27.1	General information . . . . .	485
27.2	Antiseizure medications (ASM) for various seizure types. . . . .	485
27.3	Antiseizure medication pharmacology . . . . .	487
27.4	Withdrawal of antiseizure medications . . . . .	499
27.5	Pregnancy and antiseizure medications . . . . .	500
28	<b>Special Seizure Considerations</b> . . . . .	503
28.1	New onset seizures . . . . .	503
28.2	Posttraumatic seizures . . . . .	504
28.3	Alcohol withdrawal seizures . . . . .	506
28.4	Nonepileptic seizures . . . . .	507
28.5	Febrile seizures . . . . .	509
28.6	Status epilepticus . . . . .	510
<b>Pain</b>		
29	<b>Pain</b> . . . . .	518
29.1	Major types of pain. . . . .	518
29.2	Neuropathic pain syndromes . . . . .	518
29.3	Craniofacial pain syndromes . . . . .	519
29.4	Postherpetic neuralgia . . . . .	522
29.5	Complex regional pain syndrome (CRPS) . . . . .	525

<b>Peripheral Nerves</b>	
<b>30</b>	<b>Peripheral Nerves</b> . . . . . 530
30.1	Peripheral nerves – definitions and grading scales. . . . . 530
30.2	Muscle innervation . . . . . 531
30.3	Peripheral nerve injury/surgery . . . . . 535
<b>31</b>	<b>Entrapment Neuropathies</b> . . . . . 541
31.1	Entrapment neuropathy – definitions and associations . . . . . 541
31.2	Mechanism of injury . . . . . 541
31.3	Occipital nerve entrapment . . . . . 541
31.4	Median nerve entrapment . . . . . 543
31.5	Ulnar nerve entrapment. . . . . 553
31.6	Radial nerve injuries . . . . . 558
31.7	Injury in the hand . . . . . 560
31.8	Axillary nerve injuries . . . . . 560
31.9	Suprascapular nerve . . . . . 560
31.10	Meralgia paresthetica . . . . . 561
31.11	Obturator nerve entrapment . . . . . 562
31.12	Femoral nerve entrapment. . . . . 562
31.13	Common peroneal nerve palsy . . . . . 563
31.14	Tarsal tunnel . . . . . 565
<b>32</b>	<b>Non-Entrapment Peripheral Neuropathies</b> . . . . . 568
32.1	General information . . . . . 568
32.2	Etiologies of peripheral neuropathy . . . . . 568
32.3	Classification. . . . . 568
32.4	Clinical . . . . . 569
32.5	Syndromes of peripheral neuropathy . . . . . 569
32.6	Peripheral nerve injuries . . . . . 577
32.7	Missile injuries of peripheral nerves . . . . . 581
32.8	Thoracic outlet syndrome . . . . . 581
	<b>Neurophthalmology and Neurotology</b>
<b>33</b>	<b>Neurophthalmology</b> . . . . . 586
33.1	Nystagmus . . . . . 586
33.2	Papilledema . . . . . 586
33.3	Visual fields. . . . . 588

33.4	Pupillary diameter . . . . .	590
33.5	Extraocular muscle (EOM) system . . . . .	596
33.6	Neurophthalmologic syndromes . . . . .	600
33.7	Miscellaneous neurophthalmologic signs . . . . .	601
<b>34</b>	<b>Neurotology</b> . . . . .	<b>603</b>
34.1	Dizziness and vertigo . . . . .	603
34.2	Meniere disease . . . . .	604
34.3	Facial nerve palsy . . . . .	607
34.4	Hearing loss . . . . .	611
<b>Tumors of the Nervous and Related Systems</b>		
<b>35</b>	<b>Tumor Classification and General Information</b> . . . . .	<b>616</b>
35.1	WHO classification of tumors of the nervous system . . . . .	616
35.2	Pediatric brain tumors. . . . .	621
35.3	Brain tumors—general clinical aspects . . . . .	622
35.4	Management of the patient with a brain tumor . . . . .	626
35.5	Chemotherapy agents for brain tumors . . . . .	627
35.6	Intraoperative pathology consultations (“frozen section”) . . . . .	629
35.7	Select commonly utilized stains in neuropathology. . . . .	631
<b>36</b>	<b>Genetic Tumor Syndromes Involving the CNS</b> . . . . .	<b>637</b>
36.1	General information . . . . .	637
36.2	Neurofibromatosis . . . . .	637
36.3	Other genetic tumor syndromes involving the CNS. . . . .	644
<b>37</b>	<b>Adult Diffuse Gliomas</b> . . . . .	<b>657</b>
37.1	Incidence . . . . .	657
37.2	Risk factors for diffuse gliomas . . . . .	657
37.3	General features of gliomas . . . . .	657
37.4	Adult-type diffuse gliomas. . . . .	658
37.5	Treatment for adult-type diffuse gliomas . . . . .	668
<b>38</b>	<b>Pediatric-type Diffuse Tumors</b> . . . . .	<b>679</b>
38.1	Pediatric-type diffuse low-grade gliomas . . . . .	679
38.2	Pediatric-type diffuse high-grade gliomas . . . . .	683

<b>39</b>	<b>Circumscribed Astrocytic Gliomas</b> .....	689
39.1	General meaning of “circumscribed” .....	689
39.2	Specific tumor types .....	689
<b>40</b>	<b>Glioneuronal and Neuronal Tumors</b> .....	706
40.1	Glioneuronal tumors .....	706
40.2	Neuronal tumors .....	717
<b>41</b>	<b>Ependymal Tumors</b> .....	724
41.1	Introduction to ependymal tumors .....	724
41.2	Specific tumor types .....	724
<b>42</b>	<b>Choroid Plexus Tumors</b> .....	739
42.1	General information .....	739
42.2	Choroid plexus tumor types .....	739
<b>43</b>	<b>Embryonal Tumors</b> .....	744
43.1	General information for embryonal tumors .....	744
43.2	Medulloblastoma (a subset of embryonal tumors), general aspects .....	744
43.3	Medulloblastomas by definition criteria .....	748
43.4	CNS embryonal tumors other than medulloblastoma .....	754
<b>44</b>	<b>Pineal Tumors and Pineal Region Lesions</b> .....	758
44.1	Pineal region lesions .....	758
44.2	Pineal tumors .....	762
<b>45</b>	<b>Cranial and Paraspinal Nerve Tumors</b> .....	768
45.1	General information .....	768
45.2	Specific cranial and paraspinal nerve tumors .....	768
45.3	Vestibular schwannoma .....	777
<b>46</b>	<b>Meningiomas (Intracranial)</b> .....	803
46.1	General information .....	803
46.2	Meningioma tumor types .....	803
<b>47</b>	<b>Mesenchymal, Non-meningothelial Tumors</b> .....	820
47.1	General information .....	820

47.2	Fibroblastic and myofibroblastic tumors . . . . .	820
47.3	Vascular tumors . . . . .	821
47.4	Notochordal tumors . . . . .	825
<b>48</b>	<b>Melanocytic Tumors and CNS Germ Cell Tumors . . . . .</b>	<b>829</b>
48.1	Melanocytic tumors . . . . .	829
48.2	Germ cell tumors of the CNS . . . . .	831
<b>49</b>	<b>Hematolymphoid Tumors Involving the CNS . . . . .</b>	<b>840</b>
49.1	CNS lymphomas . . . . .	840
49.2	Histiocytic tumors . . . . .	846
<b>50</b>	<b>Tumors of the Sellar Region . . . . .</b>	<b>849</b>
50.1	General information . . . . .	849
