

CONTENTS

Preface.....	7
List of used symbols and normal values for the ECG curve sections	9
Chapter 1. Normal ECG	10
Chapter 2. Some electrophysiological investigation methods	19
Chapter 3. Sinus rhythm changes	33
Chapter 4. P wave changes	39
Chapter 5. Supraventricular arrhythmias	44
Chapter 6. Atrioventricular blocks	72
Chapter 7. Disorders of intraventricular conduction	99
Chapter 8. Ventricular pre-excitation.	110
Chapter 9. Ventricular arrhythmias	120
Chapter 10. Localized changes (myocardial infarctions)	146
Chapter 11. Ventricular hypertrophy	168
Chapter 12. Influence of ionic changes and drugs on ECG	172
Chapter 13. Cardiac pacing	183
Chapter 14. Changes of heart position in the chest	193
Chapter 15. ECG findings in some diseases and defects	205
Chapter 16. Special electrocardiographic phenomena	211
