

Content

Rules of Study and Directions for Laboratory Work.....	5
General Safety Guidelines.....	7
1 Solutions.....	9
1.1 Volumetric Ware in Chemical Laboratory.....	9
Forward Pipetting.....	12
Reverse Pipetting.....	12
Pipetting of Heterogeneous Samples (Serum, Blood).....	13
1.2 Preparation of Solution with Given Concentration.....	14
1.3 Photometric Verification of Concentration.....	15
2 pH Measurement. Titration Curves.....	17
2.1 Measuring pH of Solutions of Acids, Bases and Salts.....	17
a) Estimation of pH by Use of Indicators.....	17
b) Potentiometric Measuring of pH.....	18
2.2 Construction of Acid-Base Titration Curves.....	20
3 Buffer Solutions.....	22
3.1 Preparation of Phosphate Buffers with Different Values of pH.....	22
3.2 Titration of Buffer and Determination of Buffer Capacity.....	24
4 Selected Ionic Reactions.....	26
4.1 Detection and Determination of Nitrates in Water.....	27
a) Detection of Nitrate by Diphenylamine Test.....	28
b) Estimation of Nitrate/Nitrite by Test Strips.....	28
c) Determination of Nitrate by Combined Nitrate Ion-Selective Electrode.....	28
4.2 Detection of Nitrite in Water.....	29
4.3 Properties and Detection of Ammonium (NH_4^+).....	29
4.4 Properties and Reactions of Phosphate Anions.....	30
4.5 Properties and Reactions of Carbonate & Bicarbonate Anions.....	32
5 Chromatography.....	33
5.1 Adsorption Thin Layer Chromatography of Azo Dyes.....	33
5.2 Adsorption Column Chromatography of Carotenoids.....	36
5.3 High Performance Liquid Chromatography.....	38
6 Alcolhols, Saccharides.....	40
6.1 Oxidation of Alcolhols.....	40
a) Oxidation of Alcolhols by Cupric Oxide.....	41
Detection of Aldehydes by Schiff's Reagent.....	41
Detection of Ketones by Lestradet's Reagent.....	41
b) Oxidation of Ethanol by Potassium Dichromate.....	41
6.2 Determination of Ethanol in Blood.....	41
6.3 Reducing Properties of Sugars.....	43
6.4 Reducing Effects of L-Ascorbic Acid.....	44
a) Reduction of Fe^{3+} Ions with L-Ascorbic Acid.....	44
b) Oxidation of L-Ascorbic Acid with Air Oxygen.....	45
6.5 Molecular Models of Monosaccharides and L-Ascorbic Acid.....	45
7 Amino Acids and Proteins.....	46
7.1 Effect of pH on Ionization of Amino Acids.....	46
7.2 Colour Reactions of Amino Acids and Proteins.....	47
a) Biuret Test.....	48
b) Detection of Cysteine and Homocysteine.....	48
c) Detection of Tyrosine and Tryptophan.....	48
7.3 Estimation of Isoelectric Point of Casein.....	48
7.4 Solubility of Proteins, Precipitation of Proteins.....	49
a) Salting out Effect.....	50
b) Precipitation of Proteins with Ethanol.....	50
c) Precipitation of Proteins after Their Thermal Denaturation.....	50
d) Precipitation of Proteins with Concentrated Mineral Acids.....	50
e) Precipitation of Proteins with Acid Deproteinization Agents.....	50
