| PREFACE | vii |
|----------------------|-----|

PART 1. CARDIOLOGY

| | |
|---|----|
| Case 1: Inconsolable Crying While Feeding..... | 3 |
| Case 2: Newborn With Inaudible Heart Sounds | 9 |
| Case 3: Noisy Breathing Since Birth..... | 15 |
| Case 4: Fetal Bradycardia That Persists Postnatally | 21 |

PART 2. DERMATOLOGY

| | |
|--|----|
| Case 5: Skin Rash, Poor Feeding, and Diarrhea in a 22-Day-Old Boy | 27 |
| Case 6: A Rash After Intensive Phototherapy | 35 |
| Case 7: Three-Week-Old With Fever and a Desquamating Rash..... | 41 |
| Case 8: Newborn With Hemorrhagic Papulonodular Lesions | 49 |
| Case 9: Term Neonate With Hypotension and Rash | 57 |
| Case 10: Large Skin Defect of the Trunk Noted at Birth..... | 61 |
| Case 11: An Infant Who Develops an Erythematous Lesion on the Cheek..... | 69 |
| Case 12: Seizure-like Symptoms in a 2-Day-Old Term Girl..... | 77 |

PART 3. ENDOCRINOLOGY

| | |
|---|-----|
| Case 13: Five-Day-Old With Recurrent Hypoglycemia..... | 87 |
| Case 14: 5-Week-Old Dehydrated Infant With Increased Urine Output | 95 |
| Case 15: Premature Baby Girl With Ambiguous Genitalia..... | 101 |
| Case 16: Hypoglycemia in a Term Appropriate for Gestational Age Infant..... | 111 |
| Case 17: Six-Day-Old With Tachycardia and Tachypnea | 117 |

PART 4. FLUIDS AND ELECTROLYTES

| | |
|---|-----|
| Case 18: Hypernatremia in a 2-Week-Old Preterm Infant | 125 |
|---|-----|

PART 5. GASTROENTEROLOGY

| | |
|---|-----|
| Case 19: Poor Feeding and Emesis in a 1-Day-Old Boy | 131 |
| Case 20: A Preterm Newborn Who Has Abdominal Ascites..... | 141 |
| Case 21: A Preterm Girl Who Has a Distended Abdomen and Absent Bowel Sounds..... | 149 |
| Case 22: Late Preterm Infant With an Abdominal Mass | 155 |
| Case 23: Coagulopathy, Hepatomegaly, and Ascites in a Term Newborn..... | 161 |

| | | |
|--|---|-----|
| Case 24: | An Extremely Low-Birthweight Infant Who Has Scrotal Discoloration..... | 167 |
| Case 25: | A Newborn Who Has Cystic Structures in the Lung | 175 |
| PART 6. GENETICS | | |
| Case 26: | Bilateral Pedal Edema in a Newborn..... | 185 |
| PART 7. HEMATOLOGY/ONCOLOGY | | |
| Case 27: | Term Infant With Hepatosplenomegaly..... | 193 |
| Case 28: | Blueberry Muffin Rash and Respiratory Distress in a Late-Preterm Infant..... | 201 |
| Case 29: | A Newborn Who Has a Swollen Upper Extremity | 209 |
| Case 30: | Twins With Persistent Jaundice..... | 219 |
| PART 8. INBORN ERRORS OF METABOLISM | | |
| Case 31: | Persistent Severe Metabolic Acidosis in a Newborn | 225 |
| Case 32: | Lethargy in a 5-Day-Old Boy..... | 231 |
| Case 33: | Two-Day-Old With Hypothermia and Hypoglycemia | 235 |
| Case 34: | Lethargy, Stiffening, and Poor Feeding of Term Infant at 2½ Days of Age | 241 |
| Case 35: | Profuse Diarrhea in a 4-Day-Old Term Boy..... | 245 |
| PART 9. MATERNAL-FETAL MEDICINE | | |
| Case 36: | Diagnostic Fetal Heart Tracing | 253 |
| Case 37: | No Visible Fetal Stomach Bubble and Elevated Amniotic Fluid Index..... | 259 |
| PART 10. NEPHROLOGY | | |
| Case 38: | Respiratory Distress, Flaccid Abdominal Musculature, and Cryptorchidism | 267 |
| PART 11. NEUROLOGY | | |
| Case 39: | Hypotonia and Arthrogryposis in a Neonate..... | 277 |
| Case 40: | Two-Day-Old Newborn With Failure to Void | 281 |
| Case 41: | Term Infant With Episodes of Apnea and Bradycardia..... | 287 |
| Case 42: | Two-Month-Old With Episodic Body Contractions | 293 |
| Case 43: | A Term Newborn Who Has a Sacral Mass..... | 297 |
| Case 44: | Neural Tube Defect in Infant of Epileptic Mother | 305 |

Preface

PART 12. OTOLARYNGOLOGY

Case 45: Masses in the Oral Cavity.....311
 Case 46: Black Lesion on the Tongue.....319

PART 13. PULMONOLOGY

Case 47: Late Preterm Baby With Recurrent Respiratory Distress.....327
 Case 48: Persistent Tachypnea in a Newborn.....333
 Case 49: Persistent Hypoxemia and Pulmonary Hypertension in a
 3-Day-Old Infant.....339
 Case 50: Respiratory Compromise and Abdominal Wall Crepitus in a
 3-Week-Old Infant.....347
 Case 51: Respiratory Distress and Shock at 1 Month of Age355

PART 14. SKELETAL SYSTEM

Case 52: 36-Week Male Infant With Skeletal Abnormalities363

INDEX.....371

providing, American Academy of Pediatrics (AAP) for his thoughtful oversight
 Lynn Zarova (managing editor, NewReviews) for her valuable guidance, and Sara
 Stroud and Lawanda Tucker (editorial assistants, NewReviews) for their dedication
 and hard work. Thanks also to Peter Lynch (manager, digital strategy and product
 development, AAP) and Elysia Acevedo (editor, digital publishing, AAP) for their
 significant contributions to the editing of this book. Finally, as this would not be
 possible without the strength of our patients and commitment of their families, they
 continue to motivate us to improve our clinical and diagnostic skills.

We hope that clinicians will enjoy reading this book and will gain knowledge
 that might be helpful at the bedside, when they are faced with similar clinical
 presentations.

Dara Brodsky, MD
 Joe Neill, MD
