Table of Contents

Part I. Operational Steps of Minitab

Chapter 1. What Does Minitab Do? ...1

Minitab Programs 1
Differences between Mainframe and PC Minitab 1
Three Operational Steps of Minitab 1
Minitab Screen Structure 2
Minitab Menu System 4

Chapter 2. What Do Minitab Input Files Look Like? ...11

Types of Minitab Input Files 11
Types of Commands 12
One-File Method 13
Two-File Method 18

Chapter 3. Typing the Data and Command Files using a Text Editor (Word Processing Software) ...23

ASCII File and the System File 23
Typing an ASCII File 24
Explanations on Statements 25
Minitab Commands and User-Defined Words 27
Common Errors in Minitab Programming 29
To Save a File in the ASCII Format 29

Chapter 4. Running Minitab with a Batch File ...31

Text Editor Method of Batch File Processing 31
Where Do You Want the Output? - Outfile - Execute 33
Two-File Batch Processing using Minitab Commands 37

Chapter 5. Typing the Data and Command Files using Minitab ...39

Typing the Data Set using Minitab 39
To Save the Data File in the ASCII Format 40
To Save the Data File in the System Format 40
To Retrieve the Portable and Lotus Files 41
To Retrieve and Edit the Saved Files 42
To Edit the Saved Data using Minitab Command 43
To Insert One or More Lines 44
To Make Corrections in the Column Data 44
To Erase Columns and Constants 46
To Select Specific Row Observations 46
To Stack the Data Columns 46
To Unstack the Data Columns 47
Typing the Data using the Minitab Data Editor 47
To Type the Data and Commands in One File
using the Journal Command 50
To Type the Command and Data Files Separately using Minitab 52
Lotus - Minitab Connection 53

Chapter 6. Data Types and Read Format ...55

Free Format for the Numeric Data 55
Free Format for Reading a Free Data File 55
Fortran Format for Alpha Data 55
Fortran Format for Reading an Alpha Data File 56
Character-Numeric Data Value Conversion 56
Numeric-Character Data Value Conversion 57
Fortran Format for Reading Fixed Column Data 58
Fortran Format to Read Two or More Data Lines per Observation 59
NOBS - Number of Observations to Read 60
Set Command to Read the Data in Order of Variables 60
Set Command for Set Data File 60
Set Command for Patterned Data Values 61
Set Command with Fortran Format 62
Fortran Format for Print Command 62
Saving a Portable File 62
Print and Write Format 63

Chapter 7. Minitab Operation in Summary ...67

To Retrieve a Minitab System Data File 67
To Retrieve an ASCII Data File 67
To Execute a File 67
To Save the Data Set in the Minitab Format 67

To Save the Data Set in the ASCII Format 67
To Type and Save the Command and Data Files Separately in the ASCII Format 68
To Print the Output 69
To Sort the Column Data 70
Mathematical Equations for the Column Data 70
Mathematical Equations for the Row Data 71
Minitab Columns, Constants, and Matrices 72
Coding the Data Values 72
Missing Values using the Code Command 74
To Erase Columns and Rows 75
To Replace Numbers 75
Saving, Retrieving, and Executing Minitab Files 75
Using the Alpha data 76
Selecting the Number of Observations 77
Function Keys for Special Uses 77

Chapter 8. Interactive Method of Running Minitab ... 79

Two-File Interactive Processing 79
One-file Journal Method of Interactive Processing 81

Part II. Applications
to Applied Statistics for Business and Economics

Chapter 9. Describing the Data Sets... 83

Frequencies and Histograms (1) 83
Batch File Method 84
Interactive Method 91
Frequencies and Histograms (2) - in High Resolution Graph 93
Frequencies and Histograms (3) 94
High-Low-Close Chart 95
Exercises 96

Chapter 10. Measures of Central Tendency and Dispersion ... 101

Descriptive Statistics (1) 101
Descriptive Statistics (2) 103
Average Growth Rate of GNP 108
Average Rate of Return on Investment 110
Exercises 112

Chapter 11. Probability Distribution ... 115

Random Variable 115
Probability Distributions 115
Minitab Probability Calculations 116
Normal Distribution 117
Binomial Distribution 118
Poisson Distribution 120
t, F, χ^2 (Chi-Square), and Exponential Distributions 121
Generating Critical t Values 125
Generating Critical χ^2 Values 127
Generating Critical F Values (1) 129
Generating Critical F Values (2) 132
Random Numbers and Sampling Distribution 135
Exercises 136

Chapter 12. Test for One Sample Mean: t - Test ... 139

Confidence Interval for the Mean 139
t - Test for One Sample Mean (1) 141
t - Test for One Sample Mean (2) 144
Normality Test for a Distribution 145
Exercises 149

Chapter 13. Test for Two Sample Means: t - Test ... 151

Paired Samples 151
Two Independent Samples 151
t - Test for Paired Samples (1) 152
t - Test for Paired Samples (2) 153
t - Test for Paired Samples (3) 154
t - Test for Two Independent Samples (1) 155
t - Test for Two Independent Samples (2) 159
Exercises 160

Chapter 14. Test for Three or More Sample Means: - Analysis of Variance ... 163

Types of ANOVA 163
Hypothesis Statements for ANOVA 163

Autoregression Method 236
Exercise 241
Problem of Heteroscedasticity 242
White's Heteroscedasticity Test 243
Weighted Least Squares Regression 247
Exercises 251

Chapter 18. Dummy Variable Models:
Probit, Logit, Logistic, Discriminant Models ...255

Types of Measurement 255
Dummy Variable as Independent Variable 256
Concepts of Probit and Logit Models 260
Discriminant Models 263
Exercises 265

Chapter 19. Nonlinear Equations:
Loglinear and Polynomial Equations ...273

Linear Transformation and Linear Estimation 273
Nonlinear Equation and Nonlinear Least Squares Method 273
Logarithmic Linear Equations 274
Polynomial Equations 277
Exercises 279

Chapter 20. Chi-Square and Other Nonparametric Tests ...283

Parametric Test 283
Nonparametric Test 283
Types of Parametric and Nonparametric Tests 283
Nonparametric Tests in Minitab 284
Chi-Square Test for the Goodness of Fit (1) 285
Chi-Square Test for the Goodness of Fit (2) 286
Chi-Square Test for Independence 290
Sign Test for Two Related Samples 291
Runs Test for Randomness 295
Mann-Whitney U Test for Two Independent Samples 298
Spearman Rank Correlation 302
Kruskal-Wallis Test for 3 or More Samples (1) 304
Kruskal-Wallis Test for 3 or More Samples (2) 307
Exercises 309

Chapter 21. Time Series Analysis and Forecasting ... 315

Types of Statistical Data 315
Forecasting Methods 316
Methodology of Box-Jenkins ARIMA Models 321
Moving Average Method 323
Quarterly Moving Average Method 325
12-Month Moving Average and Seasonal Index 327
Trend, Seasonal Index, and Cyclical Index 331
ARIMA Model 336
Exercises 341

Chapter 22. Index Numbers ... 342

Laspeyres and Paasche Price Indexes 342
Money Income, Real Income, and Growth Rate 343
Exercises 345

Chapter 23. Techniques of Quality Control ... 351

Quality Control Charts 351
X-Bar Chart 352
R-Chart 354
P-Chart 355
C-Chart 356
Exercises 358

Part III. Minitab Sample Files

Chapter 24. Minitab Sample Files (alphabetical order) ... 361

Appendix Notes

Note 1: One-File and Two-File Methods 407
Note 2: Minitab Menu System 409

Bibliography ... 413
