Preface vii

Acknowledgments ix

Contributors xi

SECTION I: Principles of Airway Management 1

1. The Decision to Intubate 3
Calvin A. Brown III
2. Identification of the Anatomically Difficult Airway 9
Calvin A. Brown III
3. The Physiologically Difficult Airway 21
Jarrod M. Mosier • Bhupinder Natt
4. Identification of the Failed Airway 34
Calvin A. Brown III
5. The Emergency Airway Algorithms 36
Calvin A. Brown III
6. Human Factors During Emergency Airway Management 48
Peter G. Brindley • Jocelyn M. Slemko
7. Applied Functional Anatomy of the Airway 60
Michael F. Murphy

SECTION II: Oxygenation and Ventilation 69

8. Principles of Peri-intubation Oxygenation 71
Robert F. Reardon • Brian E. Driver
9. Non-Invasive Positive Pressure Ventilation and High-Flow Nasal Oxygen 85
Alan C. Heffner
10. Mechanical Ventilation 89
Alan C. Heffner
11. Oxygen and Carbon Dioxide Monitoring 96
Robert F. Reardon • Brian E. Driver

SECTION III: Basic Airway Management 107

12. Bag-Mask Ventilation 109
Robert F. Reardon • Steven C. Carleton
13. Extraglottic Devices 124
Erik G. Laurin • Leslie V. Simon • Darren A. Braude
14. Managing the Patient With an Extraglottic Device in Place 141
Darren A. Braude • Eli Torgeson • Michael T. Steuerwald

SECTION IV: Tracheal Intubation 157

- 15. Direct Laryngoscopy 159
Robert F. Reardon • Steven C. Carleton • Leslie V. Simon
- 16. Video Laryngoscopy 178
Brian E. Driver • John C. Sakles
- 17. Flexible Endoscopic Intubation 192
Alan C. Heffner • Calvin A. Brown III
- 18. Blind Intubation Techniques 200
Michael T. Steuerwald • Steven A. Godwin • Darren A. Braude
- 19. Emergency Surgical Airways 206
Michael A. Gibbs • David A. Caro • Robert F. Reardon

SECTION V: Pharmacology and Techniques of Airway Management 225

- 20. Rapid Sequence Intubation 227
Calvin A. Brown III • Ron M. Walls
- 21. Sedative-Induction Agents 240
David A. Caro • Katren R. Tyler
- 22. Neuromuscular Blocking Agents 248
David A. Caro • Erik G. Laurin
- 23. Optimizing First Attempt Intubation Success 258
Brian E. Driver • Robert F. Reardon
- 24. Anesthesia and Sedation for Awake Intubation 268
Steven C. Carleton • Alan C. Heffner

SECTION VI: Pediatric Airway Management 279

- 25. Differentiating Aspects of the Pediatric Airway 281
Robert C. Luten • Nathan W. Mick
- 26. Pediatric Airway Techniques 297
Robert C. Luten • Christyn F. Magill • Nathan W. Mick
- 27. The Difficult Pediatric Airway 306
Joshua Nagler • Robert C. Luten
- 28. Foreign Body in the Pediatric Airway 318
Robert C. Luten • Steven Bin • Christyn F. Magill

SECTION VII: EMS Airway Management 325

- 29. Introduction to EMS Airway Management 327
Michael J. Keller • Michael T. Steuerwald • Estêvão M. Lafuente
- 30. Techniques in Prehospital Airway Management 334
Chivas Guillote • Darren A. Braude
- 31. Difficult and Failed Airway Management in EMS 352
Michael T. Steuerwald • Fred Ellinger, Jr. • Joseph Loehner
- 32. Controversies in EMS Airway Management 359
Jamie Todd • Lauren M. Maloney • Darren A. Braude

SECTION VIII: Special Clinical Circumstances 369

33. The Unstable Patient: Cardiopulmonary Optimization for Emergency Airway Management 371
Jarrod M. Mosier • Alan C. Heffner • John C. Sakles
34. The Trauma Airway 382
Michael G. Gonzalez • Ali S. Raja
35. The Neurocritical Patient 391
Stephen Bush • Bret P. Nelson
36. Reactive Airways Disease 400
Heather Mahoney • Calvin A. Brown III
37. Distorted Airways and Acute Upper Airway Obstruction 405
Erik G. Laurin • Ali S. Raja
38. The Pregnant Patient 410
Megan Leigh Fix • Rebecca L. Kornas
39. Cardiovascular Emergencies 417
Rebecca L. Kornas • Stephen Bush
40. Intubating the Highly Infectious Patient 421
Katelin Morrissette • Jarrod M. Mosier
41. The Massively Soiled Airway 425
Darren A. Braude • Rudolph Princi • James C. DuCanto
42. The Geriatric Patient 431
Katren R. Tyler • Stephen Bush
43. The Morbidly Obese Patient 438
Megan Leigh Fix
44. Foreign Body in the Adult Airway 446
Tatsuya Norii • Heather Mahoney • Erik G. Laurin
45. Safe Extubation in the Emergency Airway Patient 452
Matteo Parotto
