

## KEEP RUNNING

We're running running  
Tell me what we're running from  
Is it something something  
Too hard to overcome

Yes we're running running  
No matter what the cost  
Searching searching  
To find the hope that we have lost

Cause love is around  
The next corner  
In the eyes of a child  
In the smile of a mother

But It's nothing nothing  
Without a little trust  
Hearts of Gold  
Sometimes turn to rust

So keep running running  
Let the waves carry me  
The storm is turning turning  
The clouds going out to sea

There is no place to go  
Where the past won't follow us  
Long after these roads  
Have turned to dust

## TRUST FALL

Its the same its the same  
its the same  
Falling forward for hours or more  
Path of squares, pawn in the game  
You're the one to be running  
the show

I need your eyes  
To see the world  
I need your voice  
To say the words

Catch me now I'm falling  
Catch me now I'm falling  
Catch me now I'm falling  
Catch me now I'm falling

In the black of the back of the car  
I don't care if I ever get home  
You know wherever I go  
I take you with me in my mind

I need your eyes  
To see the world  
I need your lips  
To speak the words

Catch me now I'm falling  
Catch me now I'm falling

## THE SECRET

Hands reaching slowly for  
one another  
From the far ends of the night  
Shadow fingers walk the weekend  
Following flat phantoms  
on the wall

I will follow in your footsteps  
I will trail in the wake of your spell  
Running down streets of folded  
stair steps  
Something secret I want to tell

When you look  
Do you see me?  
When you look  
Do you see me?  
Do you see all I want to be for you

We will be crossing the  
whole desert  
We will be sailing through the sand  
Something between us is a promise  
A little further  
A little further is a promise land

## ANOTHER FEELING

A dream  
Of me and you  
Holding close  
Another time another place  
I don't remember now

To see  
That place again  
To find the friends  
That were here with me but now  
It's only pictures

When it's another feeling  
Than the one you dreamed of  
Go back to dreaming  
To find that feeling again

I thought  
When I got here  
I would cry  
But I kept it all inside  
And kicked the door opened

Now  
There's a hole  
Where the handle hit  
Your evaporating kiss  
Cold on my cheek

When it's another feeling  
Than the one you dreamed of  
Go back to dreaming  
To find that feeling again

When it's another feeling  
Another feeling  
When it's another feeling  
Another feeling

## NIGHT

Night

Like living under water  
Under warm dark covers  
I wasn't sure today

If I'm right

Where do we hide our secrets  
On streets like empty stage sets  
In the glory of the stars?

Night

People sleeping on benches  
In doorways on the avenue  
Or in between the cars

And I

I'm laying here beside you  
Watching while you're sleeping  
Will the sun come back again

## THE LIGHT OF MY HANDS

I want to belong to this land  
Live by the light of my hands  
The light of my hands

Belong to the place that I live  
My love is all I have to give  
It comes and goes with me

Holding on to this guitar  
Shining black and shooting stars  
In the heaven of my mind

I want to take you away with me  
Broken but still wild and free  
To do what we can

To see the magic before it fades  
Into the endless drum of days  
These are the only days

I want to lie by your side  
You put your mouth to my ear  
And gently sing to me

La lalalalalala

Words don't matter it's the song  
That melody is a home  
That we can belong to

A tree reaching for the sky  
This hard won sense of pride  
And we hold on to

And ask me where I am from  
What counts what I have become  
Wild and free

You are the one that I adore  
I'm not the man I was before

## NEW DAY COMING

Black and blue but I don't  
really care  
It's a bruise that will vanish  
in the air

I see you light and lost in  
love again  
Who will you call when you  
just need a friend?

New day is comin' now  
New day is comin' now  
All the things you left undone  
They go down with the sun

Pitch dark midnight T.V.  
zombie state  
Making plans for your great escape

Climbing stairs until you reach  
the top  
The top get further the stepping  
never stops

New day is comin' now  
New day is comin' now  
All the things you left undone  
They go down with the sun

New day is comin' now  
New day is comin' now  
All the things you left undone  
They go down with the sun

New day is comin' now  
New day is comin' now

## DISTANT LAND

Drive  
Across ribbons  
Black and white

Through the Day  
Through the Night

Hold on

To my shoulders  
Hold me tight

All alone  
Just you and I

Oh  
Distant Land  
Ah  
Distant Land

Dive

Off rocks  
Into the sea

The sun for you  
The moon for me

Let go

Don't hold on too tight  
You won't fall it's alright

Oh  
Distant Land  
Ah  
Distant Land  
Ah  
Distant Land

## RAGE

Changed all my lines  
In this old fashioned play  
Not telling anyone  
Alone on a stage

Shining but silent  
Like the coldest of stars  
Diamonds insincere  
Can fool your heart

Cause I've only got this feeling  
Nothing more to say  
I've only got this feeling my friend  
Of endless rage

Twist all the lies  
Into a necklace of skulls  
Crowns for Kings and Queens  
Teeth of gold

Careless and cruel  
Curtains as they close  
Black velvet evening gown  
On a blood red floor

Now I've only got this feeling  
I've got nothing left to say  
I've only got this feeling my friend  
Of endless rage

## NO REASON

It don't work  
The way you want it to

Some curse  
Has put a spell on you

Words don't  
Ever come out right

The dice won't  
Roll for your side

No reason to hide your love  
That's no reason to hide your love  
No reason to hide your love  
That's no reason to hide your love

Can't sleep  
Another night of toss and turn

Driving dreams  
Another night of crash and burn

Hard to see  
The promise of another year

Hard to be  
The one who never gets to care

No reason to hide your love  
That's no reason to hide your love  
No reason to hide your love  
That's no reason to hide your love

The secrets of your heart  
No one can ever know  
The way you want it to be  
Only you can say it's so  
No one can know what you see  
Blue for you could be red to me  
If you don't dream it  
It will never be
