## Section I: Basics 1

### Chapter 1. An Overview 3

**The Economy Is Us 5**

**The Nature of Economic Choice 6**

Opportunity costs

**Production Possibilities 8**

Increasing opportunity costs ■ Points inside and outside the curve ■ Growth and technology

**How Choices Are Made 16**

The market mechanism ■ Planned economies ■ The mixed economy

**What Economics Is All About 19**

Ends vs. means ■ Macro vs. micro ■ Theory and reality ■ Policy ■ Controversy ■ Modest expectations

**Summary 23**

*IN THE NEWS: America's Most Important Problems 4*

*Looting the Means of Production 7*

**Appendix: Using Graphs 25**

Slopes ■ Shifts ■ Linear vs. nonlinear curves ■ Causation

### Chapter 2. Supply and Demand 30

**Market Participants 31**

Goals ■ Constraints ■ Specialization and exchange

**Market Interactions 32**

The two markets ■ Locating markets ■ Dollars and exchange ■ Supply and demand

**Demand 34**

Individual demand ■ *Ceteris paribus* ■ Shifts in demand ■ Movements vs. shifts ■ Market demand ■ The market demand curve

**Supply 42**

Determinants of supply ■ The market supply curve ■ Shifts in supply

**Equilibrium 44**

Surplus and shortage ■ Changes in equilibrium

### Chapter 3. The Public Sector 57

**Micro Failure 57**

Public goods ■ Externalities ■ Market power ■ Equity

**Macro Failure 63**

**Growth of Government 64**

Federal growth ■ State–local growth

**Government Spending 66**

The federal budget ■ Expenditures on goods and services ■ Income transfers ■ Interest ■ State–local spending

**Taxation 69**

Federal taxes ■ State–local revenues

**POLICY IMPLICATIONS: GOVERNMENT FAILURE? 74**

Perceptions of waste ■ Opportunity costs ■ Public choice

## **Chapter 4. National-Income Accounting 82**

### **Measures of Output 83**

Gross national product ■ Measurement problems ■  
 Real vs. nominal GNP ■ Net national product

### **Measures of Expenditure 92**

### **Measures of Income 93**

National income ■ Personal income ■ Disposable income

### **The Flow of Income 97**

Income and expenditure

### **POLICY IMPLICATIONS: THE QUALITY OF LIFE 98**

## **Section II: Macroeconomics 103**

### **PART A. MAJOR PROBLEMS 105**

## **Chapter 5. The Business Cycle 106**

### **Stable or Unstable? 108**

Classical theory ■ The Keynesian revolution

### **Historical Cycles 110**

The Great Depression ■ World War II ■ The postwar years ■ The 1980s

### **Supply-Demand Imbalances 114**

Aggregate demand ■ Aggregate supply ■ Macro equilibrium ■ Macro failures ■ Macro disturbances

### **Competing Theories 121**

Demand-side theories ■ Supply-side theories ■ Eclectic explanations

### **Policy Options 123**

The Classical approach ■ Fiscal policy ■ Monetary policy ■ Supply-side policy ■ Historical significance ■ The crash of 1987

### **Summary 127**

## **Chapter 6. Unemployment 129**

### **The Labor Force 129**

Production possibilities ■ Unemployment

### **Macro Consequences: Lost Output 133**

### **Micro Consequences: People Out of Work 133**

### **Measuring Unemployment 136**

Discouraged workers ■ Underemployment ■ The phantom unemployed

### **The Historical Record 138**

### **Defining Full Employment 139**

Seasonal unemployment ■ Frictional unemployment ■ Structural unemployment ■ Cyclical unemployment

### **The Full-Employment Goal 142**

Rising structural unemployment? ■ The GNP gap

## **Chapter 7. Inflation 148**

### **What Is Inflation? 149**

Relative prices vs. the price level

### **Micro Consequences of Inflation 150**

Price effects ■ Income effects ■ Wealth effects ■ Social tensions ■ Despair ■ Money illusion

### **Macro Consequences of Inflation 158**

Uncertainty ■ Speculation ■ Shortened time horizons ■ Bracket creep

### **Anticipated Inflation 162**

### **Measuring Inflation 162**

Consumer Price Index ■ Producer Price Indexes ■ The GNP deflator ■ Cost-of-living adjustments

### **The Historical Record 166**

U.S. inflation rates ■ The resulting redistributions

**The Goal: Price Stability 168**

A numerical goal ■ Quality changes

**Types of Inflation 169**

Demand-side forces ■ Supply-side forces

**PART B. POLICY OPTIONS: THE KEYNESIAN APPROACH 173****Chapter 8. Aggregate Spending 174****Macro Equilibrium 175****The Circular Flow: Income and Spending 176**

Real vs. dollar flows ■ Derived demand

**Consumption 179**

Consumption vs. saving ■ The average propensity to consume ■ The marginal propensity to consume

**The Consumption Function 182**

An individual function ■ The aggregate function ■ Expectations and shifts

**Leakage from the Circular Flow 187**

Total output at full employment ■ Consumer spending at full employment ■ Consumer saving at full employment

**Investment 191**

Expectations ■ Interest rates ■ Technology and innovation ■ Investment at full employment

**Total Spending at Full Employment 194**

Consumption and investment ■ Government spending and exports

**Potential Instability 196**

A recessionary gap ■ An inflationary gap ■ Desired vs. actual investment ■ Desired investment vs. desired saving

**Chapter 9. Potential Instability 202****Adjustment to a Recessionary Gap 202**

Classical adjustment: A recap ■ Keynes: Changing expectations ■ Inflexible prices and wages

**The Multiplier Process 206**

The multiplier ■ The period multiplier

**Equilibrium GNP 210**

Equilibrium GNP vs. full-employment GNP

**Adjustment to an Inflationary Gap 213**

The Classical view ■ The Keynesian response

**Leakages and Injections 215****POLICY IMPLICATIONS: GOVERNMENT INTERVENTION 218****Summary 218**

Maintaining full employment ■ Attaining full employment

**Alternatives to Government Spending 228**

Transfers and consumption ■ Taxes and consumption ■ Taxes and investment

**Fiscal Policy to Achieve Price Stability 233**

Government cutbacks ■ Tax increases ■ Fiscal guidelines

**The Concern for Content 236**

Public vs. private spending ■ Output mixes within each sector

**Who Sets Fiscal Policy? 238**

Discretionary fiscal spending ■ Automatic stabilizers

**POLICY IMPLICATIONS: AN UNBALANCED BUDGET 239**

Budget surpluses and deficits ■ To balance or not to balance?

**Chapter 13. Monetary Policy 291**

**The Keynesian View 292**

Money markets ■ The demand for money ■ Equilibrium

**Closing a Recessionary Gap: The Keynesian Perspective 295**

Money and interest rates ■ Interest rates and spending ■ Policy constraints

**Closing an Inflationary Gap: The Keynesian Perspective 299**

Money and interest rates ■ Interest rates and spending ■ Policy constraints ■ The Keynesian conclusion

**The Monetarist Perspective 301**

The equation of exchange ■ Stable velocity ■ Money-supply focus ■ "Natural" unemployment ■ Monetarist policies ■ Closing an inflationary gap ■ Closing a recessionary gap

**The Concern for Content 307**

**POLICY IMPLICATIONS: FISCAL VS MONETARY POLICY 307**

The policy levers ■ Crowding out ■ How fiscal policy works: Two views ■ How monetary policy works: Two views ■ Is velocity stable? ■ Money-supply targets

## PART D. POLICY OPTIONS: THE SUPPLY-SIDE APPROACH 319

### Chapter 14. Supply-Side Policies 320

#### Supply-Side Responses to Demand-Side Policies 321

Demand-side options ■ Stagflation: The demand-side curse ■ The Phillips curve ■ Supply shifts ■ Policy options

#### Supply-Side Tax Cuts 328

Marginal tax rates ■ Tax-induced supply shifts ■ The Laffer curve ■ Encouraging saving

#### Deregulation 335

Regulation of factor markets ■ Regulation of product markets ■ Deregulation

#### Eliminating Structural Bottlenecks 338

Structural unemployment ■ Discrimination ■ Transfer payments ■ Trade restrictions

#### Wage-Price Controls 341

Profit-push inflation ■ Inflationary wage demands ■ Limits on wages and prices ■ Do controls work?

#### POLICY IMPLICATIONS: AN ECLECTIC AGGREGATE SUPPLY CURVE 346

The costs of demand-side dependence ■ Supply-side options ■ The eclectic AS curve

## PART E. CURRENT POLICIES 351

### Chapter 15. Theory and Reality 352

#### Policy Tools 353

Fiscal policy ■ Monetary policy ■ Supply-side policy

#### Idealized Uses 357

Case 1: Depression or serious recession ■ Case 2: Excessive demand and inflation ■ Case 3: Stagflation ■ Fine-tuning

#### The Economic Record 361

#### Why Things Don't Always Work 364

Goal conflicts ■ Measurement problems ■ Design problems ■ Implementation problems

#### POLICY IMPLICATIONS: RULES VS. DISCRETION 375

The need for rules ■ The need for flexibility ■ Modest expectations

#### Summary 377

### **PART A. PRODUCT MARKETS: BASIC THEORY 443**

## **Chapter 19. The Demand for Goods 444**

### **Patterns of Consumption 444**

### **Determinants of Demand 445**

The sociopsychiatric explanation ■ The economic explanation

### **The Demand Curve 447**

Utility theory ■ Price and quantity

### **Shifts of the Demand Curve 452**

A change in tastes ■ A change in income ■ A change in expectations ■ A change in the price and availability of other goods ■ Movements vs. shifts

### **Elasticity 457**

Price elasticity of demand ■ Price elasticity and total revenue ■ Determinants of elasticity

### **Choosing Among Products 465**

Marginal utility vs. price ■ Utility maximization ■ Utility-maximizing rule

### **Utility Maximization 478**

The budget constraint ■ Optimal consumption ■ Marginal utility and price: A digression

### **Deriving the Demand Curve 481**

The demand schedule and curve

### **Substitutes and Complements 482**

## **Chapter 20. The Costs of Production 484**

### **The Production Function 484**

Efficiency

### **Marginal Productivity 488**

Diminishing returns

### **Resource Costs 490**

Marginal cost

### **Dollar Costs 492**

Total cost ■ Average costs ■ Marginal cost ■ A cost summary

### **Economic vs. Accounting Costs 501**

Economic cost
