

CONTENTS

PART I BASIC CONCEPTS 1

1 SCARCITY, CHOICE, AND OPTIMIZING 2

The Desire for Goods 2

- Resources—The Ingredients to Make Goods* 3
- Technology—The Knowledge to Make Goods* 4
- Limited Resources and Technology Produce Limited Goods* 5

Scarcity—The Basic Economic Problem 5

- Scarcity Requires Choice* 6
- Choice Brings Benefit and Cost* 7

Marginalist Thinking 8

The Optimization Principle 10

- A Case Study: Cancer Versus Heart Attacks* 12

Conclusion 18

EXAMPLES:

- 1. An Airline that Took the Marginal Route* 10
- 2. The Determinants of Family Size* 11
- 3. The Cherokee Decision* 16

IDEAS IN HISTORY:

- The Division of Labor* 19

1a The Use of Graphs in Economics 23

The System of Coordinates 23

- Graphing a Demand Schedule* 24
- Superimposing Graphs* 25

The Concept of Slope 26

- Positive Slope* 26
- Negative Slope* 27
- Measuring Slope on Curves* 27

Measuring Areas in Graphs 29

Other Types of Graphs 29

- Time-Series Line Graphs* 29
- Statistical Maps* 30
- Bar and Column Charts* 30
- Pie Charts* 30
- Three-Dimensional Graphs* 31

2 ECONOMIC SYSTEMS AND ECONOMIC THEORY 34

The Complexity of Economic Systems 34

Classifying Economic Systems 35

- Who Owns the Resources?* 35
- What Are the Incentives for Coordination?* 37

A World of Mixed Economies 42

The Nature of Economic Theory 43

- Positive Economics Versus Normative Economics* 45
- Macroeconomics Versus Microeconomics* 45

EXAMPLES:

- 1. Airwave Wars and Tonga Satellites* 38
- 2. The Rise of the Welfare State* 44

- 3. *Marketization Sweeps the Communist World* 46
- 4. *Why Economists Disagree Among Themselves* 48

IDEAS IN HISTORY:

- On The Proper Economic Role of Government* 50

**3 DEMAND AND SUPPLY:
THE FUNDAMENTALS 55**

- The Law of Demand 55**
 - Demand Schedule and Demand Line* 56
 - Changes in Demand* 57
- The Law of Supply 61**
 - Supply Schedule and Supply Line* 61
 - Changes in Supply* 63
- The Equilibrium of Demand and Supply 64**
 - Competition Among Sellers Reduces Price in the Face of Surpluses* 65
 - Competition Among Buyers Raises Price in the Face of Shortages* 66
 - Graphical Summary* 67
- How the Equilibrium Can Change 67**
- Government Intervention in Markets 70**
 - Price Floors* 70
 - Price Ceilings* 72
 - Excise Taxes* 74

EXAMPLES:

- 1. *Auction Markets for Art* 60
- 2. *Changing Equilibrium Prices: Fish, Moonshine, and Silver* 70
- 3. *Changing Equilibrium Prices: From Abundance to Scarcity* 72
- 4. *Of Milk and Sugar* 74
- 5. *The Story of Rent Control* 77
- 6. *Trading Human Body Parts* 78

IDEAS IN HISTORY:

- The Scissors Diagram* 80

4 INTERNATIONAL TRADE AND THE WEALTH OF NATIONS 85

- Absolute Advantage Versus Comparative Advantage 87**
- Comparative Advantage: A Graphical Illustration 89**
- Demand and Supply Revisited: The Market for Foreign Exchange 90**
- Free Trade: Gainers Versus Losers 93**
 - The Concept of Consumer Surplus* 93
 - The Concept of Producer Surplus* 95
 - From Autarky to Free Trade* 95
- Government Protectionism: The Methods 97**
 - Tariffs* 97
 - Nontariff Barriers* 99
- Government Protectionism: The Arguments 103**
 - Noneconomic Arguments* 103
 - Economic Arguments* 103
 - Conclusion* 109
- A Brief History of United States Commercial Policy 110**
- Conclusion 112**

EXAMPLES:

- 1. *The U.S. Sugar Import Quota* 100
- 2. *A Voluntary Export Restraint: The U.S.-Japanese Automobile Agreement* 102
- 3. *Banning Trade to Save the Elephant* 104
- 4. *The Guiding Hand of MITI* 106
- 5. *The Consumer Cost of Import Restrictions* 108
- 6. *The New North America* 111

IDEAS IN HISTORY:

- The Theory of Comparative Advantage* 113
- The Strategic Trade Model* 114

PART II MEASURING THE MACROECONOMY 121
5 THE GROSS NATIONAL PRODUCT 122
Measuring the National Output 123
A Measure of Production 123
From U.S.-Owned Resources 123
Dollars As a Measuring Rod 123
Final Goods 124
Final-Goods Versus Value-Added Approach 125
Computing the Gross National Product 127
Summing Expenditures 127
Summing Incomes 129
Other Macroeconomic Concepts of Income 130
Using GNP Data 132
Comparing National Output Over Time 133
Comparing National Output Over Space 136
Real GNP Versus Human Welfare 136
Per Capita Real GNP 138
Overstatements of Welfare 138
Understatements of Welfare 139
A Welfare Indicator 139
EXAMPLES:

1. *The GDP: Grossly Deceptive Product 137*
2. *The Underground Economy 140*
3. *GNP Accountants Challenged: Don't Ignore Natural Resources 142*
4. *Towards A "Green" GNP 142*

IDEAS IN HISTORY:
National Income Accounting 134
6 ECONOMIC FLUCTUATIONS, UNEMPLOYMENT, AND INFLATION 146
Business Cycles 147
NUMERICAL EXERCISE 1: The Mathematics of GNP Change 148
The Business Cycle: Actual and Idealized 148
Measuring the Unemployment of People 152
The Official Definition 153
The Monthly Survey 154
Official Unemployment Data 156
Unemployment Over Time 156
The Structure of Unemployment 157
Types of Unemployment 161
Frictional Unemployment 161
Structural Unemployment 162
Cyclical Unemployment 162
The Natural Rate of Unemployment 163
Full Employment and Potential Real GNP 163
Actual Output Vs. Potential Output 164
NUMERICAL EXERCISE 2: Estimating the Potential Real GNP 165
The Benefits and Costs of Unemployment 165
The Loss of Output 165
Psychological Costs and Social Upheaval 166
Measuring Inflation 166
Constructing a Price Index 167
NUMERICAL EXERCISE 3: Constructing a Price Index 167
The Consumer Price Index 168
NUMERICAL EXERCISE 4: The Mathematics of Inflation 170
The Producer Price Index 171
The Implicit GNP Deflator 172
Common Uses of Price Indexes 174

Deflating Current-Dollar Time Series 174
Escalator Clauses 175
Evaluating Economic Policy 177

The Consequences of Inflation 179

Anticipated Inflation 179
Unanticipated Inflation 180

EXAMPLES:

1. Dating the Business Cycle 150
2. That Dreaded R-Word 152

3. An International Comparison of Unemployment Rates 158
4. A Minor Technical Detail? Revising the CPI and the Incidence of Poverty 175
5. The Discomfort Index 178
6. Hyperinflation Imperils Argentine Democracy 182

PART III EXPLAINING THE MACROECONOMY 191

7 AGGREGATE DEMAND AND AGGREGATE SUPPLY 192

The Central Diagram 192

The Aggregate Demand Curve 195

The Aggregate Supply Curve 198

Aggregate Supply in the Long Run 198
Aggregate Supply in the Short Run 198
A Family of Short-Run Aggregate Supply Curves 200

Macroeconomic Equilibrium 200

A Long-run Macroequilibrium 200
A Long-run Macrodisequilibrium 203

Demand Shocks 207

A Positive Demand Shock 207
A Negative Demand Shock 207

Supply Shocks 208

A Positive Supply Shock 210
A Negative Supply Shock 211

The Possibility of Government Policy 212

EXAMPLE:

1. The AD-AS Model and the Great Depression 209

IDEAS IN HISTORY:

Discretion Versus Rules for Government Policy Makers 213

8 MACROECONOMIC CONTROVERSIES: AN OVERVIEW 218

Aggregate Demand and Aggregate Supply Revisited 218

The Classical Economists 220

The Keynesians 220

The Monetarists 223

The Supply Siders 223

The New Classical Economists 224

IDEAS IN HISTORY:

Say's Law 221

9 THE KEYNESIAN BUILDING BLOCKS 227

Consumption Demand 228

Numerous Determinants 228
The Consumption Function 229
The Personal Saving Function 230
A Graphical Illustration 231

The Average Propensities to Consume and Save 231

FOCUS 1 234

The Marginal Propensities to Consume and Save 234

An Actual Consumption Function of U.S. Households 236

FOCUS 2 237

An Aggregate Consumption Function 237

A Famous Puzzle 240

The Puzzle Resolved 240

Investment Demand 242

The Marginal Cost of Investment 244

The Marginal Benefit of Investment 244

Comparing Marginal Cost and Marginal Benefit 244

The Downward-Sloping Investment Demand Curve 244

Investment Demand Versus the GNP of Time and Interest 245

Capitalizing Future Dollar Streams 248

FOCUS 3 251

An Extended Example 251

A Final Note 255

EXAMPLE:

1. *Last In, Right Out: The Just-In-Time Inventory Management* 246

IDEAS IN HISTORY:

- The Keynesian Revolution* 256

10 THE BASIC KEYNESIAN MODEL 260

The Equilibrium Level of Nominal GNP 260

FOCUS 1 261

A Numerical Example 261

A Graphical Illustration 261

NUMERICAL EXERCISE 1: Determining the Nominal GNP 264

An Increase in Equilibrium Nominal GNP 265

The Expenditure Multiplier 266

A Decrease in Equilibrium Nominal GNP 268

NUMERICAL EXERCISE 2: Finding the Expenditure Multiplier 268

An Alternative Approach: Saving Versus Investment 269

FOCUS 2 271

A Numerical Example 271

A Graphical Illustration 272

Changes in Equilibrium Nominal GNP 273

EXAMPLES:

1. *How Milwaukee Boomed But Left Its Blacks Behind* 265
2. *The Recession of 1990/91: A Slump Rooted in Fear* 272
3. *The Paradox of Thrift* 275

10a A Multiplier—Accelerator Model 278

The Simple Multiplier Model Reviewed 279

Introducing the Accelerator Theory 280

Approaching a New Equilibrium

Asymptotically 280

The Case of a Damped Cycle 281

The Case of an Explosive Cycle 281

The Case of an Explosion Without Cycle 282

A Graphical Summary 282

IDEAS IN HISTORY:

The Role of Mathematics in Economics 285

11 THE GOVERNMENT SECTOR AND FISCAL POLICY 287

The Government Sector in the U.S. Economy 287

An Expanded Keynesian Model 288

Government Demand and Lump-Sum Taxes 292

NUMERICAL EXERCISE 1: A Keynesian Model with Government Demand and Lump-Sum Taxes 294

Government Demand and Income Taxes 295

NUMERICAL EXERCISE 2: A Keynesian Model with Government Demand and Income Taxes 295

The Promise of Fiscal Policy 299

Automatic Fiscal Policy 299

Discretionary Fiscal Policy 299

Expansionary Fiscal Policy 300

Raising Government Demand, G 300

Lowering Lump-Sum Taxes, NT 301

Simultaneous and Equal Increases in Government Demand, G , and Lump-Sum Taxes, NT 303

Lowering the Income Tax Rate, t 304

Contractionary Fiscal Policy 305

Lowering Government Demand, G 305

Raising the Income Tax Rate, t 307

Practical Problems 307

The Recognition Lag 307

The Administrative Lag 308

The Operational Lag 308

Conclusion 309

Deficits and the National Debt 309

The U.S. Experience 312

Early Keynesian Attitudes Toward Deficits and Debt 313

Second Thoughts and Mounting Worries 315

The Gramm-Rudman-Hollings Law and Deficit Reduction Policy 316

The New Federalism: Fiscal Relations Among Governments 320

State Spending 321

State Taxing 321

City Finances 321

EXAMPLES:

- 1. The Size of the Government Sector: International Comparisons 298**
- 2. U.S. Fiscal Policy Assessed: 1947–1986 310**
- 3. The Amazing Alchemy of Debt-for-Nature Swaps 318**
- 4. The Folly of Raiding the Piggy Bank 319**
- 5. The Elusive Peace Dividend 322**

PART IV MONEY AND THE COMPLETE MACRO MODEL 327

12 FINANCIAL MARKETS 328

Major Actors 328

Types of Financial Markets 330

Equities Versus Debt Instruments 330

Primary Versus Secondary Markets 330

Money Markets Versus Capital Markets 330

Stock Markets 331

Varieties of Corporate Stocks 331

Major Types of Secondary Markets 332

Tracking Stock Prices 333

The Random Walk 336

The Stock Market Page 337

Bond Markets 339

Varieties of Bonds 340

Bond Prices and Yields 341

The Yield Curve 342

The Bond Market Page 345

Recent Developments 345

The Savings and Loan Debacle 345

The Globalization of Financial Markets 348

EXAMPLES:

- 1. Stock Price Crashes 346**
- 2. How One S&L Came Apart 349**

3. *Foreign Owners Shake Up American Industry* 350
 4. *The Internationalization of Stock Trading* 351

13 MONEY, COMMERCIAL BANKS, AND THE FEDERAL RESERVE 355

The Nature of Money 355

- A Means of Payment* 355
A Store of Purchasing Power 356
A Unit of Account 356

Money Through History 356

Money in the United States 356

- The Narrowest Definition: M1* 357
A Wider Definition: M2 358
A Wider Definition Still: M3 361
Other Definitions 361

The Role of Commercial Banks 361

- Opening a New Bank* 362
Joining the Federal Reserve System 363
Typical Transactions: Deposits 364
Typical Transactions: Withdrawals 364
Summary So Far 365
Typical Transactions: Making Loans 365
Overextended 366
A Lending Rule 366
The Lesson Learned 368

The Risks of Banking 368

- Losses of Loans* 368
Losses of Deposits 369

The Federal Reserve System 371

- The Twelve District Banks* 371
The Board of Governors 373
The Federal Open Market Committee 373
The Federal Deposit Insurance Corporation 373

EXAMPLES:

1. *The Stones of Yap* 357
 2. *Changing Change* 360
 3. *Plastic Money: A New International Currency* 362

4. *Fake Money and Hot Money* 370
 5. *The Mystery of the Missing Money* 373

14 THE FEDERAL RESERVE AND MONETARY POLICY 378

The Quantity Equation of Exchange 378

Monetary Base and Money Multiplier 379

FOCUS 1: *The Money Multiplier* 380

Open Market Operations 380

- Open Market Purchases* 380
Open Market Sales 381

The Discount Window 381

- A Lower Discount Rate* 381
A Higher Discount Rate 382
The Significance of Discount Rate Policy 382

Setting Reserve Requirements 382

- A Lower Reserve Requirement* 383
A Higher Reserve Requirement 383

Summary 384

The Cumulative Expansion of Demand Deposits 385

- A Balance Sheet Example* 386
The Deposit Multiplier 389

FOCUS 2 389

The Cumulative Contraction of Demand Deposits 389

Money Multiplier Versus Deposit Multiplier 389

The Transmission Mechanism; Money Demand, Money Supply, and Interest Rates 390

- An Intuitive Approach* 390
The Keynesian Theory 390

The Transmission Mechanism: Interest Rates and Investment Demand 395

The Transmission Mechanism: Investment Demand and the Nominal GNP 395

- Expansionary Monetary Policy 395*
- Contractionary Monetary Policy 395*
- Practical Problems 397*

The Three Lags 398

More Power to the Fed? 399

EXAMPLES:

- 1. The Velocity Problem 397**
- 2. International Policy Coordination 399**
- 3. Japan's Money Dilemma 400**

15 THE OPEN MACRO-ECONOMY 404

The Balance of Payments 404

- Types of Transactions 405*
- Types of Accounts 406*
- An Illustration 406*
- An Actual Balance of Payments 408*

The Foreign Exchange Market Revisited 408

- The Balance of Payments Connection 408*
- Factors Behind Demand and Supply 410*

Alternative Exchange Rate Regimes 415

The Keynesian Cross in an Open Economy 415

NUMERICAL EXERCISE 1: Finding the Equilibrium GNP 416

Fiscal and Monetary Policy in an Open Economy 417

- Reduced Effectiveness of Fiscal Policy 419*
- Enhanced Effectiveness of Monetary Policy 420*

An Application: The Twin Deficits Problem 420

EXAMPLES:

- 1. Are We Investing What We Borrow? 410**
- 2. The Big Mac Index 412**
- 3. The Gradual Internationalization of the Yen 414**

16 A COMPLETE MACRO MODEL: SUMMARY AND CRITICISMS 424

The Keynesian Model Summarized 425

The Promise of Discretionary Policies 427

- A Deflationary Gap 427*
- An Inflationary Gap 428*

Challenges to Keynesianism 430

- Monetarism 430*
- Supply-Side Economics 433*
- New Classical Economics 436*

EXAMPLE:

- 1. Should the Fed Be Sold? 433**

IDEAS IN HISTORY:

Monetarism and Discretion Versus Rules 434

The Rational Expectations Revolution 438

Rational Expectations and the New Classical Economists 439

The New Keynesians 441

PART V THE U.S. EXPERIENCE 445

17 ECONOMIC GROWTH AND PRODUCTIVITY 446

Definitions and Data 447

- Total GNP Growth 449*

- Per Capita GNP Growth 449*
- A Historical Perspective 450*

The Sources of Growth 450

- The Quantity of Labor 452*

<i>The Quantity of Capital</i>	453
<i>The Quantity of Land</i>	453
<i>Education</i>	453
<i>Technology</i>	453
<i>Other Factors</i>	454
<i>Summary—The National Production Function</i>	455

The Recent Slowdown in U.S. Economic Growth 455

<i>Long-Run Consequences</i>	456
------------------------------	-----

The Productivity Debate 457

<i>Declining Real Capital Growth</i>	457
<i>Deteriorating Human Capital</i>	458

Promoting Economic Growth 460

<i>Increasing Saving</i>	460
<i>Encouraging Investment</i>	461
<i>Improving Education</i>	463
<i>Stimulating Research and Development</i>	463

Limits to Growth 467

EXAMPLES:

1. *International Comparisons of Economic Growth* 451
2. *The Rise and Fall of Soviet Economic Growth* 458
3. *National Saving: The U.S. vs. Japan* 460
4. *Born in America, Made in Japan* 462
5. *The U.S. Labor Force: Unqualified to Work* 464
6. *New York City's Crumbling Infrastructure* 467
7. *The Challenge of Europe 1992* 468
8. *Betting on the Planet* 469

18 FIGHTING UNEMPLOYMENT 471

Policy Options 471

A Review of Historical Data 472

Anti-Recessionary Policies 474

<i>Two Basic Strategies</i>	474
<i>The Recession of 1960–61</i>	477
<i>The Recession of 1969–70</i>	479
<i>The Recession of 1973–75</i>	479
<i>The Recession of 1980 and 1981–82</i>	480
<i>The Recession of 1990–91</i>	482

International Comparisons 483

EXAMPLES:

1. *Unemployment Insurance Aiding Fewer Workers* 484
2. *The Oil War's Global Fallout* 485
3. *Counting the Unemployed in Iowa City* 486
4. *Why Canada's Unemployment Rate is So High* 487
5. *Why Japan's Unemployment Rate is So Low* 489

19 INFLATION VERSUS UNEMPLOYMENT: THE AWKWARD TRADEOFF 492

A Review of Historical Data 492

Anti-Inflationary Policies 493

<i>Keynesian Demand Management</i>	493
<i>Mandatory Wage and Price Controls</i>	496
<i>Other Approaches</i>	498

Recent Developments 498

<i>Monetarism</i>	498
<i>Wicksellian Economics</i>	499
<i>P-Star</i>	499

The Unemployment-Inflation Link 500

The Phillips Curve 500

The Curve Confirmed 502

The Death of the Phillips Curve 505

The Friedman-Phelps Critique 506
The Accelerationist Theory of Inflation 506

The Stop-Go Cycle 509

EXAMPLES:

1. Advising the Fed on Iraq 497

2. Has the Fed Found the Holy Grail? The Story of P* 503

IDEAS IN HISTORY:

***The Liquidity Trap* 509**

EXAMPLES:

1. Unemployment Insurance
2. Fewer Workers
3. The Oil War's Global Consequences
4. Japan's

PART VI A WORLDWIDE VIEW 513

20 THE RISE AND FALL OF COMMUNISM 514

The Vision of Perfect Computation 514

The Input-Output Table 515
Interpreting the Rows 515
Interpreting the Columns 515
Output Quotas and Input Norms 516
Incentives 517

The Great Soviet Experiment 517

A Doctrinal Mistake 518
Central Economic Planning 518
The Incentive System 519
Early Results: The Growth Record 519

The Seeds of Disaster 520

Limits to Extensive Economic Growth 520
Inability to Stimulate Intensive Economic Growth 521

The Movement for Reform 522

The Allocation of Raw Materials 523
The Resistance Movement 526

Revolution 526

The Soviet Union 526

China 527
Eastern Europe 528
The Rest of the World 528

EXAMPLES:

1. **The Profit Motive and the Allocation of Fertilizer 523**
2. **The Collapse of an Empire 529**
3. **From Marx to the Market: Problems of Transition 530**
4. **McDonald's Beats Lenin 3 to 1 531**

21 THE LESS DEVELOPED COUNTRIES 533

Profiles in Poverty 533

Poverty and Wealth: A Statistical Survey 534

Why Many Countries Are So Poor 535

Low-Quality Labor Force 535
Inadequate Natural Resources 536
Insufficient Capital 537
Lack of Modern Technical Know-How 540
Institutional Factors 540
The Population Explosion 543

Strategies for Development 543*The Inward-Looking Approach 544**The Foreign Trade Approach 545**The Role of Foreign Borrowing 546**The Role of Foreign Aid 548***EXAMPLES:****1. Land Tenure in Rwanda 542****2. Mismanagement in Ghana 546****3. South Korea's Economic
Miracle 547**

PART VII HOUSEHOLDS AND FIRMS 553**22 CONSUMER PREFERENCES
AND DEMAND 554****Utility Maximization 554***Cardinal Utility Versus Ordinal Utility 555**Total Utility Versus Marginal Utility 555**From Marginal Utility to Individual Demand 559***The Optimization Principle Revisited 559****From Individual Demand to Market
Demand 561****The Model Expanded: Two Goods and
More 561****NUMERICAL EXERCISE 1: Allocating a \$9
Budget for Maximum Total Utility 565****FOCUS 1: Jevons' Rule 569****EXAMPLES:****1. The Water-Diamond Paradox 557****2. Tokyo Journal: The Case of
\$115 Melons 563****3. Micromarketing: Hitting the
Bull's-Eye 566****IDEAS IN HISTORY:*****The Felicific Calculus 567******The Marginal Utility School 568*****22a Indifference Curve Analysis 571****The Field of Choice 571****Indifference Curves 571***Consumers Rank Bundles of Goods 572**Consumers Always Prefer More to Less 572**Consumers Insist on a Diminishing Marginal Rate of
Substitution 574**Consumer Choices Are Noncontradictory 575***The Consumer's Optimum 576****23 ELASTICITY 146****A General Definition 579***A Blind Alley 579**The Accepted Approach 581***The Own-Price Elasticity of Demand 582***A Numerical Example 582***FOCUS 1: The Own-Price Elasticity of
Demand 583****NUMERICAL EXERCISE 1: Calculating the
Own-Price Elasticity of Demand 583***Empirical Data 586**The Determinants of Elasticity Values 586***The Cross-Price Elasticity of Demand 587**

The Total Product 635
Diminishing Returns 638
Marginal Product and Average Product 638

Economies of Scale 641

Constant Returns to Scale 642
Increasing Returns to Scale 643
Decreasing Returns to Scale 644

EXAMPLES:

1. *The Amazing Story of Two Ford Plants* 636
2. *Research and Development Labs Move Abroad* 639
3. *Luftwaffe Secret Unburied* 642
4. *The Optimum Size of Cargo Ships* 645

IDEAS IN HISTORY:

The Concept of Marginal Product 646
The Concept of X-inefficiency 647

25a Isoquant Analysis 651

Isoquants Defined 651

Isoquants Analyzed 651

Negative Isoquant Slope Implies Positive Marginal Physical Products 653

Convex Isoquant Slope Implies Diminishing Marginal Rate of Technical Substitution 653

Horizontal and Vertical Isoquant Slopes Denote Zero Marginal Physical Products 654

Going Beyond Technology 655

The Isocost Line 655

The Producer's Optimum 656

26 THE COSTS OF PRODUCTION 658

Short-Run Costs: Tabular Illustrations 658

Fixed Cost 659
Variable Cost 660

Total Cost 660
Average and Marginal Costs 661

FOCUS 1: Major Concepts of Cost 662

Short-Run Costs: Graphical Illustrations 662

Fixed, Variable, and Total Costs 662
The Production Function Revisited 663
Average Fixed, Average Variable, and Average Total Costs 665

Marginal Cost 666

Key Relationships Among Cost Curves 666

NUMERICAL EXERCISE 1: Calculating Marginal Cost 668

NUMERICAL EXERCISE 2: Calculating Average Total Cost 670

Long-Run Costs 670

Constant Returns to Scale 670

Increasing Returns to Scale 671

Decreasing Returns to Scale 673

The Envelope Curve 674

Empirical Studies 674

Cost Cutting: Recent Developments 677

EXAMPLES:

1. *Increasing Returns to Scale in Beer Brewing* 672

2. *Constant Returns to Scale in Steel Making* 674

3. *Mending the Hole in Hollywood's Pocket* 677

4. *Producing Cheaper Computers: The Caribbean Connection* 678

5. *The Lure of Venezuela's "Liquid Coal"* 678

6. *The Internationalization of the Beer Brewing Industry* 679

IDEAS IN HISTORY:

The Envelope Curve 680

PART VIII MARKETS FOR GOODS 685

27 PERFECT COMPETITION 686

Varieties of Market Structure 686

The Characteristics of Perfect Competition 686

A Large Number of Independently Acting Buyers and Sellers 687

Virtual Identity of Different Units of Traded Item 688

Full Knowledge Concerning the Market 688

Unrestricted Entry into and Exit from the Market 688

The Firm's Revenue: Total, Average, and Marginal 689

FOCUS 1: Major Concepts of Revenue under Perfect Competition 689

NUMERICAL EXERCISE 1: Calculating Average Revenue and Marginal Revenue 691

The Maximization of Economic Profit and Short-Run Supply 692

A Profitable Business 692

NUMERICAL EXERCISE 2: The Case of Positive Economic Profit 695

A Zero-Profit Business 696

NUMERICAL EXERCISE 3: The Case of Zero Economic Profit 697

A Business Operating With an Economic Loss 697

NUMERICAL EXERCISE 4: The Case of Negative Economic Profit, but No Shutdown 698

A Business at the Point of Shutdown 698

NUMERICAL EXERCISE 5: The Case of Negative Economic Profit at the Shutdown Point 702

Summary 700

From Individual Supply to Market Supply 702

A Long-Run Perspective 703

Profit and Industry Expansion 705

Loss and Industry Contraction 706

Constant, Increasing, and Decreasing Cost Industries 707

The Efficiency of Perfect Competition 710

EXAMPLES:

1. *Shakespeare, Dickens, and Hillegass 695*
2. *Broadway and the Bottom Line 700*
3. *Struggling for Profits in Electronics 708*
4. *Eggs with Less Cholesterol? 709*
5. *Big Farms Try Organic Methods 710*

28 MONOPOLY AND CARTELS 715

The Sources of Monopoly 716

Increasing Returns to Scale 716

Concentrated Ownership of Key Resources 717

Patents and Copyrights 717

Exclusive Franchises 717

A Monopoly's Cost and Revenue 718

The Cost Curves 718

The Revenue Curves 720

NUMERICAL EXERCISE 1: Calculating Marginal Revenue 722

FOCUS 1: Major Concepts of Revenue Under Monopoly 722

The Maximization of Economic Profit 723

A Profitable Monopoly 724

NUMERICAL EXERCISE 2: The Case of Positive Economic Profit 725

A Zero-Profit Monopoly 725

A Monopoly Incurring a Loss 725

Conclusions 725

The Price Discriminating Monopoly 728*First-Degree Price Discrimination 728***NUMERICAL EXERCISE 3: First-Degree Price Discrimination 728***Second-Degree Price Discrimination 730***NUMERICAL EXERCISE 4: Second-Degree Price Discrimination 730****The Imperfections of Monopoly 730***Economic Inefficiency: $P > MC$ 730**Economic Inequity: $P > ATC$ 733***Cartels 733***Private Cartels 733**Government Cartels 737**International Cartels 737***EXAMPLES:**

1. *Polaroid Versus Kodak; Hughes Aircraft Versus the U.S. Government 718*
2. *Challenging Airfone's Monopoly 719*
3. *Technological Change and the Death of the Record Industry 735*
4. *The de Beers Diamond Cartel 736*
5. *Coffee: Another Cartel Bites the Dust 737*

IDEAS IN HISTORY:*The Theory of Monopoly 738***29 OLIGOPOLY AND MONOPOLISTIC COMPETITION 741****Oligopolistic Interdependence 742****Oligopoly Decisions: Price 743***The Oligopolists' Dilemma 743**The Kinked Demand Curve 745**Gentlemen's Agreements 746**Price Leadership 747***Oligopoly Decisions: Product Quality 747***Product Differentiation 747**Hotelling's Paradox 747***Oligopoly Decisions: Advertising 749***The Theory 749**The U.S. Experience 749***Oligopoly Decisions: A Game Theory Approach 753***The Two-Person Zero-Sum Game 754**The Two-Person Nonzero-Sum Game 755***Monopolistic Competition 758***Profit Maximization 758***Empirical Studies 760***Indexes of Industrial Concentration 760**The U.S. Economy: An Overview 760***EXAMPLES:**

1. *The Auto Industry: Moves and Countermoves 742*
2. *The Convergence of Bank Credit Cards 750*
3. *The Proliferation of Fragrances 752*
4. *The Great American Health Pitch 753*
5. *Stalking the New Consumer 763*
6. *The Vending Machine Craze 766*
7. *Modern Day "Hamburger Wars" 767*

IDEAS IN HISTORY:*The Chamberlinian Revolution 769*

PART IX MARKETS FOR RESOURCES 773**30 PERFECTLY COMPETITIVE LABOR MARKETS 774****The Supply of Labor 776****The Demand for Labor 778***A Numerical Example 778**A Graphical Illustration 780***NUMERICAL EXERCISE 1: Calculating the Average Value Product of Labor 781**

Market Equilibrium 781

FOCUS 1: Profit-Maximizing Rules Under Perfect Competition 782

Economic Efficiency 783

Applications and Extensions 784

- Wage Differentials 784*
- The Iron Law of Wages 786*
- Cobweb Cycles 787*

Government in Labor Markets 792

- Minimum Wages 792*
- Maximum Wages 796*

EXAMPLES:

- 1. Why Sleep? There's No Money In It 778**
- 2. The Value of Human Life 788**
- 3. Regional Wage Differentials and Population Change 790**
- 4. Investing in Human Capital 791**
- 5. When the Baby Boomers Grew Up 793**

31 IMPERFECTLY COMPETITIVE LABOR MARKETS 800

Examples of Market Imperfections 800

Competition in the Labor Market, Modified by Monopoly Power in Output Markets 802

- A Numerical Example 802*
- A Graphical Illustration 804*
- Monopolistic Exploitation 804*

FOCUS 1: Monopolistic Exploitation of Labor 805

Monopsony in the Labor Market, But Competition in Output Markets 806

- A Numerical Example 806*
- A Graphical Illustration 808*
- Monopsonistic Exploitation 808*

FOCUS 2: Monopsonistic Exploitation of Labor 809

Cartels in the Labor Market: The Emergence of Labor Unions 809

- Difficulties Illustrated 809*
- The Early Unions 812*
- The Labor Movement Comes to Stay 812*
- Helpful Laws 812*
- A Change in Strategy 813*
- Anti-Union Laws 813*

Labor Union Versus Competitive Buyers of Labor 815

- Possible Union Goals 816*
- Possible Strategies 816*

Labor Union Versus Labor Monopsony 818

Discrimination in the Labor Market 819

The Labor Market Status of Black Americans 820

- Two Types of Discrimination 820*
- Nondiscriminatory Reasons for Income Differences 824*

Government and Labor Market Discrimination 824

- Legislation 825*
- Court Decisions 828*

EXAMPLES:

- 1. A Case Study in Monopsony: The Baseball Player's Market 810**
- 2. Keeping Unions Out 815**
- 3. Comparable Worth: A Profoundly Flawed Concept? 826**
- 4. Pinups At Work Are Sexual Harassment 829**
- 5. The Coming Global Labor Market 830**

IDEAS IN HISTORY:

- Marginal Productivity and the Exploitation of Labor 831*
- Bread-and-Butter Unionism 832*

32 MARKETS FOR NATURAL AND CAPITAL RESOURCES 836

The Size of Tangible Wealth 836

Markets for Flows and Markets for Stocks 837

Of Time and Interest 838

- The Interest Rate: Nominal Versus Real* 838
Compounding: Turning Present Dollars into Future Dollars 839
Discounting: Turning Future Dollars into Present Dollars 839

Rental Markets for Natural Resources 840**Asset Markets for Natural Resources 842****Rental Markets for Capital Resources 844****Asset Markets for Capital Resources 845**

- Capital Asset Prices in the Short Run* 845
Capital Asset Prices in the Long Run 847

Applications and Extensions 848

- Pure Rent Earned by People* 848
Why Interest Exists 849
The Nature of Capital Budgeting 852
The Role of Economic Profit 854

EXAMPLES:

1. *Ricardo and the High Price of Corn* 843
2. *Selling Football Teams* 848

IDEAS IN HISTORY:

- The Single-Taxers* 856

33 THE PERSONAL DISTRIBUTION OF INCOME: RICHES VS. POVERTY 861**Home Income Inequality is Generated 862**

- The Size and Quality of Resource Stocks Owned* 862
The Rate at Which Resource Stocks are Put to Work 862
The Prices of Resource Services 863

The Distribution of Money Income Among U.S. Families 863

- Tabular Data* 864
A Graphical Exposition 864
The Gini Coefficient 866

Income and Wealth 866**The Super Rich 867****The Poor 869**

- The Meaning of "Needs"* 869
The Meaning of "Available Income" 874
The Choice of an "Income-Receiving Unit" 874
The Choice of an "Accounting Period" 875
The Official Definition 875

Poverty Statistics 878

- Overall Measures of Poverty* 878
The Makeup of the Poverty Population 884

The Dynamics of Poverty 885**EXAMPLES:**

1. *Is the Boss Getting Paid Too Much?* 872
2. *Income Dynamics* 876
3. *The Homeless* 880

PART X GOVERNMENT IN THE MICROECONOMY 889**34 ANTITRUST POLICY 890****Major Types of Market Failures 890**

- Inefficiency Due to Market Imperfections* 891
Inefficiency Due to Externalities and the Publicness of Goods 892
Inequity 894
Instability 894

The Impetus to Antitrust Legislation 894

- Horizontal Mergers* 894
Holding Companies 894
Trusts 895
The Robber Barons 895

The Antitrust Laws 896

- The Sherman Act* 896
The Clayton Act 897
The Federal Trade Commission Act 898
The Robinson-Patman Act 898

The Celler-Kefauver Act 898
Recent Amendments 899

Antitrust Policy Assessed 899

A Negligible Effect 899
A Significant Effect 900
Numerical Evidence 903

EXAMPLES:

1. *The Antitrust Division's Vietnam* 901
2. *The Breakup of Ma Bell* 902
3. *AT&T, the Unlikely Trustbuster* 904
4. *Antitrust in a Global Economy* 906

35 REGULATION 910

Economic Regulation and Social Regulation 911

The Regulation of Natural Monopolies 912

Eliminating Economic Inequity 914
Eliminating Economic Inefficiency 914
Rate-of-Return Regulation: Practical Problems 916
Rate-of-Return Regulation: An Assessment 918

The Regulation of Competitive Industries 919

The Public Interest Theory 919
Price-Fixing Schemes: Practical Problems 922
Price-Fixing Schemes: An Assessment 922
The Special Interest Theory 923
The Call for Deregulation 925

The Regulation of Health and Safety 925

Improving Market Knowledge 926
Mandating Reductions in Known Hazards 927
Of Benefits and Costs 927

Two Case Studies 929

Case 1: The Story of Airline Deregulation 931
Case 2: The Food and Drug Safety War 933

EXAMPLES:

1. *Back from the Grave: The Case of Trucking Deregulation* 926
2. *Health and Safety Regulation and the Price of Cars* 928
3. *Safeguarding the Welfare of Babies and the Disabled* 930

36 EXTERNALITIES AND ENVIRONMENTAL ECONOMICS 939

The Nature of Externalities 941

Negative Externalities 941

FOCUS 1: Negative Externalities 942

Positive Externalities 942

FOCUS 2: Positive Externalities 942

The Analysis of Pigou 942

Taxing Producers 943
Subsidizing Consumers 943

The Challenge of Coase 946

An Example 946
The Coase Theorem 948

The Tragedy of the Commons 948

The New England Commons 950

The Pollution of Nature 952

The Theory of Optimum Pollution 953
Actual Pollution in the Absence of Government Intervention 955
Types of Government Intervention 955

EXAMPLES:

1. *The Economics of Bees* 949
2. *Overfishing on the Georges Bank* 951
3. *Escaping the Commons: Lobsters and Oysters* 952
4. *Netting and Offsets, Bubbles and Banks* 962
5. *Green Marketing* 964

37 PUBLIC GOODS AND PUBLIC CHOICES 968**The Nature of Public Goods 968***Nonexcludability 968**Nonrivalness 969**Examples 969***Public Goods and Market Failure 969***The Free-Rider Problem 969**Public Finance 971***The Optimum Quantity of a Pure Public Good 971****The Elusive Marginal Social Benefit 972****The Process of Public Choice 974***Majority Voting 975**Delegating Authority 979**The Nature of Bureaucracy 979***Remedies for Government Failure 981****EXAMPLES:**

1. *Computer Software: A Public Good 970*
2. *Breaking Out of the Prison Crisis 982*
3. *Privatizing Public School Functions 982*
4. *Privatizing Space Projects 982*

38 THE REDISTRIBUTION OF INCOME 986**Notions of Distributive Justice 987****Major Transfer Programs in the United States 988***Social Insurance Programs 988**Public Assistance Programs 990***The Effect of Financing Transfers by Taxes 992***The Tax Incidence Problem 992**Tax Incidence in the United States 993**Taxes and Transfers Combined 994***Behavioral Feedback Effects 994***Taxpayer Disincentives 994**Recipient Disincentives 995***An Overall Assessment 998****The Call for Welfare Reform 998***A Negative Income Tax System 998**The Cost-Incentive Dilemma 999**The Experiments 1001***EXAMPLES:**

1. *Headstart at Age 25 992*
2. *The Welfare Trap 996*

SOLUTIONS TO ODD-NUMBERED QUESTIONS AND PROBLEMS S-1**GLOSSARY GL-1****INDEX OF SUBJECTS I-1****INDEX OF NAMES I-9****ACKNOWLEDGMENTS A-1**
