People on the move

IWP&DC reports on recent appointments in the industry

Central and South America

12

Regional insight

Highlighting developments across the continent

Cross-border projects

18

In this together

Detailing development of the Transboundary Water Cooperation Coalition

Dam safety

22

Safety in the spotlight

Independent assessment, improved communication and investment initiatives are hitting the headlines in dam safety.

26

Industry responds to Nova Kakhovka breach

Suzanne Pritchard reports on the industry's response to the Nova Kakhovka Dam breach.

New developments

30

Harnessing the power of digital twins

The industry utilizes virtual replicas and real-time data

32

Empowering remote communities

Wave power developments aim to promote a greener, more resilient future for isolated and island communities

34

Key to Europe's Energy Transition

Details on the inaugural Brussels Hydropower Day

36

Navigating the changing power market

An insight into Volue's Smart Power software suite

38

New paradigm required for water storage solutions

Spotlight on a recent report from The World Bank.

Technology

40

Virtual platform powers hydropower innovation

Researchers can simulate and study hydropower plants thanks to new platform

Condition monitoring

42

Infrastructure inspections

Infrastructure Lifecycle Hub helps digital inspections

Floating solar

44

Harnessing two forces of nature

Focus on floating solar installations at hydropower plants.
