

Contents

<i>Preface</i>	iii
1. Agricultural Nanobiotechnology: Current Possibilities and Constraints <i>Pooja and Remu Munjal</i>	1
Section A: Agro-Nanotechnology	
Nanofertilizers	
2. Application of Metallic Nanoparticles as Agri Inputs: Modulation in Nanoparticle Design and Application Dosage Needed <i>Shweta Gehlout, Ayushi Priyam, Drishti, Luis Afonso, Aaron G Schultz and Pushplata Prasad Singh</i>	16
3. Recent Advances in Nanofertilizer Development <i>Ankita Bedi and Braj Raj Singh</i>	55
4. Nanofertilizers: Importance in Nutrient Management <i>Mona Nagargade, Vishal Tyagi, Dileep Kumar, SK Shukla and AD Pathak</i>	69
Plant Disease Management	
5. Polymeric Nano-fungicides for the Management of Fungal Diseases in Crops <i>Ruma Rani and Pawan Kaur</i>	82
6. Nano-enabled Pesticides: Status and Perspectives <i>CC Sheeja, Damodaran Arun and Lekha Divya</i>	99
7. Chitosan Nanomaterials for Post Flowering Stalk Rot Control in Maize <i>Garima Sharma, Damyanti Prajapati, Ajay Pal and Vinod Saharan</i>	108
8. Nanophytovirology Approach to Combat Plant Viral Diseases <i>Sanjana Varma, Neha Jaiswal, Niraj Vyawahare, Anil T Pawar, Rashmi S Tupe, Varsha Wankhade, Koteswara Rao Vamkudoth and Bhushan P Chaudhari</i>	127
Miscellaneous Application of Nanoparticles	
9. Nanosilver and Smart Delivery in Agricultural System <i>Rythem Anand and Madhulika Bhagat</i>	156

- 10. Recent Approaches in Nanobioformulation for Sustainable Agriculture** 166
Ngangom Bidyarani, Gunjan Vyas, Jyoti Jaiswal, Sunil K Deshmukh and Umesh Kumar
- 11. Nanobiosensors for Monitoring Soil and Water Health** 183
Archeka, Nidhi Chauhan, Neelam, Kusum and Vinita Hooda
- 12. Bacterial Small RNA and Nanotechnology** 203
Vatsala Koul and Mandira Kochar
- 13. Application of Nanoparticles for Quality and Safety Enhancement of Foods of Animal Origin** 227
Kandeepan Gurunathan
- 14. Exploring the Potential of Nanotechnology in Cotton Breeding: Huge Possibilities Ahead** 261
Sapna Grewal, Promila, Santosh Kumari, Sonia Goel and Shikha Yashveer

Section B: Environmental Nanotechnology

Recycling of Agricultural Waste

- 15. Synthesis of Agro-waste-mediated Silica Nanoparticles: An Approach Towards Sustainable Agriculture** 278
Rita Choudhary, Pawan Kaur and Alok Adholeya
- 16. Recent Advances in Heavy Metal Removal: Using Nanocellulose Synthesized from Agricultural Waste** 292
Mandeep Kaur, Praveen Sharma and Santosh Kumari

Ecosafety and Phytotoxicity

- 17. Ecosafety and Phytotoxicity Associated with Titania Nanoparticles** 306
Nupur Bahadur and Paromita Das

Index 315
