

Contents

Introduction P. A. Miescher	1
Mechanisms of genetic control of murine systemic lupus erythematosus S. Izui, R. Merino, M. Iwamoto, L. Fossati	3
The role of cytokines in the immunopathogenesis of lupus B. S. Handwerger, V. Rus, L. da Silva, C. S. Via	23
The cytokine network in the pathogenesis of systemic lupus erythematosus and possible therapeutic implications D. A. Horwitz, C. O. Jacob	51
Antibodies to CD45 and other cell membrane antigens in systemic lupus erythematosus J. B. Winfield, P. Fernsten, J. Czyzyk, E. Wang, J. Marchalonis	71
Antigenic specificities of "antiphospholipid" autoantibodies R. A. S. Roubey	81
Antiphospholipid antibodies and the antiphospholipid syndrome E. N. Harries, S. S. Pierangeli	93
Lupus pregnancies and neonatal lupus M. D. Lockshin	117
Systemic lupus erythematosus in children A. M. Rosenberg	131
Systemic lupus erythematosus - disease management M. F. Gourley	151

- Drug combination therapy of systemic lupus erythematosus
P. A. Miescher, H. Favre, R. Lemoine, Y.-P. Huang 165
- Central nervous system involvement in systemic lupus erythematosus:
a new therapeutic approach with intrathecal dexamethasone
and methotrexate
G. Valesini, R. Priori, A. Francia, G. Balestrieri, A. Tincani, P. Airo,
R. Cattaneo, A. Zambruni, B. Troianello, M. Chofflon, P. A. Miescher 183
- Extracorporeal photochemotherapy for the treatment of lupus erythematosus:
preliminary observations
R. M. Knobler 193
- Immunological intervention reveals reciprocal roles for tumor necrosis factor- α
and interleukin-10 in rheumatoid arthritis and systemic lupus erythematosus
R. N. Maini, M. J. Elliott, P. J. Charles, M. Feldmann 197
- Prognosis in systemic lupus erythematosus
J. M. Esdaile 207
