<b>Preface</b>	<b>xvii</b>
<b>What's New in the Third Edition</b> .....	<b>xvii</b>
<b>Introduction</b>	<b>xix</b>
<b>Why Restore Digitally?</b> .....	<b>xix</b>
<b>About This Book</b> .....	<b>xx</b>
<b>About Other Books</b> .....	<b>xxii</b>
<b>Keeping in Touch</b> .....	<b>xxiii</b>
<b>Acknowledgements</b> .....	<b>xxiii</b>
<b>About the Author</b> .....	<b>xxiv</b>
<b>Quick Diagnostic Guide to Restoration</b>	<b>xxv</b>
<b>Chapter 1: The Big Picture</b>	<b>1</b>
<b>Where Do You Want to Go Today?</b> .....	<b>1</b>
Who Are You, and Whose Expectations Matter? .....	2
Who Are You Trying to Make Happy? .....	2
Are You Trying to Re-create a Historically Accurate Photograph?.....	4
How Important is the Photograph, and How Much Scrutiny Might it Be Subject To? .....	6
How Big Will the Restoration Be? .....	6
<b>The Art (and Craft) of Restoration</b> .....	<b>7</b>
Restoring Tone .....	7
Restoring Color .....	7
Fine-Detail Repairs and Cleanup.....	8
Major Damage Repairs .....	8
Repairing Uneven Damage.....	9
<b>Fooling Around</b> .....	<b>9</b>
<b>A Modest Taxonomy of Restoration</b> .....	<b>12</b>
Prints .....	13
Slides.....	21
Negatives .....	22
Newspaper Clippings.....	24
<b>Take Your Time</b> .....	<b>25</b>

<b>Chapter 2: Hardware for Restoration</b>	<b>27</b>
<b>The “Bottom” Line</b> .....	<b>27</b>
<b>The Computer</b> .....	<b>28</b>
<b>Memory</b> .....	<b>29</b>
<b>Hard Drives</b> .....	<b>32</b>
<b>Display</b> .....	<b>34</b>
<b>Laptops and iMacs</b> .....	<b>37</b>
<b>Graphics Tablets</b> .....	<b>37</b>
<b>Color Management and ColorMunki</b> .....	<b>39</b>
<b>Backup and Long-Term Storage</b> .....	<b>40</b>
<b>Scanners</b> .....	<b>41</b>
<b>Printers</b> .....	<b>46</b>
<b>Chapter 3: Software for Restoration</b>	<b>49</b>
<b>Image Processing Programs</b> .....	<b>51</b>
Photoshop CC and CS6.....	51
<i>Maximizing Photoshop Performance</i> .....	52
Avoiding Photoshop.....	53
Alternatives to Photoshop.....	55
Photoshop Elements 14.....	58
Elements XXL .....	59
Affinity Photo.....	60
Photoline 19.....	61
<b>Plug-in and Stand-Alone Tools</b> .....	<b>62</b>
AKVIS Retoucher .....	62
<i>Polaroid Dust &amp; Scratch Removal</i> .....	64
Focus Magic.....	64
Noise Ninja/Photo Ninja.....	64
Topaz Labs DeNoise 6.....	66
Topaz Labs InFocus.....	66
Topaz Labs Detail 3 .....	66
Topaz Labs Clarity .....	66
<b>Repair and Recover Tools</b> .....	<b>70</b>
CD/DVD Diagnostic.....	70
JPEG Recovery Pro 5.0 .....	70

Stellar Phoenix JPEG Repair.....	70
RS File Repair.....	70
Picture Doctor 2 .....	70

## **Chapter 4: Getting the Photo into the Computer** **73**

<b>How-Tos in This Chapter.....</b>	<b>73</b>
<b>Introduction.....</b>	<b>74</b>
<b>Preparation and Cleaning .....</b>	<b>75</b>
<b>Scanning Prints—Maximize Your Information by Getting the Tones Right.....</b>	<b>78</b>
Scanning for Dirt and Tears.....	89
<b>Is 16-Bit Mode Really Necessary? .....</b>	<b>90</b>
<b>Pulling in the Color.....</b>	<b>92</b>
<b>Scanning Halftones .....</b>	<b>95</b>
<b>How to Scan B&amp;W Film and Glass Plates.....</b>	<b>96</b>
<b>Scanning Color Film.....</b>	<b>101</b>
<b>Resolution Decisions.....</b>	<b>105</b>
<b>Cracked and Textured Prints.....</b>	<b>109</b>
Rephotography.....	112

## **Chapter 5: Restoring Tone** **117**

<b>How-Tos in This Chapter.....</b>	<b>117</b>
<b>What Makes a Good Print? .....</b>	<b>118</b>
<b>Curves .....</b>	<b>122</b>
Correcting Tones with Multiple Layers .....	130
<b>The Shadow/Highlight Adjustment .....</b>	<b>133</b>
<b>How to Improve a Copy Print .....</b>	<b>135</b>
<b>How to Correct Uneven Exposure .....</b>	<b>142</b>
<b>How to Repair Uneven Density:</b>	
<b>Dodge and Burn with Masked Adjustment Layers.....</b>	<b>147</b>
<b>Magnifying-Glass Layers .....</b>	<b>152</b>
<b>Soft-Light Dodging and Burning-In Layers.....</b>	<b>154</b>
<b>Enhancing Almost-Blank Photos .....</b>	<b>155</b>
<b>Making Extreme Tone Changes without Distorting Colors .....</b>	<b>158</b>
<b>Fixing Harsh Shadows on Faces .....</b>	<b>160</b>

<b>Chapter 6: Restoring Color</b>	<b>165</b>
How-Tos in This Chapter.....	165
What Makes a Good Print? .....	166
Getting the Color Right (Semi-)Automatically.....	171
Color Correcting in Layers.....	176
Getting Better Skin Tones .....	181
The Layered Approach.....	181
The Airbrushed Layers Approach.....	185
Correcting Skin Tones with Color Airbrushing.....	191
Hand-Tinting Photographs.....	196
Using Masked Layers to Hand-Tint Photographs.....	196
Hand-Tinting with Coloriage .....	199
Fixing Chromatic Aberration with Picture Window.....	201
Correcting Out-of-Gamut and Incorrect Colors.....	203
Fixing Color Stains and Development Marks .....	205
 <b>Chapter 7: Making Masks</b>	 <b>209</b>
How-Tos in this Chapter .....	209
Why Mask?.....	210
Many Ways to the Same Goal.....	212
Isolating Cracks .....	215
Making Masks from Colors .....	225
Exaggerating Color to Select Tarnish .....	226
Exaggerating Color to Select Scratches .....	230
Selecting and Fixing a Matte Border .....	234
Five Ways to Mask Cellophane Tape Damage .....	242
 <b>Chapter 8: Damage Control</b>	 <b>249</b>
How-Tos in This Chapter.....	249
Introduction.....	250
Simple Spotting.....	250
Polishing Out the Scratches .....	257
Finding Scratches with the Find Edges Filter .....	258
Minimizing Scratches with Noise Reduction and Layer Blends.....	261
Minimizing Scratches with Masks and Curves .....	265

Enhancing Color to Attack Scratches.....	269
<b>Filling In the Cracks .....</b>	<b>272</b>
Removing Fine Cracks with a Mask and Median Filtering .....	273
Removing Fine Cracks in Stages with Repeated Median Filtering .....	275
Whittling Away at Wide Cracks .....	279
<b>Repairing Large Cracks with GIMP.....</b>	<b>281</b>
Eliminating Folds, Cracks, and Creases Using Averaged Scans .....	282
<b>Paving Over Tears and Holes .....</b>	<b>284</b>
Using the Dust & Scratches Filter in	
Combination with the Spot Healing Brush.....	286
<b>AKVIS Retoucher.....</b>	<b>289</b>
<b>Clearing the Debris.....</b>	<b>295</b>
Eliminating Tarnish .....	295
Picking the Right Color for B&W.....	298
Dealing with Textured Prints.....	300
Repairing Mildew .....	305
<b>Chapter 9: Tips, Tricks, and Enhancements</b>	<b>309</b>
<b>How-Tos in This Chapter.....</b>	<b>309</b>
<b>Introduction.....</b>	<b>310</b>
<b>Save Time by Using Your Keyboard and Your Mouse .....</b>	<b>310</b>
<b>Capturing a Long Density Range in a Scan by Stacking Images .....</b>	<b>311</b>
<b>Descreening a Halftone.....</b>	<b>314</b>
<b>Getting the Most Detail out of Your Photograph .....</b>	<b>316</b>
<b>What Do You Do with a Tintype?.....</b>	<b>320</b>
<b>Stitching Scans Together .....</b>	<b>322</b>
<b>Improving the Original.....</b>	<b>325</b>
<b>Chapter 10: Beautification</b>	<b>331</b>
<b>How-Tos in This Chapter.....</b>	<b>331</b>
<b>Introduction.....</b>	<b>332</b>
<b>Viewing Your Restorations at Arm's Length .....</b>	<b>332</b>
<b>Improving Tonality and Making the Photo More Lively .....</b>	<b>333</b>
Unsharp Masking.....	334
ContrastMaster.....	336

<b>Detexturing the Photo</b> .....	<b>336</b>
Dust & Scratches Filter .....	336
Sharpen and Smooth . . . or Vice Versa .....	338
<b>Selective Sharpening</b> .....	<b>342</b>
<b>Improving a Photograph by Adding Grain</b> .....	<b>346</b>
<b>Touching Up Faces</b> .....	<b>350</b>
<b>Neutralizing the Neutrals</b> .....	<b>354</b>
<b>Chapter 11: Examples</b> .....	<b>357</b>
<b>Introduction</b> .....	<b>357</b>
<b>Example 1: Repairing an Old Glass Plate</b> .....	<b>358</b>
<b>Example 2: Repairing Color with a Good Scan</b> .....	<b>359</b>
<b>Example 3: Mother and Child—a “Legacy” Restoration Job</b> .....	<b>360</b>
<b>Example 4: A Faded E-1 Slide</b> .....	<b>361</b>
<b>Example 5: Reassembling an Astronomical Glass Plate</b> .....	<b>362</b>
<b>Example 6: A Rare and Historic Old Polaroid</b> .....	<b>363</b>
<b>Example 7: Fixing a Photocopied Halftone</b> .....	<b>364</b>
<b>Example 8: Restoring an Almost-Blank Photo</b> .....	<b>365</b>
<b>Example 9: Restoring a Very Old, Large Print</b> .....	<b>366</b>
<b>Example 10: Restoring a Very Yellowed B&amp;W Snapshot</b> .....	<b>367</b>
<b>Example 11: Restoring Faded Color Snapshots</b> .....	<b>368</b>
<b>Example 12: An Unsatisfying Restoration of a Polaroid SX-70 Print</b> .....	<b>369</b>
<b>Chapter 12: Printing</b> .....	<b>379</b>
<b>What’s the Right Printer?</b> .....	<b>379</b>
<b>Choosing Your Print Media for Permanence</b> .....	<b>380</b>
<b>Should I Profile My Printer?</b> .....	<b>381</b>
<b>Forget about Profiles!</b> .....	<b>383</b>
<b>ColorMunki</b> .....	<b>385</b>
<b>Toning the B&amp;W Print</b> .....	<b>386</b>
<b>Display and Storage Conditions for Maximum Print Longevity</b> .....	<b>392</b>
<b>Chapter 13: Archiving and Permanence</b> .....	<b>397</b>
<b>The Special Needs of Digital Storage</b> .....	<b>397</b>
<b>In a Material World</b> .....	<b>398</b>

<b>Picking Up the Pieces</b> .....	<b>400</b>
<b>It's Just a Matter of Time</b> .....	<b>401</b>
<b>All Storage Is Not Created Equal</b> .....	<b>401</b>
<b>Can You Hear Me Now?</b> .....	<b>405</b>
<b>Babel Fish</b> .....	<b>406</b>
<b>Final Words</b> .....	<b>407</b>

<b>Index</b>	<b>408</b>

<b>Chapter 4: Getting the Photo into the Computer</b>	<b>73</b>
How to scan an underexposed negative (or a print from one).....	85
Scanning for Dirt and Tears.....	89
<b>Cracked and Textured Prints.....</b>	<b>109</b>
How to scan cracked, creased, or textured prints.....	110
<b>Chapter 5: Restoring Tone</b>	<b>117</b>
Correcting Tones with Multiple Layers.....	130
<b>How to Improve a Copy Print.....</b>	<b>135</b>
How to improve a copy print with Unsharp Masking.....	142
<b>Magnifying-Glass Layers.....</b>	<b>152</b>
<b>Chapter 6: Restoring Color</b>	<b>165</b>
<b>Correcting Out-of-Gamut and Incorrect Colors.....</b>	<b>203</b>
<b>Chapter 7: Making Masks</b>	<b>209</b>
<b>Selecting and Fixing a Matte Border.....</b>	<b>234</b>
How to select a matte border.....	236
<b>Chapter 8: Damage Control</b>	<b>249</b>
<b>Simple Spotting.....</b>	<b>250</b>
<b>Repairing Large Cracks with GIMP.....</b>	<b>281</b>
Eliminating Folds, Cracks, and Creases Using Averaged Scans.....	282
Using the Dust & Scratches Filter in Combination with the Spot Healing Brush.....	286
<b>AKVIS Retoucher.....</b>	<b>289</b>
<b>Chapter 10: Beautification</b>	<b>331</b>
<b>Selective Sharpening.....</b>	<b>342</b>
<b>Improving a Photograph by Adding Grain.....</b>	<b>346</b>
<b>Touching Up Faces.....</b>	<b>350</b>
How to eliminate hot-spot highlights on faces.....	350
How to smooth out uneven and blotchy skin colors.....	352
<b>Neutralizing the Neutrals.....</b>	<b>354</b>

<b>Chapter 11: EXAMPLES</b>	<b>357</b>
<b>Example 12: An Unsatisfying Restoration of a Polaroid SX-70 Print</b> .....	<b>369</b>
<b>Chapter 12: Printing</b>	<b>379</b>
<b>Forget about Profiles!</b> .....	<b>383</b>
<b>How-Tos</b> .....	
How to unmount a slide .....	76
How to scan a faded B&W print .....	81
How to scan a dark B&W print .....	82
How to scan an underexposed negative (or a print from one) .....	85
How to convert an RGB scan to grayscale .....	89
How to improve color with a good scan .....	94
How to scan a magazine or newspaper illustration .....	96
How to inspect very dark parts of a scan .....	100
How to scan color negatives .....	102
How to determine what resolution to scan at .....	105
How to scan cracked, creased, or textured prints .....	110
How to photograph tarnished or textured prints .....	113
How to evaluate contrast with a histogram .....	119
How to change overall brightness and contrast with Curves .....	122
How to use sample points with Curves .....	123
How to change black and white points and avoid clipping with Curves .....	125
How to make a print look more brilliant and snappy by adding contrast to midtones with Curves .....	127
How to lighten or darken a print with Curves .....	128
How to bring out shadow tones with Curves .....	129
How to improve snapshots with the Shadow/Highlight adjustment .....	135
How to improve a copy print with the Shadow/Highlight adjustment .....	138
How to improve a copy print with ContrastMaster .....	139
How to improve a copy print with Unsharp Masking .....	142
How to correct uneven exposure with a Curves adjustment layer .....	144
How to do dodging and burning in with masked Curves adjustment layers .....	148
How to improve contrast and highlight detail with a masked Curves adjustment layer .....	151

How to dodge and burn with a soft-light layer .....	154
How to recover a nearly blank photograph with Multiply blends .....	157
How to improve contrast without making colors too saturated.....	159
How to fix harsh shadows on faces .....	161
How to use the History Brush as a dodging tool.....	161
How to retouch faces with a masked Curves adjustment layer.....	163
How to make a scan that produces good color .....	167
How to correct color with the midtone eyedropper.....	170
How to correct color with Picture Window Color Balance.....	172
How to correct color using Auto Color options.....	174
How to use layers to correct color separately from luminosity.....	177
How to improve color with Curves and Vibrance or Hue/Saturation adjustment layers.....	179
How to make skin tones smoother with Curves adjustment layers .....	184
How to retouch skin tones with an airbrush layer.....	187
How to refine skin tones with a Hue/Saturation adjustment layer .....	189
How to refine skin tones with SkinTune 2.....	190
How to fix a faded school portrait with airbrush layer.....	194
How to create neutral tones with a Hue/Saturation layer .....	194
How to hand-tint a photograph with masked layers.....	196
How to hand-tint a photograph with AKVIS Coloriage.....	199
How to remove color fringes from a photograph .....	201
How to remove developer stains from a color negative (now online at <a href="http://photo-repair.com/RD3">http://photo-repair.com/RD3</a> )	
How to improve color with Color Mechanic .....	206
How to eliminate tarnish from a photograph .....	211
How to make a mask by selecting cracks with the Find Edges filter.....	216
How to select cracks with the Picture Window Edge tool.....	220
How to enhance cracks for selection .....	221
How to select cracks with the help of a noise reduction program .....	223
How to select tarnished parts of a photograph .....	225
How to use Channel Mixer to emphasize damage for masks .....	228
How to select damage by color with Image Calculations.....	233
How to select a matte border .....	236
Exaggerating color for hand-Tinting Masks.....	240
How to select cellophane tape damage by color range .....	243

How to use Mask Pro to select cellophane tape damage.....	244
How to create a damage selection mask from a single color channel.....	246
How to clean up dust and scratches from a scan with the History Brush.....	253
How to clean up dust and scratches from a scan with masked layers .....	254
How to repair a badly scratched slide.....	259
How to minimize scratches using noise reduction and blended layers .....	262
How to minimize scratches in a print with Curves.....	265
How to minimize scratches in a print with multiple Curves adjustment layers.....	267
How to minimize scratches with color channels and channel mixing .....	271
How to fill in cracks in a print with a mask.....	274
How to repair cracks in stages with Median filtering.....	277
How to repair large cracks with repeated masking and filtering.....	280
How to repair a torn negative (now online at <a href="http://photo-repair.com/DR3">http://photo-repair.com/DR3</a> )	
How to remove chemical and water spots.....	285
How to eliminate tarnish and silvered-out spots.....	295
How to minimize tape stains .....	298
How to remove print surface textures using Neat Image.....	300
How to remove print surface textures using Picture Window .....	303
How to erase mildew spots using the History Brush .....	305
How to erase mildew spots with masked layers and Smart Filters .....	307
How to scan very contrasty photographs with Picture Window.....	312
How to eliminate the dots from newspaper photographs.....	316
How to increase sharpness and fine detail in a photograph .....	318
How to make a photograph look like a tintype .....	322
How to combine scans to make one large photograph .....	323
How to create a merged “finished restoration” layer .....	334
How to improve tonality with Unsharp Masking .....	335
How to use Dust & Scratches to shave off the worst noise .....	337
How to eliminate hot-spot highlights on faces.....	350
How to smooth out uneven and blotchy skin colors.....	352
