<i>To the Instructor</i>	vii
<i>To the Student</i>	xi
<i>Acknowledgments</i>	xvii
<i>Checklists, Sample Materials, and Figures</i>	xxix
<i>About the Authors</i>	xxxv
PART I	
<i>Introduction</i>	1
CHAPTER 1 Introduction to Research and the Three-Phase Research Process	3
Research Is an Essential Tool for Decision Makers	4
The Research Process	6
Pre-Research Phase	8
Identifying a Need for Research	8
Research Questions Guide the Research	8
Research Hypotheses	9
Deciding on the Appropriate Research Method	9
Research Phase	10
Post-Research Phase	11
Research Relies on Scientific Research Methods	11
Research Uses a Special Language	12
Communication Research Has a Long and Diverse History	15
Overview of Research in Mass Communication	17
<i>Suggested Research Activities</i>	19
<i>Recommended Reading</i>	19
PART II	
<i>Applying the Three-Phase Research Process to Survey Research</i>	21
CHAPTER 2 The Pre-Research Phase and the Decision Maker	23

Surveys Help Decision Makers Understand Their Market	24
The Pre-Research Phase Begins with the Decision Maker	25
Standards and Decisions during the Pre-Research Phase	27
Ethical Standards in Conducting Surveys	27
Deciding Whether to Conduct a Telephone, Mail, or Face-to-Face Survey	27
Deciding Whether to Conduct a Cross-Sectional or Longitudinal Study	30
The Last Three Steps of the Pre-Research Phase	31
<i>Suggested Research Activities</i>	32
<i>Recommended Reading</i>	32
CHAPTER 3 The Research Phase and the Research Expert	33
Research Know-How and Communication Skills Are Required during the Research Phase	34
Initial Steps of the Research Phase	35
The First Consultation with the Decision Maker	36
The Literature Review and Background Search	37
Concepts, Variables, and Operational Definitions	37
A Literature Search Example	39
The Survey Questionnaire	43
Question Types and Issues	44
Principles of Valid Survey Questions	44
Ethical Standards	44
Open-Ended and Closed-Ended Questions	44
Mutually Exclusive and Exhaustive Response Choices	45
Validity and Reliability	46
Precision	46

Phrasing Valid Survey Questions	49
<i>Suggested Research Activities</i>	54
<i>Recommended Reading</i>	55
CHAPTER 4 The Survey Questionnaire	56
Overview of the Questionnaire Format	57
Record-Keeping Information	57
Questionnaire Introduction	58
Issues That Influence the Questionnaire's	
Validity and Organization	59
First Question	59
Other Questions	60
Socially Desirable Questions	61
Issues That Affect Response Choices and Their	
Validity	62
Response Choices for	
Measuring Behavior	64
Response Choices in Ordinal Scales That	
Measure Attitudes	64
Don't Know, Undecided, No Opinion,	
Neutral	66
(Refused)	67
Format Issues	68
Qualifying and Contingency Questions	68
Matrix Format	70
Precoding	70
Layout and Style	72
Questionnaire Closing	72
Grammar and Spelling Check, Tone, and	
Style	72
Pretesting the Questionnaire	73
Format for a Mail Survey Questionnaire	76
<i>Suggested Research Activities</i>	77
<i>Recommended Reading</i>	77
CHAPTER 5 Selecting Survey	
Respondents	78
Methods of Selecting Survey Participants	79
Census	79
Random Sample	80
Non-Random Sample	81
Identifying a List for Drawing a Sample	82
Available Lists	82
Criteria for Evaluating Lists	82
When No List Is Available	82
Assumptions about Sample Size	83
Sample Size	83
Assumptions behind the Sample Sizes and	
Sampling Errors	83
Different Methods for Drawing a Random	
Sample	88
Drawing a Simple Random Sample	88
Drawing a Systematic Random Sample with	
a Random Start Point	89
Plus-One Random Sampling	92
Random Digit Dialing	95
Sample for a Mail Survey	96
<i>Suggested Research Activities</i>	96
<i>Recommended Reading</i>	97
CHAPTER 6 Interviewer Training and	
Survey Data Collection	98
Interviewers Play an Important Role	
in Surveys	99
Hiring	99
Characteristics of Effective Interviewers	100
The Training Session	100
Organizing a Training Session	100
Conducting a Training Session	101
Rules for Calling the Sample	
of Respondents	101
Who Should Be Called	101
When Calls Should Be Made	103
Callbacks	103
Keeping a Record of Calls	104
Rules for Interviewing	105
Discuss Rules for Interviewing during the	
Demonstration	105
Be Conversational, Objective,	
and Accurate	105

- Follow the Wording and Order of Questions 107
- Respect Respondents 107
- Follow Ethical Standards 107
- Strategies to Encourage Participation 108**
- When the Interviewer Is Assisted by Computer 108**
- Fieldwork Must Be Monitored to Produce Valid Results 110**
- Mail Surveys Have Special Requirements 110**
 - Suggested Research Activities 111*
 - Recommended Reading 111*
- CHAPTER 7 Coding and Processing Survey Data 112**
- Precoding and Computers Facilitate Tabulating Survey Results 113**
- Coding Starts with a Master Codebook 114**
 - Preparing Data for Coding 114
 - Coding Open-Ended Questions 117
- Written Instructions and Coder Training Produce Reliable Coding 119**
 - Written Instructions 119
 - Coder Training 119
 - Coding Follows the Training 120
- Computer Processing Data 121**
 - Special Computer Software Makes Tabulating Fast and Easy 121
 - Become Familiar with the Computer Software 121
- Cleaning and Recoding May Be Necessary before Final Computer Runs 123**
 - Cleaning "Dirty" Data 123
 - Recoding Decisions 124
- A Frequency Printout 124**
 - Interpreting the Table 124
 - The Valid Percent Column Is Important 125
 - Suggested Research Activities 126*
 - Recommended Reading 126*
- CHAPTER 8 Survey Data Analysis and Statistics 127**
- Statistics as a Tool for Understanding Many Statistics Are Available for Analyzing Data 128**
- Statistics for Analyzing One Variable 129**
 - Measures of Central Tendency 129
 - Measures of Dispersion 131
 - Frequency Distribution 132
 - Rank Ordering Data 133
- The Analytical Technique of Cross-Tabulation 136**
 - Deciding Which Variables to Compare When the Independent Variable Is at the Top 136
 - at the Top 139
- Determining Significance 140**
 - Chi Square Can Determine Relationship between Two Variables 140
 - Interpreting Significance 140
- Statistical Measures of Association 141**
 - Interpreting Measures of Association 141
 - Measures of Association for Nominal Data 142
 - Measures of Association for Ordinal Data 142
 - Product-Moment Correlation (r) 144
- Testing for Difference 144**
- Statistics and Analytical Techniques for Three or More Variables 145**
 - Factor Analysis 145
 - Multiple Regression 145
 - ANOVA 146
- Statistical Inferences about the Population 146**
- Recommendations for Appropriate Use of Statistics 148**
- Evaluation of the Overall Survey Sample 148**
 - Response Rate 149
 - Validation of the Sample 150
- Ethics and Data Analysis 152**

- Suggested Research Activities* 152
Recommended Reading 153
- CHAPTER 9 Reporting Survey Research Results** 154
- The Research Report Documents and Guides** 155
- Components of the Written Report** 155
- Cover Letter, Title Page, and Contents 156
- Executive Summary 158
- The Report's Introduction 158
- Background 158
- Description of Method 160
- Results 160
- Graphically Displaying Data 163
- Describing Cross-Tabulations in the Written Report 163
- Discussion, Recommendations, and Conclusion Sections 167
- Endnotes, References, and Appendix 167
- Preparing the Final Report** 168
- The Oral Presentation of the Research Results** 169
- Preparing the Oral Presentation 170
- Visuals and Script 170
- Rehearsing the Presentation 171
- Delivering the Presentation 172
- Ethical Issues When Reporting Research Results** 173
- Suggested Research Activities* 173
Recommended Reading 173
- CHAPTER 10 The Post-Research Phase and the Decision Maker** 175
- The Post-Research Phase Begins with the Research Report** 176
- Evaluation and Decision Making** 177
- Evaluating Results and Recommendations 177
- Prioritizing Research Results 178
- Deciding Which Results to Use 178
- Implementing Decisions and Evaluating Their Impact** 179
- Implementation of Decisions Will Vary 179
- Evaluation of the Decision Is Important 179
- Suggested Research Activities* 180
Recommended Reading 181
- PART III**
- Content Analysis, Experiments, Focus Groups, and Other Quantitative and Qualitative Research Methods* 183
- CHAPTER 11 Content Analysis** 185
- Content Analysis Focuses on the Message** 186
- Definition of Content Analysis** 188
- The Decision Maker Identifies a Need for Content Analysis during the Pre-Research Phase** 189
- Computer Content Analysis 190
- Establishing a Budget and Timetable 190
- Initial Steps of the Research Phase** 191
- The Codebook Is Key to Producing Valid Results** 192
- The Content Analysis Codebook Is Similar to the Survey Codebook 192
- Coding Categories Must Have Validity and Reliability 199
- Evaluating Categories Requires Special Attention 199
- Coding Categories Reflect Different Levels of Measurement 200
- Reliable Coding Is Required for Valid Results** 201
- Hiring and Training Content Analysis Coders 201
- Pretesting the Content Analysis Codebook 202
- Calculating Inter-Coder Reliability 202
- Improving Inter-Coder Reliability 203
- The Final Steps of the Content Analysis Research Phase Are Similar to Those of a Survey** 205

- Processing Content Analysis Data 205
- Analyzing Content Analysis Data 206
- Writing the Content Analysis Report 207
- Presenting the Content Analysis Orally 209
- The Role of the Decision Maker During the Content Analysis Post-Research Phase 210**
 - Results Offer Several Options for Decision Making 211
 - Experience and Goals of the Decision Maker Influence How the Results Are Used 212
 - The Impact of the Decisions Should Be Evaluated 213
 - Suggested Research Activities* 213
 - Recommended Reading* 214
- CHAPTER 12 Experiments 215**
 - Experiments Can Determine What Causes What 216
 - Definition of an Experiment 217
 - The Experiment's Pre-Research Phase 217
 - Applying the Research Phase to the Experiment 218
 - Experimental Concepts, Designs, and Symbols 218**
 - Experimental Validity 218
 - Experimental Designs 219
 - Experimental Symbols 220
 - The Control Group 221
 - Threats to Internal Validity 221
 - Threats to External Validity 224
 - The Hypothetical Experiment's Design 226**
 - The Independent Variable 226
 - Experimental Setting 226
 - Experimental Subjects 227
 - The Dependent Variable 228
 - Translating the Design to Experimental Procedures 228**
 - A Practice Run Precedes the Actual Experiment 228
 - Ethical Standards Guide the Experimental Procedures 231
- Processing and Analyzing Experimental Data 232**
 - The t-Test 233
 - Analysis of Variance 234
- The Written Report for an Experiment 235**
 - The Description of the Method Section Is Unique 235
 - The Results Section Emphasizes Differences in Means 235
- Making Decisions during the Post-Research Phase 236**
 - Suggested Research Activities* 238
 - Recommended Reading* 238
- CHAPTER 13 Focus Groups and One-on-One Depth Interviews 239**
 - Definition and Purpose of a Focus Group 240**
 - Pre-Research Activities of a Focus Group 241**
 - The Moderator Is Key to a Successful Focus Group 243**
 - Research Phase of Focus Group 244**
 - The Research Expert Consults with the Decision Maker 244
 - Number of Focus Groups 244
 - Number of Participants 246
 - A Location Must Be Determined before Recruiting Can Begin 247
 - Recruiting Focus Group Participants 247
 - How Many to Recruit 250
 - Discussion Guide, Background Questionnaire, and Visuals 250**
 - Moderator's Outline and Discussion Guide 250
 - Background Questionnaire 257
 - Preparing Visual Stimuli 259
 - When the Moderator Is Other Than the Research Expert 259**
 - Consulting with the Decision Maker on the Focus Group Progress 259**
 - Conducting the Focus Group 260**
 - Starting the Focus Group on Time 260

Establishing the Right Atmosphere for Producing Objective Results	261	Secondary Data Analysis	282
Analyzing Focus Group Data	262	Syndicated Research	283
Writing the Focus Group Research Report	262	Research Designs for Testing Consumer Response and Perceptions	284
Description of the Focus Group Method	263	Copy Testing	284
The Results Section Begins with a Profile of Participants	263	Trial and Concept Research	285
The Results Section Shuns Numbers	264	Perceptual Mapping	286
Discussion, Limitations, and Recommendations in the Report	264	Evaluation Research	287
Oral Presentation for Focus Group Results	265	Unobtrusive Observation	287
Activities during the Post-Research Phase of the Focus Group	266	Physical Traces	288
One-on-One Depth Interviews	267	Archives	288
When One-on-One Interviews Are More Effective Than Focus Groups	267	Observation	289
One-on-One Interviews Require Less Preparation Time	268	Case Studies	289
<i>Suggested Research Activities</i>	271	Ethnography and Other Academic Qualitative Methods	290
<i>Recommended Reading</i>	271	Ethnography	290
CHAPTER 14 More Research Methods	273	Cultural Studies, Reception, and Textual Analysis	291
Overview of Other Quantitative and Qualitative Research Methods	274	Multiple Methods	291
Intercept Surveys	275	<i>Suggested Research Activities</i>	292
Securing Permission to Conduct Intercept	277	<i>Recommended Reading</i>	293
Intercepting Strategy	277	PART IV	
Training the Intercept Interviewer	278	<i>Research Issues, Applications, Ethics, and the Future</i>	295
Processing, Analyzing, and Reporting Intercept Data	278	CHAPTER 15 Researching Racial and Ethnic Minorities	297
High-Tech Surveys	279	Race and Ethnicity Can Influence the Validity of Research Studies	298
Issues That Affect Validity	279	Issues That May Affect Telephone Survey Results	299
Recommendations for High-Tech Surveys	280	Sampling Frame Issues	300
Surveys That Monitor Consumers and Voters	281	Improving the Sampling Frame	301
Tracking Studies	281	Membership Lists	301
Exit Polls	281	Subscription Lists	302
Secondary and Syndicated Research	282	Monitoring the Media	303
		Drawing a Sample from the Compiled List	303
		The Questionnaire	304
		Name for Racial or Ethnic Group	305

- Translating the Questionnaire for Respondents Who Speak Other Languages 307
- Zip Code as a Standard Variable 307
- Interviewing Issues 307**
 - Hiring and Training 308
 - Bilingual Interviewers 308
 - Number of Callbacks 309
 - Monitoring Fieldwork 309
- Analysis of Data 309**
 - Validation of Sample 310
 - Analyzing the Compiled Sampling Frame 311
 - Deciding Whether to Weight the Results 311
 - Handling Small Numbers 312
 - Determining Whether Racial Differences Are Real 312
- Handling Race-Ethnic Group Issues in Focus Groups 312**
 - Recruitment 313
 - The Moderator 313
- One-on-One Depth Interviews 314**
- Intercept Surveys 315**
- Issues That Affect Content**
 - Analysis Studies 316
 - Categories for Coding 316
 - Availability of Minority Publications 317
 - Coders 317
- Which Method Is Best for Gathering Valid Data on Racial and Ethnic Groups? 318**
 - Suggested Research Activities* 319
 - Recommended Reading* 319
- CHAPTER 16 Research in the Academic Environment 321**
 - Research Is a Creative Enterprise 322**
 - The Academic Researcher as Decision Maker 322**
 - Pre-Research Phase 323**
 - Deciding the Focus of the Research 323
 - Counting 323
 - Decision Making 324
 - Strategic Theoretical Analysis 325
 - Origins of Research Ideas 326**
 - Idle Curiosity 327
 - Topics of the Moment 327
 - Applied Research 329
 - Transformation of Research Questions into Programs of Research 330
 - Elaboration and Extension of Existing Theory 332
 - Intertwined Benchmarks 333**
 - Intersection of Benchmarks and Intellectual Tools of the Scientific Method 334**
 - Operational Definitions 334
 - Concepts, Hypotheses, and Theories 334
 - Translating Goals into Research Methods 336**
 - Executing the Research Plan during the Research Phase 337**
 - Activities during the Post-Research Phase 339**
 - Advancing the Program of Research 340**
 - Deductive Reasoning 340
 - Inductive Reasoning 341
 - Suggested Research Activities* 342
 - Recommended Reading* 342
- CHAPTER 17 Research Applications, Ethics, and the Future of Communication Research 343**
 - Research Is Behind Large and Small Decisions 344**
 - Research Applications for Marketing, Promotion, and Advertising 345**
 - Research Applications for Public Relations 349**
 - To Evaluate Impact 349
 - To Enhance Image 350
 - To Generate News 351
 - Research Applications in the News Media 351**
 - Graphics Are Used to Make Poll Stories Interesting 353
 - Sidebars Are Used to Describe Poll's Method 353

Polling Standards Dictate What Information Should Be Disclosed in a Sidebar	354
Whimsical Graphics Can Be Used to Illustrate Social Data	355
Content Analysis Can Generate News Stories	358
Public and Computer-Assisted Journalism Rely on Research Methods	358
Editorial Management Decisions Rely on Research	359
Research Applications When Launching New Programs and Products	359
Launching a New Program	359
Launching a National Newspaper	361
Research Can Tell You When It's Time to Shut Down a Business	362
Summary of Research Applications	363
Conducting Ethical Research	364
Designing the Research Using Ethical Standards	364
Inform and Respect Participants	365
Collect, Process, and Analyze Data Using Ethical Standards	366
Report Results Using Ethical Standards	366
The Future of Research	368
<i>Suggested Research Activities</i>	374
<i>Recommended Reading</i>	375
APPENDIXES	377
Appendix A: Questionnaires	
Appendix A.1: What's Wrong with This Questionnaire?	379
Appendix A.2: Telephone Survey Questionnaire	381
Appendix A.3: Intercept Questionnaire	391
Appendix A.4: One-on-One Depth Interview Cover Letter and Questionnaire	395
Appendix B: Telephone Survey Codebook	399
Appendix C: Survey Printouts	
Appendix C.1: Selected Frequency Tables	415
Appendix C.2: Selected Cross-Tabulation Tables	423
Appendix D: Research Budgets	
Appendix D.1: Telephone Survey Budget	425
Appendix D.2: Mail Survey Budget for Sample of 1,000	426
Appendix D.3: Focus Group Budget	427
<i>Glossary</i>	429
<i>References</i>	435
<i>Index</i>	441
