

CONTENT

CHAPTER 1

7

General introduction

CHAPTER 2

23

Integrated pest and disease management in aquaponics: A metadata-based review

CHAPTER 3

51

Potential use of entomopathogenic and mycoparasitic fungi against powdery mildew in aquaponics

CHAPTER 4

67

Botanical and microbial insecticides application in aquaponics – is there a risk for biofilter bacteria and fish?

CHAPTER 5

57

Use of fungicides and biocontrol in aquaponics; implications for fish and nitrifying bacteria

CHAPTER 6

115

General discussion
