Introduction 5

1 Curves and surfaces – fundamental properties 7

1.1 Definition and properties of curves . . . 7
1.2 Curves joining . . . 17
1.3 Analysis of curves in Rhinoceros . . . 19
1.4 Definition and properties of surfaces . . . 24
1.5 Patching . . . 31
1.6 Analysis of surfaces in Rhinoceros . . . 32

2 Curves modelling 37

2.1 Ferguson cubic curve . . . 38
2.1.1 Properties of Ferguson cubic curve . . . 38
2.1.2 Hermite polynomials derivation . . . 40
2.1.3 Continuity at common point of Ferguson cubic curves . . . 41
2.1.4 Ferguson cubic curve in Rhinoceros . . . 43
2.2 Bézier curve . . . 43
2.2.1 Properties of Bézier curve . . . 47
Bézier and Ferguson cubic curves interrelation . . . 47
2.2.2 Bernstein polynomials derivation . . . 50
2.2.3 De Casteljau algorithm for Bézier curve . . . 51
2.2.4 Continuity at common point of Bézier curves . . . 53
2.2.5 Bézier curve in Rhinoceros . . . 60
2.3 Coons cubic curve . . . 62
2.3.1 Properties of Coons cubic curve . . . 64
Coons, Bézier and Ferguson cubic curves interrelation . . . 65
2.3.2 Coons polynomials derivation . . . 67
2.3.3 Construction of Coons cubic curve endpoints . . . 68
2.3.4 Coons cubic curve in Rhinoceros . . . 68
2.4 Coons cubic B-spline . . . 68
2.4.1 Properties of Coons cubic B-spline . . . 71
2.4.2 Coons cubic B-spline in Rhinoceros . . . 74
2.5 Uniform clamped B-spline curve of third degree . . . 75
2.5.1 Properties of clamped curve . . . 76
2.5.2 Construction of knots of clamped curve . . . 78
2.5.3 Clamped curve in Rhinoceros . . . 80

3 Surfaces modelling **83**
3.1 Vector equation of a surface . . . 83
3.2 Ruled surface . . . 85
3.2.1 Properties of ruled surface . . . 89
3.2.2 Patching – patches from ruled surface . . . 89
3.2.3 Ruled surface in Rhinoceros . . . 90
3.3 Surface of hyperbolic paraboloid . . . 92
3.3.1 Properties of surface of hyperbolic paraboloid . . . 94
3.3.2 Patching – patches from surface of hyperbolic paraboloid . . . 94
3.3.3 Surface of hyperbolic paraboloid in Rhinoceros . . . 94
3.4 Coons bilinear surface . . . 95
3.4.1 Properties of Coons bilinear surface . . . 98
3.4.2 Vector equation of Coons bilinear surface derivation . . . 98
3.4.3 Patching – patches from Coons bilinear surface . . . 99
3.4.4 Coons bilinear surface in Rhinoceros . . . 101
3.5 Bézier surface . . . 102
3.5.1 Bézier surface with control mesh above unit squared grid . . . 103
3.5.2 Properties of Bézier surface . . . 109
Bézier bicubic surface and Coons bilinear surface interrelation . . . 111
3.5.3 Vector equation of Bézier surface derivation . . . 115
Repeated linear interpolation of four points . . . 115
Bézier curve with variable control points . . . 116
3.5.4 De Casteljau algorithm for Bézier surface . . . 116
De Casteljau algorithm based on surface character . . . 117
De Casteljau algorithm based on curve character . . . 118
3.5.5 Patching – patches from Bézier surface . . . 121
3.5.6 Bézier surface in Rhinoceros . . . 124
3.6 Uniform clamped bicubic B-spline surface . . . 129
3.6.1 Properties of clamped curve . . . 129
3.6.2 Clamped surface in Rhinoceros . . . 130
3.7 Clamped surface application . . . 135

A Rhinoceros – list of commands used **137**
