

Contents

Chapter 1: Introduction	1
Chapter 2: Data Representation in Computer Systems	21
Chapter 3: Boolean Algebra and Digital Logic	61
Chapter 3A: Focus on Karnaugh Maps	81
Chapter 4: MARIE: An Introduction to a Simple Computer	91
Chapter 5: A Closer Look at Instruction Set Architectures	111
Chapter 6: Memory	127
Chapter 7: Input/Output and Storage Systems	145
Chapter 8: System Software	165
Chapter 9: Alternative Architectures	181
Chapter 10: Performance Measurement and Analysis	201
Chapter 11: Network Organization and Architecture	225
