<b>SECTION 1: Evaluation of the Pediatric Urologic Patient</b>	
<b>1. History and Physical Examination of the Child</b> <i>Anton Wintner and T. Ernesto Figueroa</i>	3
<b>2. Laboratory Assessment of the Pediatric Urologic Patient</b> <i>Paul F. Austin and Elizabeth B. Roth</i>	28
<b>3. Fetal Urology and Prenatal Diagnosis</b> <i>Joao Luiz Pippi Salle and Rodrigo L. P. Romao</i>	35
<b>4. In-Office Ultrasonography</b> <i>Dennis B. Liu and Max Maizels</i>	54
<b>5. Pediatric Renal Nuclear Medicine</b> <i>Reza Vali and Martin Charron</i>	70
<b>6. Prenatal and Postnatal Urologic Emergencies</b> <i>Fernando Ferrer and Patrick H. McKenna</i>	100
<b>7. Urinary Tract Infections in Children</b> <i>Dana C. Rice, H. Gil Rushton, and Hans G. Pohl</i>	148
<b>8. Fungal, Parasitic, and Other Inflammatory Diseases of the Genitourinary Tract</b> <i>Aviva Weinberg and William A. Kennedy II</i>	212
<b>9. Anesthesia and Pain Management for the Pediatric Urology Patient</b> <i>Abraham Rosenbaum, Debra E. Morrison, Shalini Shah, and Zeev N. Kain</i>	234
<b>10. Office Pediatric Urology</b> <i>Patrick C. Cartwright, Siam Oottamasathien, and Brent W. Snow</i>	248
<b>11. Principles of Minimally Invasive Surgery</b> <i>Walid A. Farhat and Pasquale Casale</i>	261
<b>12. Pediatric Fluid Management</b> <i>William Waldrop and Jake Christensen</i>	271
<b>13. Problems with Transitional Care</b> <i>Dan Wood</i>	279
<b>14. Embryology of the Genitourinary Tract</b> <i>Steven E. Lerman, Irene M. McAleer, Alan L. Kaplan, and George W. Kaplan</i>	285
<b>SECTION 2: The Adrenal</b>	
<b>15. Adrenal or Suprarenal Gland Development</b> <i>Steven E. Lerman, Irene M. McAleer, Alan L. Kaplan, and George W. Kaplan</i>	291
<b>16. Radiological Assessment of the Adrenal</b> <i>Kourosh Afshar, Douglas H. Jamieson, and Andrew E. MacNeily</i>	295
<b>17. Adrenal Tumors and Functional Consequences</b> <i>Melanie I. Morris, Julie Franc-Guimond, and Anne-Marie Houle</i>	303
<b>18. Surgery of the Adrenal in Pediatric Patients</b> <i>Jennifer E. Reifsnyder and Dix P. Poppas</i>	312

<b>SECTION 3: The Kidney</b>	<b>323</b>
<b>19. Basic Science of the Kidney</b>	<b>325</b>
<i>Heidi A. Stephany, John C. Thomas, and John C. Pope IV</i>	
<b>20. Renal Vasculature and Kidney</b>	<b>337</b>
<i>Steven E. Lerman, Irene M. McAleer, Alan L. Kaplan, and George W. Kaplan</i>	
<b>21. Renal Anomalies</b>	<b>348</b>
<i>Gino J. Vricella, Douglas E. Coplen, Paul F. Austin, and Elizabeth B. Roth</i>	
<b>22. Fetal and Neonatal Renal Function</b>	<b>367</b>
<i>Rakesh Rao and Akshaya J. Vachharajani</i>	
<b>23. Cystic Kidney Disease</b>	<b>381</b>
<i>Roshan P. George and Larry A. Greenbaum</i>	
<b>24. Acute Kidney Injury</b>	<b>411</b>
<i>Lawrence Copelovitch</i>	
<b>25. Renal Transplantation</b>	<b>419</b>
<i>Alexander C. Small and Shumyle Alam</i>	
<b>26. Renal Calculus Disease</b>	<b>431</b>
<i>Pramod P. Reddy and Eugene Minevich</i>	
<b>27. Endourology for Stone Disease</b>	<b>442</b>
<i>Janelle A. Fox and Michael C. Ost</i>	
<b>28. Renal Parenchymal Imaging in Children</b>	<b>470</b>
<i>Daniel B. Herz</i>	
<b>29. Assessment of Renal Obstructive Disorders: Ultrasound, Nuclear Medicine, and Magnetic Resonance Imaging</b>	<b>495</b>
<i>James M. Elmore, Wolfgang H. Cerwinka, and Andrew J. Kirsch</i>	
<b>30. Ureteropelvic Junction Obstruction and Multicystic Dysplastic Kidney: Surgical Management</b>	<b>505</b>
<i>Michael C. Carr and Aseem R. Shukla</i>	
<b>31. Laparoscopic and Robotic Nephrectomy and Pyeloplasty</b>	<b>515</b>
<i>Daniel Avery and Thomas Lendvay</i>	
<b>32. Wilms' Tumor</b>	<b>525</b>
<i>Kristen Scarpato, Patrick H. McKenna, and Fernando Ferrer</i>	
<b>33. Surgical Approaches for Pediatric and Adolescent Renal Tumors</b>	<b>548</b>
<i>Victor H. Figueroa and Armando J. Lorenzo</i>	
<b>34. Upper Urinary Tract Trauma</b>	<b>562</b>
<i>Ardavan Akhavan and Paul A. Merguerian</i>	
<b>SECTION 4: The Ureter</b>	<b>573</b>
<b>35. The Ureter</b>	<b>575</b>
<i>Martin Kaefer</i>	
<b>36. Ureteral Development</b>	<b>585</b>
<i>Steven E. Lerman, Irene M. McAleer, Alan L. Kaplan, and George W. Kaplan</i>	
<b>37. The Imaging of Vesicoureteral Reflux and Ureteral Disease</b>	<b>588</b>
<i>David A. Diamond, Jeanne S. Chow, and Frederick D. Grant</i>	
<b>38. Ureteral Anomalies and Their Surgical Management</b>	<b>604</b>
<i>Kathleen Kieran and Christopher S. Cooper</i>	
<b>39. Megaureter</b>	<b>610</b>
<i>David B. Joseph</i>	
<b>40. Ureteral Duplication Anomalies: Ectopic Ureters and Ureterocele</b>	<b>625</b>
<i>Michael A. Keating</i>	

41.	Laparoscopic Management of Duplication Anomalies <i>Aaron D. Martin and Craig A. Peters</i>	678
42.	Vesicoureteral Reflux: Etiology—Anatomical and Functional <i>Nina F. Casanova and John M. Park</i>	685
43.	Nonsurgical Management of Vesicoureteral Reflux <i>Jack S. Elder and Mireya Diaz</i>	693
44.	Surgery for Vesicoureteral Reflux <i>John W. Brock III and Douglass B. Clayton</i>	708
45.	Minimally Invasive Approaches to Correct Primary Vesicoureteral Reflux <i>Molly E. Fuchs, Ahmad Z. Mohammed, Daniel G. Dajusta, and Venkata R. Jayanthi</i>	721
46.	Injection Therapy for Vesicoureteral Reflux <i>Anthony A. Caldamone</i>	729
<b>SECTION 5: The Bladder and Prostate</b>		<b>749</b>
47.	Basic Science of Prostatic Development <i>Ellen Shapiro and Hongying Huang</i>	751
48.	Basic Science of the Urinary Bladder <i>Darius J. Bägli and Karen J. Aitken</i>	761
49.	Embryology of the Anterior Abdominal Wall, Bladder, and Proximal Urethra <i>Steven E. Lerman, Irene M. McAleer, Alan L. Kaplan, and George W. Kaplan</i>	774
50.	Radiologic Assessment of Bladder Disorders <i>Douglas E. Coplen</i>	780
51.	Urodynamics of the Lower Urinary Tract <i>William E. Kaplan and Edward Gong</i>	788
52.	Neurological Control of Storage and Voiding <i>Julian Wan and Kate H. Kraft</i>	803
53.	Neurogenic Voiding Dysfunction and Functional Voiding Disorders: Evaluation and Nonsurgical Management <i>Emilie K. Johnson and Stuart B. Bauer</i>	820
54.	Diurnal and Nocturnal Enuresis <i>Mark Horowitz</i>	853
55.	Constipation and Lower Urinary Tract Symptoms <i>Nicol Corbin Bush, Anjana Shah, Karen Pritzker, Janelle Traylor, and Shabina Walji-Virani</i>	873
56.	Operations for the Weak Bladder Outlet <i>Anthony J. Casale</i>	884
57.	Bladder Augmentation: Current and Future Techniques <i>Bradley P. Kropp, Dominic Frimberger, and Earl Y. Cheng</i>	911
58.	Urinary Diversion <i>Peter D. Metcalfe and Richard C. Rink</i>	949
59.	The Malone Antegrade Continence Enema (MACE) <i>Joseph M. Gleason, P. S. J. Malone, and Martin A. Koyle</i>	980
60.	Minimally Invasive Approaches to Lower Urinary Tract Reconstruction <i>Glenn Cannon, Steven G. Docimo, and Christina Kim</i>	990
61.	Genitourinary Rhabdomyosarcoma and Other Bladder Tumors <i>Paul A. Merguerian, Lisa Cartwright, and Antoine E. Khoury</i>	1000
62.	Exstrophy and Epispadias <i>Linda A. Baker and Richard W. Grady</i>	1029
63.	Unusual Conditions of the Bladder, Including Bladder Trauma, Urachal Anomalies, and Bladder Diverticula <i>Pablo Gomez III and Marc Cendron</i>	1076

<b>64. Posterior Urethral Valves</b> <i>Stephen A. Zderic and Douglas A. Canning</i>	1087
<b>65. Prune Belly Syndrome</b> <i>Andrew W. Stamm, Steven J. Skoog, and R. Guy Hudson</i>	1108
<b>66. Surgical Excision of Urachal Anomalies</b> <i>Heidi A. Stephany, Jathin Bandari, and Steven G. Docimo</i>	1135
<b>SECTION 6: Urethra, External Genitalia, and Retroperitoneum</b>	<b>1139</b>
<b>67. Basic Science of the Genitalia</b> <i>Laurence S. Baskin</i>	1141
<b>68. Basic Science of the Testis</b> <i>Julia Spencer Barthold</i>	1150
<b>69. Gonads, Genital Ducts, and Genitalia</b> <i>Steven E. Lerman, Irene M. McAleer, Alan L. Kaplan, and George W. Kaplan</i>	1166
<b>70. Disorders of Sex Development</b> <i>Joao Luiz Pippi Salle and Rodrigo L. P. Romao</i>	1173
<b>71. Anorectal Malformations and Cloaca</b> <i>Andrea Bischoff, William R. DeFoor, Curtis A. Sheldon, and Alberto Peña</i>	1195
<b>72. Surgery for Intersex Disorders and Urogenital Sinus</b> <i>Mark C. Adams, Romano T. DeMarco, and John C. Thomas</i>	1215
<b>73. Hypospadias</b> <i>Warren T. Snodgrass and Nicol Corbin Bush</i>	1232
<b>74. Pediatric Urethral Trauma and Stricture</b> <i>Nadya M. Cinman, Jack W. McAninch, and Benjamin N. Breyer</i>	1259
<b>75. Abnormalities of the Penis and Scrotum</b> <i>Gregory P. McLennan, Kevin M. Feber, and Evan J. Kass</i>	1268
<b>76. Penile Replacement Surgery</b> <i>Piet Hoebeke and Stan Monstrey</i>	1297
<b>77. Hernia, Hydrocele, Testicular Torsion, and Varicocele</b> <i>Hiep T. Nguyen and Guilherme Rossini</i>	1313
<b>78. Minimally Invasive Management of Inguinal Hernias</b> <i>Nicholas G. Cost and Paul H. Noh</i>	1334
<b>79. Cryptorchidism</b> <i>Thomas F. Kolon and Gregory E. Tasian</i>	1345
<b>80. Surgical Treatment</b> <i>Daniel P. Casella, Steven G. Docimo, and Francis X. Schneck</i>	1359
<b>81. Testicular and Paratesticular Tumors in Children</b> <i>Lynn L. Woo and Jonathan H. Ross</i>	1370
<b>82. Tumors of the Retroperitoneum</b> <i>Gordon A. McLorie and Guy Hidas</i>	1381
<b>SECTION 7: Looking to the Future</b>	<b>1401</b>
<b>83. Tissue Engineering for Pediatric Urology</b> <i>Steve J. Hodges and Anthony Atala</i>	1403
<b>84. Study Designs and Hierarchy of Evidence</b> <i>Luis H. P. Braga, Melissa McGrath, and Armando J. Lorenzo</i>	1414
<b>Study Guide Questions</b>	<b>1423</b>
<b>Index</b>	<b>1431</b>
