

CONTENTS

I GENERAL SECTION

INTRODUCTORY SECTION

Pavel Kolář

REHABILITATION CONCEPT AND DEFINITION	2
<i>Jan Calta, Pavel Kolář</i>	
Current State of Providing Rehabilitation	2
TREATMENT (MEDICAL) REHABILITATION	2
SOCIAL REHABILITATION	5
TOOLS OF SCHOOL-BASED REHABILITATION	5
TOOLS OF VOCATIONAL REHABILITATION	5
PREVENTATIVE ROLE OF REHABILITATION	5
FUNDAMENTAL PRINCIPLES OF REHABILITATION	6
INDIVIDUAL TYPES OF REHABILITATION SETTINGS	7
CLASSIFICATION OF FUNCTIONAL CAPABILITY, DISABILITY AND HEALTH	8

TREATMENT REHABILITATION – DIAGNOSTIC AND THERAPEUTIC APPROACHES

REHABILITATIVE CARE

Pavel Kolář

REPOSITIONING	13
Indications for Repositioning	13
Principles of Repositioning	13
Goals of Repositioning	14
Types of Repositioning	15
<i>Pavel Kolář, Jiří Kříž</i>	
VERTICALIZATION	17
PATIENT MOBILIZATION	17
Mobilization goals	17
Prevention of Heterotopic Ossifications	18
Types of Mobilization	19
Active Movement	20

TREATMENT REHABILITATION FOCUSED ON RESTORATION OF A FUNCTIONAL DEFICIT

Pavel Kolář

Functional Emphasis of Methods in Treatment Rehabilitation	21
<i>Karel Lewit, Pavel Kolář</i>	

Pain and Movement System Dysfunction	21
<i>Karel Lewit, Pavel Kolář</i>	

A. DIAGNOSTIC PROCEDURES

1 ASSESSMENT APPROACHES FOCUSED ON THE FUNCTION OF THE MOVEMENT SYSTEM

Pavel Kolář, Karel Lewit, Olga Dyrhonová

FUNDAMENTALS OF A CLINICAL ASSESSMENT	25
PATIENT PRELIMINARY CASE HISTORY (ANAMNESIS)	25
OBSERVATION (ASPECTION)	28
PALPATION	29
<i>Karel Lewit</i>	
AUSCULTATION	32
<i>Petr Bitnar</i>	

1.1 NEUROMUSCULAR FUNCTIONS AND THEIR CLINICAL EXAMINATION

Pavel Kolář

Muscle in Reflexive Context as Part of the Movement System	34
Motor Patterns	34
Movement Stereotypes	35
CLINICAL MANIFESTATIONS AND EXAMINATION OF NEUROMUSCULAR DYSFUNCTIONS	36

I FUNCTIONAL AND NEUROLOGIC SYMPTOMATOLOGY

1.1.1 Examination of Postural Functions

Pavel Kolář

POSTURE	37
Postural Function – Normal	37
Development of Posture	37
Reflex Model of Posture and Locomotion	39
Circumscription of the Term Posture	39
Postural Stability	40
Postural Stabilization	40
Postural Reactibility	40
Postural Disturbances	42
STANDING	44
Examination of Individual Body Regions	44

Modified Examination of Standing.....	49	Kinesthesia	73
ASSESSMENT OF STANDING IN NEUROLOGIC		Perception of Vibration	73
DISORDERS.....	50	Two-point Discrimination	73
GAIT.....	50	Topognosis, Graphesthesia.....	74
<i>Petra Valouchová, Pavel Kolář</i>		Stereognosis.....	74
Phases of the Gait Cycle.....	50	Clinical Sensory Syndromes	74
Types of gait according to V. Janda	50	1.1.4 Assessment of Reflexes.....	75
Examination of Gait in a Clinical Setting.....	51	<i>Pavel Kolář</i>	
Laboratory Examination of Gait.....	52	MYOTATIC REFLEXES.....	75
Typology of Gait Dysfunctions from		Upper Extremities Myotatic Reflexes	75
a Neurological Perspective.....	52	Myotatic Reflexes of the Lower Extremities.....	75
Examination of Postural Stabilization		EXTEROCEPTIVE REFLEXES.....	76
and Postural Reactibility	54	IDIOMUSCULAR RESPONSE.....	76
<i>Pavel Kolář</i>		PATHOLOGICAL REFLEXES.....	76
1.1.2 Examination of Muscle Tone.....	60	Pathological Reflexes Elicited	
<i>Pavel Kolář</i>		in the Upper Extremity.....	76
Reflex Regulation of Muscle Tone.....	60	Pathological Reflexes Elicited	
Connective Tissue Component		in the Lower Extremity.....	77
of Muscle Tone.....	60	Clonus	78
DEFICITS IN MUSCLE TONE.....	61	Mediopubic Reflex.....	78
Hypertonia and Spasm	61	1.1.5 Examination of Involuntary Movements.....	78
Contracture	61	<i>Pavel Kolář</i>	
Local Hypertonic Changes in Muscle Tissue.....	61	TREMOR.....	79
<i>Zdeněk Čech</i>		SPASMS.....	79
Trigger Points – Clinical Characteristics.....	62	MYOCLONUS.....	79
Histological Findings in the Area of a Trigger Point.....	62	FIBRILLAR AND FASCICULAR TWITCHES.....	79
Localization of Trigger Points.....	62	CHOREIC AND ATHETOID HYPERKINESES	79
Foundation of Trigger Point Formation		Athetosis	79
in Muscle Tissue	62	Chorea.....	79
Trigger Points versus Tender Points.....	63	TICS	80
Local Muscle Twitch	63	1.1.6 Examination of Muscle Strength.....	80
Trigger Points as a Source of a Spontaneous Myofascial		<i>David Směkal, Magdaléna Lepšíková</i>	
Pain.....	63	MUSCLE WEAKNESS	80
Examination of Trigger Points with the Help		MUSCLE STRENGTH.....	80
of Instrumentative Examination Methods	64	Assessment of Muscle Strength	80
Spasticity.....	65	Assessment of Muscle Strength	81
<i>Pavel Kolář</i>			
Rigidity.....	68		
Paratonia.....	68		
Hypotonia.....	68		
MUSCLE TONE DISTURBANCES AND THEIR			
POSTURAL LAYOUT.....	69		
<i>Pavel Kolář</i>			
Upper Crossed Syndrome	69		
Lower Crossed Syndrome	70		
Layer Syndrome.....	70		
Assessment of Shortened Muscles.....	70		
1.1.3 Examination of Sensory Functions.....	70		
<i>Alena Kobesová</i>			
SENSORY TESTING.....	71		
Examination of Individual Sensory Modalities.....	72		
Touch.....	72		
Temperature	72		
Pain.....	72		
Joint Position Sense.....	73		
		II NEUROLOGIC SYNDROMOLOGY	
		1.1.7 Primary Myogenic Lesion	83
		<i>Petr Bitnar, Pavel Kolář</i>	
		Weakness in Myopathies	83
		Pseudohypertrophy and Muscle Contractures	
		in Myopathies	84
		1.1.8 Deficits at the Neuromuscular Junction.....	84
		<i>Petr Bitnar</i>	
		Myasthenia Gravis.....	84
		Lambert-Eaton Myasthenic Syndrome.....	84
		1.1.9 Peripheral Nerve Deficits	84
		<i>Petr Bitnar</i>	
		Examination of Deficits in the Sensory Fibers	
		of the Peripheral Nerve.....	84
		Examination of Deficits in Motor Fibers	
		of a Peripheral Nerve	85

1.1.10 Spinal Cord Syndromology	85	Deficits in Gnostic Functions	95
<i>Jiří Kříž, Veronika Hyšperská</i>		Deficits in Practical Functions.....	96
GRADUAL TRANSVERSE SPINAL CORD LESION.....	85	LIMBIC SYSTEM.....	96
SUDDEN TRANSVERSE SPINAL CORD LESION.....	85	Examination of Motor Functions from the Perspective	
PSEUDOPARETIC SPINAL CORD LESION.....	85	of Cortical Plasticity.....	97
SPASTIC SPINAL CORD LESION.....	85	<i>Pavel Kolář, Magdaléna Lepšíková</i>	
MIXED SPINAL CORD LESION	86	Examination of Selective Movement	98
CONUS MEDULLARIS SYNDROME	86	Examples of Clinical Tests.....	99
CAUDA EQUINA SYNDROME	86		
POSTERIOR CORD SYNDROME.....	86		
BROWN-SEQUARD SYNDROME.....	86		
INTRAMEDULLARY SYNDROME.....	86		
1.1.11 Cerebellar Syndromology	86		
<i>Pavel Kolář</i>			
FLACCIDITY.....	86		
HYPERMETRIA.....	86		
ASYNERGY.....	87		
DIADOCHOKINESIA.....	87		
OTHER CEREBELLAR SIGNS.....	87		
1.1.12 Extrapyramidal Syndrome	87		
<i>Pavel Kolář</i>			
1.1.13 Thalamic Syndrome	87		
<i>Pavel Kolář</i>			
1.1.14 Brain Stem Syndromes	88		
<i>Pavel Kolář</i>			
MEDIAL SYNDROMES.....	88		
LATERAL SYNDROMES.....	88		
1.1.15 Syndromes of Meningeal Irritation, Intracranial Hypotension, Hypertension and Ventricular Syndromes	89		
<i>Pavel Kolář</i>			
SYNDROME OF MENINGEAL IRRITATION.....	89		
INTRACRANIAL HYPOTENSION SYNDROME.....	89		
INCREASED CRANIAL PRESSURE SYNDROME	89		
VENTRICULAR SYNDROMES.....	90		
1.1.16 Cortical Syndromes and their Examination	90		
<i>Pavel Kolář, Rastislav Druga</i>			
FRONTAL LOBE.....	90		
Primary Motor Cortex (M1)	91		
Premotor Cortex.....	91		
Frontal Eye Field.....	92		
Broca's Speech Area.....	92		
Prefrontal Cortex.....	92		
Signs of an Injury to the Frontal Lobes			
of the Motor Cortex.....	93		
Axial phenomena	93		
Paraxial phenomena.....	93		
Other Disturbances with Lesions			
to the Frontal Cortex	93		
Assessment Tests for Frontal Lobes Deficits.....	93		
TEMPORAL LOBE	94		
OCCIPITAL LOBE.....	95		
PARIETAL LOBE.....	95		
Deficits in Phatic Functions.....	95		
		CLINICAL EXAMINATION VIA MOTOR	
		PROGRAMS	100
		<i>Pavel Kolář</i>	
		SCREENING OF NEUROMOTOR	
		DEVELOPMENT.....	101
		Central Coordination Disturbance (CCD).....	101
		Developmental Kinesiology as an Assessment	
		Method – the Examination of an Infant	
		in the First Year of Life	101
		Postural Activity	102
		Postural Activity in Individual Phases of Development	
		(0–15 Months)	103
		Postural Reactivity.....	112
		<i>Pavel Kolář, Marcela Šafářová</i>	
		1. Traction Test.....	113
		2. Landau Reaction.....	113
		3. Axillary Suspension	114
		4. Vojta's Tilt Reaction.....	115
		5. Collis Horizontal Suspension	116
		6. Peiper-Isbert Vertical Suspension	117
		7. Collis Vertical Suspension.....	118
		Primitive Reflexology.....	118
		<i>Pavel Kolář</i>	
		Functional Relationship between Postural Activity,	
		Postural Reactivity and Primitive Reflexology	121
		PSYCHOMOTOR DEVELOPMENT IN EARLY	
		CHILDHOOD	121
		<i>Irena Zouňková, Pavel Kolář</i>	
		CENTRAL COORDINATION DISTURBANCE	
		IN PRESCHOOL AND SCHOOL AGE	125
		<i>Irena Zouňková, Pavel Kolář</i>	
		Monitored Areas in a Neurodevelopmental	
		Examination.....	126
		Physiotherapy in Central Coordination	
		Disturbance.....	130
		1.2 KINESIOLOGY AND CLINICAL	
		EXAMINATION OF THE JOINT SYSTEM	133
		<i>Pavel Kolář</i>	
		Joint Motions.....	133
		Joint Categories Based on the Number of Axes	
		and the Shape of Articular Surfaces.....	134

Classification of Joints according to the Number of Articulating Bones within the Joint.....	135	Anamnesis.....	165
Joint Innervation.....	135	Aspection.....	165
Assessment of Joint Range of Motion.....	135	Palpation.....	165
<i>David Smékal</i>		Passive Movements.....	165
1.2.1 Kinesiology of the Spine, Pelvis and the Thorax.....	137	Active Movements.....	166
<i>Pavel Kolář</i>		Functional Tests.....	166
SPINE.....	137	Instability Tests.....	166
PELVIS.....	140	Lateral Epicondylitis Tests.....	166
THORAX.....	141	1.2.4 Kinesiology of the Wrist and the Hand.....	166
ANATOMICAL PARAMETERS INFLUENCING SPINAL FUNCTION.....	143	<i>Petr Bitnar</i>	
Regional Anatomical Parameters.....	143	WRIST.....	166
Global Anatomical Parameters.....	144	MOVEMENTS OF THE CARPAL COMPLEX.....	167
EXAMINATION OF THE SPINE, PELVIS AND THE THORAX.....	145	CARPOMETACARPAL JOINTS.....	168
Patient History (Anamnesis) and Physical Assessment.....	145	HAND.....	168
Neurological Assessment.....	145	MAIN TYPES OF GRIP.....	169
Assessment of Motor Functions.....	147	ASSESSMENT OF THE WRIST AND THE HAND.....	169
Functional Assessment.....	147	Anamnesis.....	169
1.2.2 Kinesiology of the Shoulder Girdle (Plexus).....	154	Aspection.....	170
<i>Petra Valouchová, Pavel Kolář</i>		Palpation.....	170
BONES OF THE SHOULDER GIRDLE.....	154	Passive Movements.....	170
JOINTS OF THE SHOULDER GIRDLE.....	156	Active Movements.....	170
MOVEMENTS IN THE JOINTS OF THE SHOULDER GIRDLE.....	156	Functional Tests.....	170
SHOULDER GIRDLE EXAMINATION.....	157	1.2.5 Kinesiology of the Hip Joint.....	171
<i>Michaela Tomanová</i>		<i>Magdaléna Lepšíková, Pavel Kolář</i>	
Anamnesis.....	157	HIP JOINT ASSESSMENT.....	173
Aspection.....	158	Anamnesis.....	173
Palpation.....	158	Aspection.....	173
Joint Play.....	158	Palpation.....	174
Passive Movements.....	159	Passive Movements.....	174
Active Movements.....	159	Active Movements.....	174
Adduction and Internal Rotation (Apley's Scratch Test).....	159	PEDIATRIC HIP JOINT ASSESSMENT.....	174
Abduction and External Rotation.....	159	1.2.6 Kinesiology of the Knee Joint.....	174
Special Tests for the Shoulder Girdle.....	159	<i>Pavel Kolář</i>	
Assessment of Movements against Resistance – Resistive Tests.....	159	MOVEMENTS OF THE KNEE JOINT.....	174
Instability Tests.....	160	KNEE JOINT ASSESSMENT.....	176
Anterior Instability Testing.....	160	Anamnesis.....	176
Posterior Instability Testing.....	161	Aspection.....	176
Clunk Test.....	161	Palpation.....	177
Inferior (Caudal) Instability.....	161	Passive Movements.....	177
Multidirectional Instability.....	161	Active Movements.....	177
Tests for Long Head of the Biceps Brachii Tendon Pathology.....	161	Functional Assessment.....	177
Rotator Cuff and Impingement Syndrome Tests.....	162	Examination of the Menisci.....	177
Acromioclavicular Joint Tests.....	163	Assessment of Knee Joint Stability.....	178
1.2.3 Kinesiology of the Elbow Joint.....	163	Patellofemoral Joint Examination.....	180
<i>Petr Bitnar</i>		Patellar Stability Test – Apprehension Test.....	180
ELBOW JOINT MOVEMENTS.....	164	Planer Sign.....	180
ASSESSMENT OF THE ELBOW JOINT.....	165	Zohlen Test.....	180
		Fairbank's Test (Zohler's Sign).....	180
		1.2.7 Kinesiology of the Lower Leg and the Foot.....	180
		<i>Pavel Kolář, Ivan Vařeka</i>	
		ANKLE AND FOOT JOINTS.....	180
		MOVEMENTS IN THE ANKLE AND FOOT JOINTS.....	182
		FUNCTIONAL RELATIONSHIPS BETWEEN THE ANKLE AND THE FOOT JOINTS.....	183

ASSESSMENT OF THE ANKLE AND THE FOOT.....	183
Anamnesis.....	184
Aspection.....	184
Palpation.....	184
Passive Movements.....	184
Active Movements.....	185
Functional Assessment.....	185
Tests for Ankle Instability.....	185

1.3 SOFT TISSUES.....186

Petr Bitnar

1.3.1 Skin.....	187
1.3.2 Subcutaneous Tissues (Hypodermis).....	191
1.3.3 Fasciae.....	191

2 VISCEROMOTOR RELATIONSHIPS AND THE AUTONOMIC NERVOUS SYSTEM

Petr Bitnar, Hana Marčíšová, Pavel Kolář

2.1 VISCEROSOMATIC AND SOMATOVISCERAL RELATIONSHIPS.....195

Petr Bitnar

2.1.1 Viscerosomatic (Visceromotor) Relationships.....	195
Visceral Pattern.....	195
2.1.2 Somatovisceral Relationships.....	196
Movement System and Visceral Pain.....	196
Movement System and Functional Deficits of the Internal Organs.....	197
Movement System as a Trigger Factor for a Latent Internal Illness.....	198
Movement System as a Tool for the Treatment of Internal Illnesses.....	198
2.1.3 Overview of Basic Visceral Patterns.....	198

2.2 EXAMINATION OF THE AUTONOMIC NERVOUS SYSTEM..... 200

Hana Marčíšová

2.2.1 Anatomy and Physiology of the ANS.....	201
2.2.2 Function of the ANS within the Movement Apparatus.....	201
Vasomotricity.....	202
Somatosensory System and the ANS.....	202
ANS and Muscle Function.....	203
2.2.3 Anatomical Vegetative Syndromes.....	204
<i>Pavel Kolář</i>	
CENTRAL AUTONOMIC SYNDROMES.....	204
PERIPHERAL AUTONOMIC SYNDROMES.....	204
Claude-Bernard-Horner Syndrome.....	204
Posterior Cervical Sympathetic Syndrome.....	205
GROSS VEGETATIVE SYNDROMES.....	205
REFLEXIVE VEGETATIVE SYNDROMES.....	205

3 PSYCHOLOGICAL FUNCTIONS AND PAIN

Petr Knotek

3.1 PSYCHOLOGICAL DIAGNOSTICS IN REHABILITATION..... 207

3.2 ASSESSED PROCESSES AND METHODS OF THEIR TESTING 207

Reactivity to Painful Stimuli.....	207
Pain in the Pathological Process.....	208
Beginning Phase of Psychological Pain Processing.....	209
Cognitive Processes.....	209
Affection.....	210
Behavior.....	210
Interpersonal Communication.....	210

4 EXAMINATIONS BY FUNCTIONAL LABORATORY METHODS

Milan Zedka, Pavel Kolář

4.1 LABORATORY EXAMINATION OF MOVEMENT.....213

Milan Zedka

4.1.1 Kinematic Analysis.....	213
<i>Milan Zedka</i>	
4.1.2 Kinetic Analysis (Posturography).....	215
<i>Ondřej Čákr</i>	
Physics Basis of the Examination.....	215
Posturography in a Clinical Setting.....	215
Factors Influencing Postural Stability.....	216
4.1.3 Electromyographic Analysis in Biomechanics.....	216
<i>Milan Zedka, Petra Valouchová</i>	
Examination of Muscle Coordination.....	216
Examination of Force.....	218
Assessment of Muscle Fatigue.....	218

4.2 SUPPLEMENTAL NEUROLOGICAL EXAMINATIONS.....219

Milan Zedka

4.2.1 Electromyography.....	219
4.2.2 Electroencephalography.....	222
4.2.3 Evoked Potentials.....	224
Somatosensory Evoked Potentials.....	224
Visual Evoked Potentials (VEPs).....	225
Auditory Evoked Potentials.....	226
Motor Evoked Potentials (MEPs).....	227

4.3 EXAMINATIONS BY IMAGING METHODS 227

Pavel Kolář, Martin Kynčl

4.3.1 Radiologic Methods.....	227
-------------------------------	-----

X-RAY EXAMINATION.....	227
<i>Pavel Kolář, Olga Dyrhonová</i>	
Shoulder Joint.....	228
Wrist.....	228
Hip Joint.....	228
Knee Joint.....	228
Ankle Joint.....	228
Spine.....	228
COMPUTED TOMOGRAPHY (CT).....	229
<i>Pavel Kolář, Martin Kynčl</i>	
MAGNETIC RESONANCE IMAGING.....	230
<i>Martin Kynčl, Pavel Kolář</i>	
Functional Magnetic Resonance.....	231
TRACTOGRAPHY.....	231
<i>Martin Kynčl, Pavel Kolář</i>	
SCINTIGRAPHIC EXAMINATION.....	231
<i>Pavel Kolář, Martin Kynčl</i>	
POSITRON EMISSION TOMOGRAPHY.....	231
<i>Pavel Kolář, Martin Kynčl</i>	
SINGLE PHOTON EMISSION COMPUTED TOMOGRAPHY.....	231
<i>Pavel Kolář, Martin Kynčl</i>	
NEAR-INFRARED SPECTROSCOPY (NIRS).....	232
<i>Pavel Kolář, Martin Kynčl</i>	
4.3.2 Examination by Ultrasound.....	232
<i>Zdeněk Hříbal</i>	

5 ASSESSMENT OF THE SEVERITY OF MOTOR INVOLVEMENT AND LIMITATIONS IN THE ACTIVITIES OF DAILY LIVING

Pavel Kolář

5.1 METHODS USED FOR MEASUREMENT AND ASSESSMENT IN REHABILITATION.....	235
5.2 ASSESSMENT OF THE EXTENT OF MOTOR INVOLVEMENT.....	236
5.2.1 Gross Motor Skills Assessment by the Gross Motor Function Measure.....	236
5.2.2 Developmental Kinesiology as an Assessment Method of a Motor Deficit.....	237
5.2.3 Additional Tests to Assess Motor Deficits.....	239
5.3 TESTING AND ASSESSMENT OF RESTRICTED ACTIVITIES OF DAILY LIVING.....	239
5.3.1 Functional Independence Measure.....	242
5.3.2 Barthel Index.....	242
5.3.3 Katz Index of Activities of Daily Living.....	244
5.3.4 Activity Index.....	244

5.3.5 Frenchay Activities Index.....	244
5.3.6 Factor Assessment according to Tardieu.....	244
5.3.7 Other Tests.....	245

B. THERAPEUTIC METHODS

1 PHYSICAL THERAPY METHODS AND CONCEPTS

Pavel Kolář

1.1 GENERAL PHYSICAL THERAPY (MUSCULOSKELETAL) APPROACHES.....	248
1.1.1 Passive Movements.....	248
<i>Pavel Kolář</i>	
1.1.2 Active Assistive Exercise.....	248
<i>Magdaléna Lepšíková</i>	
1.1.3 Muscle Strength Exercises.....	248
<i>Zdeněk Čech</i>	
Kinesiologic Notes.....	248
Input-Adaptation Relationship during Strengthening Exercises.....	249
1.1.4 Dynamic Neuromuscular Stabilization.....	252
<i>Pavel Kolář, Marcela Šafářová</i>	
General Principles of Practice Techniques.....	253
Practice of Postural Stabilization of the Spine, Chest and the Pelvis.....	254
Influence on Tightness and Improvement of Chest Wall Dynamics.....	255
Influence on Spinal Straightening.....	256
Training of the Postural Breathing Pattern and the Stabilization Function of the Diaphragm.....	256
Postural Stabilization Training of the Spine Using Reflex Locomotion.....	258
Training of Deep Postural Stabilization of the Spine in Modified Positions.....	259
Exercising Postural Functions in Developmental Lines (Sequences).....	259
Movement Assistance during Exercise.....	262
Facilitative Elements of Training Techniques.....	262
Exercise Examples.....	264
1.1.5 Soft Tissue Mobilization.....	266
<i>Karel Lewit</i>	
Post-Isometric Relaxation.....	266
Examples of Other Techniques.....	268
1.1.6 Dry Needling for Muscle Trigger Points.....	270
<i>Pavel Kolář</i>	
1.1.7 Traction.....	271
<i>Pavel Kolář</i>	
1.1.8 Relaxation Techniques.....	271
<i>Pavel Kolář</i>	

1.1.9 Exercises Aimed at the Restoration of Sensation (Somatesthesia)	271	THERAPEUTIC SYSTEM	288
<i>Pavel Kolář, Magdaléna Lepšíková</i>		Activation of Reflex Locomotion	288
1.2 METHODS AND APPROACHES USED IN REHABILITATION OF PATIENTS WITH CHRONIC RESPIRATORY SYSTEM INVOLVEMENT	271	Reflex Creeping.....	288
<i>Pavel Kolář, Jan Šulc</i>		Activation System Positions 1–6	290
1.2.1 Methods of Pulmonary Physical Therapy.....	272	Reflex Rolling.....	291
<i>Libuše Smolíková</i>		TREATMENT EFFECTS.....	294
1.2.2 Corrective Physical Therapy for the Postural System.....	273	PRINCIPLES AND FUNDAMENTALS OF THERAPY.....	294
<i>Libuše Smolíková</i>		INDICATIONS AND CONTRAINDICATIONS	295
1.2.3 Respiratory Physical Therapy Approaches Utilizing Postural Respiratory Function of the Diaphragm	275	1.3.2 Sensorimotor Stimulation	295
<i>Pavel Kolář</i>		<i>Michaela Veverková, Marie Vávrová</i>	
Role of the Diaphragm during the Physiological Breathing Cycle.....	275	1.3.3 Feldenkrais Method.....	298
Breathing Biomechanics in a Pathological State	278	<i>Magdaléna Lepšíková</i>	
Posturally Locomotor Function of the Diaphragm	279	1.3.4 Proprioceptive Neuromuscular Facilitation	300
Respiratory Physical Therapy Techniques Utilizing Postural Locomotor Functions.....	280	<i>Irena Zouňková, Pavel Kolář</i>	
Positional Influence on the Postural Respiratory Function of the Diaphragm	281	1.3.5 Brunkow's Method	301
<i>Pavel Kolář</i>		<i>Pavel Kolář</i>	
1.2.4 Respiratory Physical Therapy – Methods and Techniques for Respiratory Pathway Hygiene	281	1.3.6 Brügger's Concept.....	302
<i>Libuše Smolíková</i>		<i>Dagmar Pavlů</i>	
Active Cycle of Breathing Techniques	282	1.3.7 Sling Exercise Therapy	304
Autogenic Drainage.....	282	<i>Alice Hamáčková, Dagmar Tomisová, Ctirad Tomis</i>	
PEP System of Breathing	282	1.3.8 Exercise with a Therapy Ball.....	305
Oscillatory PEP System	282	<i>Pavel Kolář</i>	
Respiratory Physical Therapy and Breathing Muscle Training Devices	284		
Intrapulmonary Percussive Ventilation.....	284		
Inhalation Therapy – A Component of Respiratory Physical Therapy.....	284		
Respiratory Physical Therapy for Patients in Intensive Care Units	285		
Control Mechanisms of Respiratory Physical Therapy.....	285		
1.2.5 Breathing Exercises (Breathing Gymnastics)	285		
<i>Libuše Smolíková</i>			
1.2.6 Fitness Physical Therapy and Pulmonary Illnesses.....	287		
<i>Pavel Kolář</i>			
1.3 SELECTED PHYSICAL THERAPY CONCEPTS.....	288		
1.3.1 Vojta's Principle: Reflex Locomotion	288		
<i>Irena Zouňková, Marcela Šafářová</i>			
		2 MODALITIES	
		<i>Bronislav Schreier</i>	
		2.1 CLASSIFICATION OF MODALITIES BASED ON THE TYPE OF APPLIED ENERGY	309
		2.1.1 Mechanotherapy.....	309
		2.1.2 Thermotherapy and Hydrotherapy.....	309
		2.1.3 Electrotherapy	309
		2.1.4 Phototherapy.....	310
		2.1.5 Combined Therapy and Combination of Modalities	310
		2.2 CLASSIFICATION OF MODALITIES BASED ON THEIR PRIMARY EFFECT.....	310
		2.2.1 Modalities with an Analgesic Effect	310
		Modalities with Primary Analgesic Effect.....	310
		Modalities with a Secondary Analgesic Effect.....	311
		2.2.2 Modalities with Dominantly a Myorelaxation Effect.....	312
		Ultrasound Therapy	313
		Combined Ultrasound and Electrotherapy	313
		Electrotherapy.....	313
		2.2.3 Modalities with Anti-Inflammatory and Trophic Effects.....	313
		Vasopneumatic Therapy	313
		Electrotherapy.....	314
		Ultrasound Therapy	314

Phototherapy.....	314	3.2.2 Use of Peloids	321
Galvanotherapy.....	314	3.2.3 Use of Gas.....	322
Contrast Baths.....	314	3.3 SPAS IN THE CZECH REPUBLIC AND INDICATIONS FOR A SPA TREATMENT	322
Cryotherapy	315	4 OCCUPATIONAL THERAPY	
2.2.4 Electrodiagnostic Testing and Electrical Stimulation of Skeletal Muscles	315	<i>Veronika Schönová, Pavel Kolář</i>	
Electrodiagnostic Testing.....	315	4.1 AREAS OF FUNCTION IN OCCUPATIONAL THERAPY	325
Electrical Stimulation (Neuromuscular Electrical Stimulation)	316	4.2 SPECIALIZATIONS	326
Electrical Stimulation (Electrogymnastics)	316	4.3 OCCUPATIONAL THERAPY PROCESS	326
2.3 GENERAL CONTRAINDICATIONS OF MODALITIES.....	316	4.4 AREAS OF OCCUPATIONAL THERAPY INTERVENTIONS.....	326
3 BALNEOLOGY		Motor Skills	326
<i>Jan Kálal, Ivan Vařeka</i>		Sensory Skills	327
3.1 CLASSIFICATION OF MEDICINAL SOURCES	319	Cognitive, Communicative and Subsequent Social Skills.....	327
3.1.1 Waters.....	319	Activities of Daily Living	327
3.1.2 Peloids	320	Assistive Devices.....	327
3.1.3 Gases	320	Pre-Return to Work Rehabilitation.....	327
3.1.4 Climate	321		
3.2 USE OF NATURAL HEALING SOURCES IN BALNEOLOGY	321		
3.2.1 Use of Water	321		

II SPECIAL SECTION

1 TREATMENT REHABILITATION IN NEUROLOGY

Pavel Kolář, Ondřej Horáček

GENERAL SECTION

1.1 NEUROPHYSIOLOGICAL FOUNDATION OF PHYSICAL THERAPY APPROACHES.....

Pavel Kolář

NEUROPLASTICITY

Vladimír Komárek

Evolutionary Plasticity.....

Repair Plasticity

Neuroplasticity and Sensorimotor Programs

SENSORY FUNCTIONS IN NEUROREHABILITATION.....

Pavel Kolář

1.2 OVERVIEW OF PHYSICAL THERAPY METHODS.....

Pavel Kolář

Sensory Training.....

Exercising with Conscious Awareness

as a Component of Sensorimotor Practice

Sensory Stimulation Method Based on Affolter.....

Perfetti's Method.....

Rood's Method.....

Movement Rehabilitation of Patients

with Hemiplegia Based on Brunnström.....

Dagmar Pavlů, Pavel Kolář

Sensory Integration Based on Ayres

Veronika Schönová

Neurodevelopmental Treatment Concept Based

on Bobath

Irena Zouňková

Movement Therapy According to Pető.....

Irena Zouňková, Pavel Kolář

Vojta's Method.....	341	OTHER FORMS OF MUSCULAR DYSTROPHY	357
<i>Pavel Kolář</i>		MYOTONIC DYSTROPHY.....	357
Sensorimotor Stimulation	341	CONGENITAL, METABOLIC, INFLAMMATORY	
<i>Pavel Kolář</i>		AND TOXIC MYOPATHIES.....	358
Proprioceptive Neuromuscular Facilitation	341	ION CHANNEL DYSFUNCTIONS	358
<i>Pavel Kolář</i>		PERIODIC PARALYSES.....	358
1.3 NEUROPSYCHOLOGY	341	Hyperkalemic Periodic Paralysis.....	359
<i>Kateřina Chamoutová, Pavel Kolář</i>		Hypokalemic Periodic Paralysis	359
1.3.1 Neuropsychological Approaches.....	342	Paramyotonia Congenita.....	359
Neurobehavioral Approach.....	342	MYOTONIC SYNDROMES.....	359
American Neuropsychological Approach.....	342	Myotonia Congenita	359
Neuropsychology in the Czech Republic	342	Atypical Myotonic Syndromes.....	359
1.3.2 Neuropsychological Assessment	343	1.8 PERIPHERAL PARALYSIS.....	360
Most Commonly Used Neuropsychological		<i>Ondřej Horáček</i>	
Tests.....	344	1.8.1 Causes, Degrees and Diagnosis	
1.3.3 Utilization of Neuropsychological		of Peripheral Paralyses	360
Approaches in Rehabilitation	345	1.8.2 Rehabilitation of Peripheral Paralyses.....	361
1.4 SPEECH THERAPY.....	346	Physical Therapy.....	361
<i>Pavel Kolář</i>		Occupational Therapy.....	362
DEVELOPMENTAL DYSARTHRIA	346	Modalities	362
APHASIAS.....	347	1.8.3 An Overview of Peripheral Pareses	
DYSARTHRIA.....	348	Based on Location	363
Deficits in Swallowing and Management Options.....	349	PERIPHERAL PARESES OF THE UPPER	
Orofacial Therapy.....	350	EXTREMITIES.....	363
1.5 ORTHOTIC CARE IN NEUROLOGICAL		BRACHIAL PLEXUS PALSY (C5-T1).....	363
DISEASES	350	RADIAL NERVE PALSY (C5-C7).....	364
<i>Petr Krawczyk</i>		MEDIAN NERVE PALSY (C5-T1).....	365
1.5.1 Orthotic Management for Patients		ULNAR NERVE PALSY (C8-T1).....	366
with Cerebral Palsy	350	LONG THORACIC NERVE PALSY (C5-C7).....	366
1.5.2 Orthotic Interventions for Patients		SUPRASCAPULAR NERVE PALSY (C5-C6).....	367
with Charcot-Marie-Tooth Disease	352	AXILLARY NERVE PALSY (C5-C6).....	367
1.5.3 Orthotics for Patients Following		MUSCULOCUTANEOUS NERVE PALSY	
Poliomyelitis.....	353	(C5-C7).....	367
1.5.4 Orthotics for Patients Following CVA.....	353	PERIPHERAL PARESES OF THE LOWER	
1.6 OCCUPATIONAL THERAPY.....	354	EXTREMITIES.....	367
<i>Veronika Schönová</i>		LUMBOSACRAL PLEXUS PARESIS.....	367
SPECIAL SECTION		FEMORAL NERVE PALSY (L2-L4).....	367
1.7 DYSFUNCTIONS IN NEUROMUSCULAR		SCIATIC NERVE PALSY (L4-S3).....	368
TRANSMISSION AND MUSCLE DISEASES	354	PERONEAL NERVE PALSY (L4-S1).....	368
<i>Petr Bitnar, Magdaléna Lepšíková</i>		TIBIAL NERVE PALSY (L4-S3).....	368
1.7.1 Dysfunction in Neuromuscular		FACIAL NERVE PALSY (C.N. VII).....	369
Transmission – Myasthenia Gravis.....	354	1.8.4 Peripheral Pareses in Diseases	
1.7.2 Muscle Diseases	355	Involving Motor Neurons of the Anterior	
MUSCULAR DYSTROPHIES	356	Spinal Horns	369
DUCHENNE AND BECKER MUSCULAR		1.8.5 Rehabilitation Following Peripheral	
DYSTROPHY.....	356	Nerve Surgery	370
FACIOSCAPULOHUMERAL FORM		1.9 ENTRAPMENT SYNDROMES	370
OF DYSTROPHY	356	<i>Petr Bitnar, Ondřej Horáček</i>	
GIRDLE FORMS OF MUSCULAR DYSTROPHY.....	357	1.9.1 Etiology, Pathogenesis, Clinical	
		Manifestations and Diagnosis	370
		1.9.2 Overview of the Most Common	
		Entrapment Syndromes.....	371
		ENTRAPMENT SYNDROMES OF THE UPPER	
		THORACIC APERTURE.....	371

SCALENUS SYNDROME.....	372	1.13 DEFICITS IN CEREBELLAR FUNCTIONS ..	389
COSTOCLAVICULAR AND HYPERABDUCTION SYNDROME.....	372	<i>Alena Kobesová</i>	
ENTRAPMENT SYNDROMES OF THE UPPER EXTREMITY AND THE SHOULDER GIRDLE	372	1.13.1 Functional Anatomy of the Cerebellum	389
SUPRASCAPULAR NERVE.....	372	1.13.2 Basic Clinical Manifestations of a Cerebellar Lesion	390
MEDIAN NERVE.....	372	ATAXIA	390
ULNAR NERVE.....	373	HYPERMETRIA.....	390
RADIAL NERVE.....	373	ADIADOCHOKINESIA.....	391
ENTRAPMENT SYNDROMES OF THE LOWER EXTREMITY AND THE PELVIC GIRDLE.....	373	ASYNERGY	391
FEMORAL NERVE.....	373	FLACCIDITY.....	392
SCIATIC NERVE.....	373	CEREBELLAR TREMOR.....	392
PERONEAL NERVE.....	373	EYE MOVEMENT DISTURBANCES.....	392
TIBIAL NERVE.....	373	PALEOCEREBELLAR AND NEOCEREBELLAR SYNDROME	392
1.9.3 Treatment Rehabilitation	374	PALEOCEREBELLAR SYNDROME.....	392
1.10 POLYNEUROPATHIC SYNDROMES.....	375	NEOCEREBELLAR SYNDROME.....	392
<i>Alena Kobesová</i>		PSEUDOCEREBELLAR SYNDROME.....	392
1.10.1 Hereditary Motor and Sensory Polyneuropathies	375	1.13.3 Rehabilitation in Cerebellar Dysfunctions	393
1.10.2 Diabetic Neuropathy.....	378	1.13.4 Prognosis of Cerebellar Dysfunctions	394
DIABETIC FOOT SYNDROME.....	378	1.14 BALANCE DEFICITS	395
1.10.3 Inflammatory Polyneuropathies.....	379	<i>Ondřej Čakrt, Michal Truc</i>	
GUILLAIN-BARRE SYNDROME.....	379	1.14.1 Balance Control.....	395
CHRONIC INFLAMMATORY DEMYELINATING POLYNEUROPATHY	379	VERTIGO AND ITS MOST COMMON CAUSES.....	395
1.11 POLIOMYELITIS AND POST-POLIOMYELITIC SYNDROME.....	381	1.14.2 Clinical Presentation of a Patient with a Vestibular System Disturbance	396
<i>Ivana Wurstová</i>		EXAMINATION.....	396
1.11.1 Poliomyelitis	381	1.14.3 Theoretical Bases for Rehabilitation	397
1.11.2 Post-Poliomyelitic Syndrome	382	1.14.4 Rehabilitation of Individual Clinical Presentations	397
1.12 SPINAL CORD INJURY	384	UNILATERAL VESTIBULAR LESION	397
<i>Jiří Kríž</i>		BENIGN PAROXYSMAL POSITIONAL VERTIGO	398
1.12.1 Etiology, Neurological Presentation	384	BILATERAL VESTIBULAR DEFICIT.....	399
1.12.2 Systematic Approach to Treatment.....	385	BALANCE DEFICITS ASSOCIATED WITH CHANGES IN THE CERVICAL SPINE	399
1.12.3 Medical Consequences of a Spinal Cord Lesion and Possible Complications	385	CENTRAL BALANCE DEFICITS.....	399
AUTONOMIC DYSREFLEXIA.....	385	VERTEBRAL ARTERY SYNDROME.....	399
ORTHOSTATIC HYPOTENSION.....	385	PSYCHOGENIC VERTIGO	399
DEEP VEIN THROMBOSIS (THROMBOEMBOLISM).....	386	1.14.5 Biological Feedback in Rehabilitation of Patients with Balance Deficits	400
URINARY DYSFUNCTION.....	386	<i>Ondřej Čakrt, Rudolf Černý, Jaroslav Jeřábek</i>	
BOWEL DYSFUNCTION.....	386	Brain port	400
SEXUAL DYSFUNCTION.....	386	1.15 EXTRAPYRAMIDAL DEFICITS.....	401
INTEGUMENTARY DYSFUNCTIONS.....	386	<i>Alena Kobesová</i>	
SEPTIC CONDITIONS.....	386	1.15.1 Basic Characteristics, Classification.....	401
PAINFUL CONDITIONS.....	386	HYPOKINETIC DEFICITS.....	401
SPASTICITY.....	386	HYPERKINETIC DEFICITS.....	401
PARA-ARTICULAR OSSIFICATION	387	1.15.2 Parkinson's Disease.....	401
OSTEOPOROSIS.....	387	OBJECTIVE NEUROLOGICAL FINDINGS.....	402
1.12.4 Rehabilitation for Patients with Spinal Cord Injury	387	HYPOKINESIA, BRADYKINESIA, AKINESIA	402
		RIGIDITY	402

TREMOR.....	402	1.21 CEREBRAL PALSY.....	428
POSTURAL DEFICITS.....	402	<i>Pavel Kolář</i>	
1.16 NEURODEGENERATIVE DISEASES.....	407	1.21.1 Screening for Risk of CP.....	429
<i>Barbora Danielová, Alena Zumrová</i>		1.21.2 Types of Cerebral Palsy and their	
1.16.1 Basic Characteristics		Clinical Presentation	429
of Neurodegenerative Illnesses	407	SPASTIC DIPLEGIA	429
<i>Ondřej Horáček</i>		SPASTIC HEMIPLEGIA.....	430
1.16.2 Amyotrophic Lateral Sclerosis.....	407	CEREBELLAR FORM.....	431
<i>Barbora Danielová</i>		DYSKINETIC FORM OF CEREBRAL PALSY	432
1.16.3 Friedreich's Ataxia.....	411	MIXED TETRAPLEGIA	433
<i>Alena Zumrová</i>		ATONIC DIPLEGIA	433
1.16.4 Autosomal Dominant		1.21.3 Rehabilitation in Cerebral Palsy	433
Spinocerebellar Ataxia.....	412	DESIRED OUTCOME AND COPING PROCESS.....	433
<i>Alena Zumrová</i>		DESIRED OUTCOME.....	433
1.17 MULTIPLE SCLEROSIS.....	412	COPING PROCESS	434

Assessment Prior to Exercise Program Initiation	652
Exercise Programs.....	652
Reconditioning Stays.....	653

4 TREATMENT REHABILITATION IN ONCOLOGY

Vítězslav Hradil

REHABILITATION SPECIFICS FOR PATIENTS WITH ONCOLOGIC CONDITIONS.....	657
BASIC GOALS AND ASSESSMENT OF REHABILITATION TREATMENT.....	657
REHABILITATION TREATMENT COMPLICATIONS.....	658

GENERAL SECTION

4.1 PAIN PATTERNS IN PATIENTS WITH ONCOLOGICAL DISEASES	658
4.1.1 Pain Pattern and Its Treatment.....	658
4.1.2 Classification of Oncologic Pain	658
4.2 PARAMETERS FOR THE INTERRUPTION OR MODIFICATION OF A REHABILITATION PROGRAM	659
4.2.1 Laboratory Values	659
4.2.2 Long Bone Metastases	659
4.2.3 Other Parameters Modifying Rehabilitation Treatment.....	660
4.3 REHABILITATION APPROACHES	660
4.3.1 Modalities.....	660
4.3.2 Physical Therapy Techniques	661
4.3.3 Contraindications.....	661
4.4 SPECIFIC FACTORS INFLUENCING REHABILITATION TREATMENT	662

SPECIAL SECTION

4.5 METASTATIC INVOLVEMENT	662
4.5.1 Metastatic Involvement of the Skeleton	662

ONCOLOGICAL DISEASES OF THE SPINE	663
ONCOLOGICAL DISEASES AND SURGICAL APPROACHES FOR THE EXTREMITIES	664
4.5.2 Metastatic Involvement of the Brain and the Spinal Cord	666
4.6 PARANEOPLASTIC SYNDROMES	666
4.7 SIDE EFFECTS OF ONCOLOGIC TREATMENT	667
NEUROLOGICAL SYMPTOMS	667
4.7.1 Cerebellar Syndrome.....	667
4.7.2 Peripheral Polyneuropathy	667
4.7.3 Hormone Therapy.....	669
4.7.4 Immunotherapy.....	669
4.8 SOFT TISSUES AND MUSCLE TISSUE	669
4.9 RADIATION THERAPY	669
4.10 LYMPHEDEMA	671

5 TREATMENT REHABILITATION IN GYNECOLOGY AND OBSTETRICS

Martina Ježková, Pavel Kolář

5.1 OVERVIEW OF GYNECOLOGICAL SYNDROMES WITH CONTRIBUTION OF FUNCTIONAL DEFICITS	673
<i>Martina Ježková, Pavel Kolář</i>	
DYSFUNCTIONS OF THE MENSTRUAL CYCLE AND FUNCTIONAL STERILITY.....	674
AMENORRHEA.....	674
DYSMENORRHEA	674
STERILITY	675
5.2 PREMENSTRUAL SYNDROME AND MENOPAUSE	678
PREMENSTRUAL SYNDROME	678
MENOPAUSE.....	678
MENOPAUSE, PREMENOPAUSE, POSTMENOPAUSE.....	678
MENOPAUSAL SYNDROME.....	679
SYNDROMES THAT CAN BE AFFECTED BY REHABILITATION.....	679
5.3 PELVIC INFLAMMATORY DISEASE	679
5.4 ANATOMICAL DEFICITS IN GYNECOLOGY	680
5.5 GYNECOLOGICAL SURGICAL PROCEDURES	680
Post-Operative Complications (Post-Surgical Incisions)..	683

5.6 URINARY INCONTINENCE..... 683*Martina Hoskovicová***5.7 PREGNANCY, BIRTH AND THE POSTPARTUM (POSTNATAL) PERIOD 686***Martina Ježková, Pavel Kolář*

PREGNANCY.....	686
BIRTH.....	686
POSTPARTUM.....	687

6 TREATMENT REHABILITATION IN PAIN MANAGEMENT*Jiří Kozák, Pavel Kolář***6.1 CLASSIFICATION OF PAIN 691**

Acute Pain.....	691
Chronic pain.....	691

6.2 FOUNDATIONS OF NEUROPHYSIOLOGIC PAIN 691**6.3 PAIN MANAGEMENT..... 692****6.4 COMPLEX REGIONAL PAIN SYNDROME (CRPS) 695****7 TREATMENT REHABILITATION IN PSYCHOSOMATIC DISEASES***Petr Knotek, Pavel Kolář***7.1 MODERN PSYCHOSOMATICS 701**

7.1.1 Psychosomatics and Current Science.....	702
7.1.2 Psychosomatics and Irrationality.....	702
7.1.3 Biological, Psychological and Social Approach.....	703
Psychosomatic Integrity.....	704
Normality.....	705
Psychobiology and Sociocultural Norms.....	705
Cognitive Processes and Adaptation.....	705
Failure as a Pathological Adaptation.....	706
7.1.4 Placebo and Nocebo.....	706
7.1.5 Charisma.....	708
7.1.6 Physical Manifestations as Signs and Symptoms.....	708
7.1.7 Deficits and Signs.....	710
Acute Psychological Reaction to Stress.....	710
Neurotic Disturbances.....	710
Psychosomatic Disturbance.....	710
Psychosomatic Diseases of Organs and Organ Systems.....	710
Systemic Diseases.....	711
Somatopsychological Disturbance.....	711

7.2 TREATMENT 711

7.2.1 Biological, Psychological and Social Context: Non-Specific Rehabilitation Factors.....	711
7.2.2 Treatment Rehabilitation.....	713
<i>Barbora Danielová, Petr Knotek, Pavel Kolář</i>	
7.2.3 Psychotherapy.....	714
7.2.4 Psychopharmacotherapy.....	714

8 REHABILITATION IN PSYCHIATRY**8.1 REHABILITATION IN THE AREAS OF SOCIAL AND VOCATIONAL FUNCTIONS 717***Ondřej Pěč, Lenka Vachková, Jan Mužik*

8.1.1 General Aspects of Psychiatric Rehabilitation.....	718
Current Schools of Psychiatric Rehabilitation.....	718
Target Group of Psychiatric Rehabilitation.....	718
Principles of Psychiatric Rehabilitation.....	718
Recovery.....	719
8.1.2 Process of Psychiatric Rehabilitation and Possible Approaches.....	720
Process of Psychiatric Rehabilitation According to the Boston School.....	720
Process of Psychosocial Rehabilitation According to the Netherlands' School STORM.....	721
8.1.3 Specific Levels of Psychiatric Rehabilitation.....	721
Vocational rehabilitation.....	721
Assisted Education.....	723
Rehabilitation and Housing.....	723
Rehabilitation in the Areas of Social Interaction and Leisure Time.....	724
8.1.4 Psychiatric Rehabilitation Assessment.....	725

8.2 PSYCHOMOTOR THERAPY 725*Běla Hátlová, Milena Adámková*

8.2.1 General Aspects of Psychomotor Therapy.....	726
Research in Kinesiotherapy.....	726
Physical Self-Concept.....	726
Role of Movement Activity in Stress Coping.....	726
Somatic State and Movement Abilities of Patients with Mental Illness.....	726
Why Movement Therapy?.....	727
8.2.2 Kinesiotherapy.....	727
Circumscription of the term Kinesiotherapy.....	727
Actions of Kinesiotherapy.....	727
Types of Kinesiotherapy in the Treatment of Psychiatric Patients.....	728
Integrated and Focused Kinesiotherapy.....	728
Kinesiotherapeutic Activation Programs.....	728
Kinesiotherapeutic Active Relaxation Programs.....	728
Perceptive (Attention) Focused Kinesiotherapy.....	728

Kinesiotherapeutic Programs Increasing Self-Confidence and Confidence in Others.....	729	Kinesiotherapy for the Treatment of Neuroses.....	730
