

Contents

<i>Preface</i>	<i>ix</i>
1. Introduction	1
What Is Philosophy of Mind?	2
Metaphysical Preliminaries	5
Mind-Body Supervenience	8
Materialism and Physicalism	11
Varieties of Mental Phenomena	14
Is There a “Mark of the Mental”?	17
For Further Reading	28
Notes	28
2. Mind as Immaterial Substance: Descartes’s Dualism	31
Descartes’s Interactionist Substance Dualism	32
Why Minds and Bodies Are Distinct: Some Arguments	35
Princess Elisabeth Against Descartes	46
The “Pairing Problem”: Another Causal Argument	50
Immaterial Minds in Space?	54
Substance Dualism and Property Dualism	56
For Further Reading	58
Notes	58

3. Mind and Behavior: Behaviorism	61
The Cartesian Theater and the "Beetle in the Box"	63
What Is Behavior?	66
Logical Behaviorism: A Positivist Argument	68
A Behavioral Translation of "Paul Has a Toothache"	70
Difficulties with Behavioral Definitions	71
Do Pains Entail Pain Behavior?	76
Ontological Behaviorism	78
The Real Relationship Between Pain and Pain Behavior	80
Behaviorism in Psychology	82
Why Behavior Matters to Mind	86
For Further Reading	87
Notes	88
4. Mind as the Brain:	
The Psychoneural Identity Theory	91
Mind-Brain Correlations	91
Making Sense of Mind-Brain Correlations	93
The Argument from Simplicity	98
Explanatory Arguments for Psychoneural Identity	102
An Argument from Mental Causation	110
Against Psychoneural Identity Theory	114
Reductive and Nonreductive Physicalism	122
For Further Reading	125
Notes	126
5. Mind as a Computing Machine:	
Machine Functionalism	129
Multiple Realizability and the Functional Conception of Mind	130
Functional Properties and Their Realizers: Definitions	134
Functionalism and Behaviorism	136
Turing Machines	139
Physical Realizers of Turing Machines	144

Machine Functionalism: Motivations and Claims	147
Machine Functionalism: Further Issues	151
Can Machines Think? The Turing Test	156
Computationalism and the "Chinese Room"	160
For Further Reading	165
Notes	165
6. Mind as a Causal System:	
Causal-Theoretical Functionalism	169
The Ramsey-Lewis Method	170
Choosing an Underlying Psychology	172
Functionalism as Physicalism: Psychological Reality	177
Objections and Difficulties	179
Roles Versus Realizers: The Status of Cognitive Science	186
For Further Reading	189
Notes	190
7. Mental Causation	193
Agency and Mental Causation	195
Mental Causation, Mental Realism, and Epiphenomenalism	197
Psychophysical Laws and "Anomalous Monism"	202
Is Anomalous Monism a Form of Epiphenomenalism?	207
Counterfactuals to the Rescue?	209
Physical Causal Closure and the "Exclusion Argument"	214
The "Supervenience Argument" and Epiphenomenalism	217
Further Issues: The Extrinsicness of Mental States	220
For Further Reading	223
Notes	224
8. Mental Content	227
Interpretation Theory	228
The Causal-Correlational Approach: Informational Semantics	235
Misrepresentation and the Teleological Approach	239

Narrow Content and Wide Content: Content Externalism	241
The Metaphysics of Wide Content States	248
Is Narrow Content Possible?	251
Two Problems for Content Externalism	254
For Further Reading	258
Notes	259
9. What Is Consciousness?	263
Some Views on Consciousness	264
Nagel and His Inscrutable Bats	267
Phenomenal Consciousness and Access Consciousness	271
Consciousness and Subjectivity	280
Does Consciousness Involve Higher-Order Perception or Thought?	283
Transparency of Experience and Qualia Representationalism	289
For Further Reading	295
Notes	296
10. Consciousness and the Mind-Body Problem	301
The “Explanatory Gap” and the “Hard Problem”	302
Does Consciousness Supervene on Physical Properties?	306
Closing the Explanatory Gap: Reduction and Reductive Explanation	311
Functional Analysis and Reductive Explanation	315
Consciousness and Brain Science	317
What Mary, the Super Vision Scientist, Didn’t Know	323
The Limits of Physicalism	326
For Further Reading	333
Notes	334
<i>References</i>	339
<i>Index</i>	355
