

Table of contents

1. Introduction	3
2. Overview of existing research and practical experience	4
3. Overview of selected methods for lampenflora removal	6
3.1. Mechanical methods	6
3.2. Methods using ultraviolet radiation	6
3.3. Chemical methods	6
4. Recommended procedures and preventive measures to remove and control the growth of undesirable flora	7
5. Removing lampenflora with sodium hypochlorite	8
6. Removing lampenflora, organic sedimentation and mold layers using hydrogen peroxide	11
7. Cave care in the future	13
8. Conclusion	14
9. Literature	15
