

Contents

<i>Dedication</i>	iii
<i>Preface</i>	v
Part I: Preparation, Classification and Physico-chemical Properties	
1. Nanobiomaterials: An Overview <i>Thandapani Gomathi, P.N. Sudha and Sabu Thomas</i>	3
2. Principles and Applications of Nanobiotechnology <i>Se-Kwon Kim and R. Nithya</i>	19
3. Nanobiomaterials: A Scientometric Review of the Research <i>Ozcan KONUR</i>	28
4. Electrospinning—Material, Techniques and Biomedical Applications <i>Sekar Vijaykumar, K. Vijayalakshmi, V. Sangeetha and E. Radha</i>	44
5. Toxicity Towards Nanostructured Biomaterials in Human Health <i>M.I. Niyas Ahamed and V. Ragul</i>	58
6. Fabrication of Micro and Nano Devices for Tissue Engineering Applications <i>Thandapani Gomathi, R. Sasirekha, J. John Joseph and Govindasamy Rajakumar</i>	71
7. Characterization of Nanostructures <i>A. Dinesh Karthik, K. Geetha and D. Shakila</i>	90
Part II: Biological and Biomedical Applications	
8. Bioabsorbable Engineered Nanomaterials for Antimicrobial Chemotherapy <i>Guhapriya U., Vidhya A. and Muthu Thiruvengadam</i>	103
9. Hybrid Polymeric Nanobiomaterials for Applications in Drug Delivery Systems and Tissue Engineering <i>Sajjad Husain Mir</i>	125
10. Therapeutic Applications of Nanomaterials <i>Sreejan Manna and Sougata Jana</i>	145
11. Chitosan Based Nanobioceramics in Bone Tissue Engineering Application <i>J. Venkatesan, S. Revathi, R. Sasirekha, T. Gomathi, P.N. Sudha and P. Pazhanisamy</i>	161
12. Nanobiomaterials in Cancer Therapeutics <i>Noel Vinay Thomas, Nithya R. and Nirubama K.</i>	182

13. Nanoporous Silicon Materials for Bioapplications by Electrochemical Approach	188
<i>Kelvii Wei GUO</i>	
14. Bionanotechnology in Robust Biosolar Cells	197
<i>Ashwini Ravi, J. Hemapriya, P.N. Sudha, S. Sugashini, S. Pavithra and S. Vijayanand</i>	
15. Nanobiomaterials in Tissue Engineering Applications	215
<i>Jeeva Subbiah, G. Gowri, K. Sangeetha, P.N. Sudha and Srinivasan Latha</i>	
16. Nanobiomaterials in the Fight against Mosquito Borne Diseases	222
<i>Vijayalakshmi Ghosh, D. Sunita and A.K. Gupta</i>	
17. Nanobiotechnology and Chemotherapy	243
<i>Utharkar S. Mahadeva Rao, Ashwini Ravi, S. Vijayanand, P.N. Sudha, T. Gomathi, S. Pavithra, S. Sugashini and J. Hemapriya</i>	

Part III: Environmental Applications

18. Industrial Wastewater Sources and Treatment Strategies by using Bionanomaterials	255
<i>K. Vijayalakshmi, J. Annie Kamala Florence and Prabhakarn Arunachalam</i>	
19. Applications of Metallic Nanomaterials for the Desalination of Water: Perspectives and Limitations	267
<i>Anjum Rabab, Heena Tabassum and Iffat Zareen Ahmad</i>	
20. Nanobiomaterials in Bioremediation	283
<i>Ashwini Ravi, J. Hemapriya, P.N. Sudha, S. Revathi, R. Sasirekha and S. Vijayanand</i>	
21. Bio-Nanotechnology in Agriculture: New Opportunities and Future Prospects	314
<i>W.L. Isuru Wijesekara, S. Gokila, T. Gomathi, Supriya Prasad, M. Deepa and P.N. Sudha</i>	
Index	323
