

# Contents

## **PART I OVERVIEW 1**

1. Active Care: Its Place in the Management of Spinal Disorders—Craig Liebenson 3
2. The Role of Muscles, Joints, and the Nervous System in Painful Conditions of the Spine—Craig Liebenson 30
3. Quality Assurance: The Scope of the Spine Problem and Modern Attempts to Manage It—Craig Liebenson 51
4. Putting the Biopsychosocial Model Into Practice—Craig Liebenson 72

## **PART II BASIC SCIENCE 91**

5. Lumbar Spine Stability: Mechanism of Injury and Restabilization—Stuart M. McGill 93
6. The Sources of Back Pain—Nikolai Bogduk and Charles Aprill 112

## **PART III ASSESSMENT 123**

7. Diagnostic Triage in Patients with Spinal Pain—Neil Craton 125
8. Outcome Assessment—Steven Yeomans, Craig Liebenson, Jennifer Bolton, and Howard Vernon 146

### **Appendix 8A Forms 169**

9. Assessment of Psychosocial Risk Factors of Chronicity—"Yellow Flags"—Craig Liebenson and Steven Yeomans 183

### **Appendix 9A Yellow Flag Form 201**

10. Evaluation of Muscular Imbalance—Vladimír Janda, Clare Frank, and Craig Liebenson 203
11. Quantification of Physical Performance Ability—Craig Liebenson and Steven Yeomans 226
12. Physical Performance Tests: An Expanded Model of Assessment and Outcome—Maureen J. Simmonds and Ellen Lee 260
13. Employment Screening and Functional Capacity Evaluation to Determine Safe Return to Work—Leonard Matheson and Vert Mooney 276

## **PART IV ACUTE CARE MANAGEMENT (FIRST 4 WEEKS) 293**

14. Active Self-Care: Functional Reactivation for Spine Pain Patients—Craig Liebenson 295
  15. McKenzie Spinal Rehabilitation Methods—Gary Jacob, Robin McKenzie, and Steve Heffner 330
  16. Brügger Methods for Postural Correction—Dagmar Pavlu, Sibyle Petak-Krueger, and Vladimír Janda 352
  17. Rehabilitation of Breathing Pattern Disorders—Maria Perri 369
  18. Soft Tissue Manipulation—Karel Lewit and Alena Kobesová 388
- ### **Appendix 18A Exteroceptive Therapy—Helena Hermach 403**
19. Manual Resistance Techniques—Craig Liebenson, Pamela Tunnell, Donald R. Murphy, and Natalie Gluck-Bergman 407
- ### **Appendix 19A The Role of Active Release Technique in Rehabilitation—Clayton Skaggs and Charles Poliquin 460**
20. Neuromobilization Techniques—Evaluation and Treatment of Adverse Neurodynamic Tension—Michael C. Geraci, Jr., Martin Lambert, and Mark R. Bookhout 464
  21. Manipulation Techniques for Key Joints—George DeFranca 487

## **PART V RECOVERY CARE MANAGEMENT (AFTER 4 WEEKS) 511**

22. Sensory Motor Stimulation—Vladimír Janda, Marie Vávrová, Alena Herbenová, and Michaela Veverková 513
23. Facilitation of Agonist-Antagonist Co-activation by Reflex Stimulation Methods—Pavel Kolář 531
24. Yoga-Based Training for Spinal Stability—Jirí Čumpelík and František Vele 566
25. Spinal Segmental Stabilization Training—Paul W. Hodges and Gwendolen A. Jull 585

- 26. Functional Stability Training—**  
Craig Liebenson 612
- Appendix 26A Proprioceptive Taping—An  
Adjunct to Treating Muscle Imbalances—**  
Clare Frank, Wendy Burke,  
and Cindy Bailey 663
- 27. Global Muscle Stabilization Training—  
Isotonic Protocols—**Neil Osborne and  
Jonathan Cook 667
- 28. Weight Training for Back Stability—**  
Chris Norris 688
- 29. Advanced Stabilization Training for  
Performance Enhancement—**  
Micheal Clark 712
- 30. Nutritional Considerations for Inflammation  
and Pain—**David R. Seaman 728
- 31. A Cognitive Behavioral Therapy Program for  
Spinal Pain—**Steven J. Linton 741

**PART VI PRACTICAL APPLICATION BY REGION 751**

- 32. An Integrated Approach to Regional  
Disorders—**Craig Liebenson 753
- 33. Managing Common Syndromes and Finding  
the Key Link—**Karel Lewit 776

- 34. Integrated Approach to the Lumbar Spine—**  
Craig Liebenson, Scott Fonda,  
and Sylvia Deily 798
- 35. Integrated Approach to the Cervical Spine—**  
Craig Liebenson, Clayton Skaggs, Scott Fonda,  
and Sylvia Deily 852

**PART VII IMPLEMENTING THE FUNCTIONAL  
PARADIGM 887**

- 36. The Patient and the Doctor—**  
William H. Kirkaldy-Willis 889
- 37. The Role and Safety of Activity in the  
Elderly—**Craig Liebenson 898
- Appendix 37A Physical Activity Readiness  
Questionnaire 914**
- 38. Role of Non-Operative Spinal Specialist in  
Managing the Spine Patient—**Joel Press, John  
J. Triano, Craig Liebenson,  
and Robert Watkins 915
- 39. From Guidelines to Practice: What is the  
Practitioner's Role?—**Alan Breen 933

**INDEX 947**
