All compositions by Nikol Bóková

Immense thanks to Radek Baborák, David Dorůžka, Jaromír Honzák, and Michał Wierzgoń: for saying yes when I asked them to play with me, for being such amazing people, for playing so wonderfully, and for completing my music so magically it expanded my perception of the Universe.

Thanks to Petr Ostrouchov for all the support and for releasing my new music even it was only a few months after the release of my second album.

Nikol Bóková — piano / Radek Baborák — French horn
David Dorůžka — electric guitar / Jaromír Honzák — acoustic bass
Michał Wierzgoń — drums

Thanks to Milan Cimfe for an extraordinary sound, quick and precise work, and for the good vibes he is spreading around. Thanks to Adam Karlík and Pavel Karlík for a great mastering and thanks to all the people from Sono Records for making the days in the studio so smooth.

Thanks to Vojta Drnek for the help with the scores and for completing them with the chord symbols for the jazzy part of the band.

Huge thanks to Jan Vala. For being with me and for living through all the moments I've been experiencing during the time of composing this music.

The biggest thanks here belong to my father. All this music was created with him in my heart, mind, and soul. Thanks for being such a wonderful dad, a good friend, thanks for all the love given to me and to my sister Michaela, who is one of the two peculiar girls. We love you very much and we always will.
