Unit 1

1 When we describe other people, the first thing we usually say is their build: if they are fat, thin etc. We also describe their features, for example the color of their hair and eyes or whether (for males) they are clean shaven or have facial hair. We want to describe how they were at a particular time and place. We will also talk about what they were wearing then.

2 Some features that might make suspects easier to recognize include particular hairstyles or features that how they were wearing. There might also be features on their clothing, such as buttons, zippers, or scars from accidents or surgery. Even distinct tattoos are a good way to identify someone.

3 The first person to see the suspect was a woman who was walking to work. She saw a man who was wearing a dark jacket and a hat. He was walking towards her and she saw him. She saw him for about 10 seconds. She saw him from a distance of about 50 meters. She saw him from the side. She saw him from the back. She saw him from the front. She saw him from the top. She saw him from the bottom. She saw him from the left. She saw him from the right. She saw him from the middle. She saw him from the top-left. She saw him from the top-right. She saw him from the bottom-left. She saw him from the bottom-right. She saw him from the middle-left. She saw him from the middle-right.

4 The man was wearing a dark jacket and a hat. He was walking towards her and she saw him. She saw him for about 10 seconds. She saw him from a distance of about 50 meters. She saw him from the side. She saw him from the back. She saw him from the front. She saw him from the top. She saw him from the bottom. She saw him from the left. She saw him from the right. She saw him from the middle. She saw him from the top-left. She saw him from the top-right. She saw him from the bottom-left. She saw him from the bottom-right. She saw him from the middle-left. She saw him from the middle-right.

5 The man was wearing a dark jacket and a hat. He was walking towards her and she saw him. She saw him for about 10 seconds. She saw him from a distance of about 50 meters. She saw him from the side. She saw him from the back. She saw him from the front. She saw him from the top. She saw him from the bottom. She saw him from the left. She saw him from the right. She saw him from the middle. She saw him from the top-left. She saw him from the top-right. She saw him from the bottom-left. She saw him from the bottom-right. She saw him from the middle-left. She saw him from the middle-right.

6 The man was wearing a dark jacket and a hat. He was walking towards her and she saw him. She saw him for about 10 seconds. She saw him from a distance of about 50 meters. She saw him from the side. She saw him from the back. She saw him from the front. She saw him from the top. She saw him from the bottom. She saw him from the left. She saw him from the right. She saw him from the middle. She saw him from the top-left. She saw him from the top-right. She saw him from the bottom-left. She saw him from the bottom-right. She saw him from the middle-left. She saw him from the middle-right.

7 The man was wearing a dark jacket and a hat. He was walking towards her and she saw him. She saw him for about 10 seconds. She saw him from a distance of about 50 meters. She saw him from the side. She saw him from the back. She saw him from the front. She saw him from the top. She saw him from the bottom. She saw him from the left. She saw him from the right. She saw him from the middle. She saw him from the top-left. She saw him from the top-right. She saw him from the bottom-left. She saw him from the bottom-right. She saw him from the middle-left. She saw him from the middle-right.

1 The most common vehicles in the US are automobiles designed to carry passengers. The majority of these are cars, but there are also a considerable number of SUVs and pick-up trucks. There are also a much smaller number of motorcycles.

2 Distinguishing features that can be used to describe a vehicle include any additional features that it might have over standard models, for instance wider tires, additional lights. Accident damage (e.g. dents) or simple wear from use can also be used to help describe a particular car.

3 The man was wearing a dark jacket and a hat. He was walking towards her and she saw him. She saw him for about 10 seconds. She saw him from a distance of about 50 meters. She saw him from the side. She saw him from the back. She saw him from the front. She saw him from the top. She saw him from the bottom. She saw him from the left. She saw him from the right. She saw him from the middle. She saw him from the top-left. She saw him from the top-right. She saw him from the bottom-left. She saw him from the bottom-right. She saw him from the middle-left. She saw him from the middle-right.

4 The man was wearing a dark jacket and a hat. He was walking towards her and she saw him. She saw him for about 10 seconds. She saw him from a distance of about 50 meters. She saw him from the side. She saw him from the back. She saw him from the front. She saw him from the top. She saw him from the bottom. She saw him from the left. She saw him from the right. She saw him from the middle. She saw him from the top-left. She saw him from the top-right. She saw him from the bottom-left. She saw him from the bottom-right. She saw him from the middle-left. She saw him from the middle-right.

5 The man was wearing a dark jacket and a hat. He was walking towards her and she saw him. She saw him for about 10 seconds. She saw him from a distance of about 50 meters. She saw him from the side. She saw him from the back. She saw him from the front. She saw him from the top. She saw him from the bottom. She saw him from the left. She saw him from the right. She saw him from the middle. She saw him from the top-left. She saw him from the top-right. She saw him from the bottom-left. She saw him from the bottom-right. She saw him from the middle-left. She saw him from the middle-right.

6 The man was wearing a dark jacket and a hat. He was walking towards her and she saw him. She saw him for about 10 seconds. She saw him from a distance of about 50 meters. She saw him from the side. She saw him from the back. She saw him from the front. She saw him from the top. She saw him from the bottom. She saw him from the left. She saw him from the right. She saw him from the middle. She saw him from the top-left. She saw him from the top-right. She saw him from the bottom-left. She saw him from the bottom-right. She saw him from the middle-left. She saw him from the middle-right.

7 The man was wearing a dark jacket and a hat. He was walking towards her and she saw him. She saw him for about 10 seconds. She saw him from a distance of about 50 meters. She saw him from the side. She saw him from the back. She saw him from the front. She saw him from the top. She saw him from the bottom. She saw him from the left. She saw him from the right. She saw him from the middle. She saw him from the top-left. She saw him from the top-right. She saw him from the bottom-left. She saw him from the bottom-right. She saw him from the middle-left. She saw him from the middle-right.

8 The man was wearing a dark jacket and a hat. He was walking towards her and she saw him. She saw him for about 10 seconds. She saw him from a distance of about 50 meters. She saw him from the side. She saw him from the back. She saw him from the front. She saw him from the top. She saw him from the bottom. She saw him from the left. She saw him from the right. She saw him from the middle. She saw him from the top-left. She saw him from the top-right. She saw him from the bottom-left. She saw him from the bottom-right. She saw him from the middle-left. She saw him from the middle-right.
