

# CONTENTS

List of Figures.....	xi
List of Tables.....	xxxii
Preface.....	xxxiii
Introduction .....	xxxv
Chapter 1 .....	1
Interrelationship between Concept, Design, Materials and Processes	
1.1 Introduction	
1.2 The Changing Nature of Sculpture	
1.3 Uses of Sculpture	
1.4 The Role of the Sculptor	
1.5 Design of Sculpture: Form	
1.6 Design of Sculpture: Geometrical Aspects	
1.7 Design of Sculpture: Materials and Processing Aspects	
1.8 Appreciation and Appraisal of Modern Sculpture	
1.9 Discussion and Reflection on the Kiss	
Chapter 2 .....	22
Historical Overview: Dawn of History to Neoclassicism	
2.1 Introduction	
2.2 Prehistoric Sculpture	
2.3 Ancient Egypt	
2.4 Ancient Near and Far East	
2.5 Ancient Greece and Rome	
2.6 India	
2.7 China and Japan	
2.8 Africa	
2.9 The Americas	
2.10 Islam	
2.11 Early Christian, Byzantine and Gothic	
2.12 Renaissance	
2.13 Baroque and Rococo	
2.14 Neoclassicism	

Chapter 3 .....	68
Historical Overview: Nineteenth to Twenty First Centuries	
3.1 Introduction	
3.2 Nineteenth Century	
3.3 First Half of the Twentieth Century: The Advent of Modernism	
3.4 Cubism	
3.5 Dadaism	
3.6 Futurism	
3.7 Constructivism	
3.8 Surrealism	
3.9 Abstraction	
3.10 Post Second World War 1945–70	
3.11 Pop-Art Sculpture	
3.12 Minimalist Sculpture	
3.13 Hyperrealism	
3.14 Land Art: Environmental Sculpture	
3.15 Late Twentieth and Early Twenty-First Centuries	
Chapter 4 .....	104
Overview of Material Properties and Process Capabilities for Sculpture	
4.1 Introduction	
4.2 The Work of the Sculptor	
4.3 Strength, Stiffness, Hardness and Toughness of Materials	
4.4 General Characteristics of Metals and Their Processes	
4.5 General Characteristics of Traditional Carving Materials: Stone and Wood and Their Processes	
4.6 General Characteristics of Traditional Modelling and Casting Nonmetallic Materials: Clay, Plaster, Synthetic Stone, Ceramics and Glass and Their Processes	
4.7 General Characteristics of Plastics and Composites	
4.8 Finishing Processes	
4.9 Economics of Materials and Processes	
4.10 Recommended Combinations of Materials and Processes	
4.11 Discussion and Reflection on the Sculpture of a Horse	
Chapter 5 .....	133
Traditional Carving Materials: Hard Stone, Marble, Sandstone, Limestone, Wood	
5.1 Introduction	
5.2 Granite and Basalt	
5.3 Marble	

5.4 Sandstone	
5.5 Limestone	
5.6 Alabaster	
5.7 Stone Carving Techniques	
5.8 Wood	
5.9 Occupational Health and Safety in Carving	
5.10 Economics of Stone and Wood Sculpture	
5.11 Discussion and Reflection on Basalt and Wooden Sculptures	
Chapter 6 .....	150
Traditional Modelling and Casting Materials: Plaster, Clay, Ceramic, Glass and Concrete	
6.1 Introduction	
6.2 Modelling and Casting Processes and Tools	
6.3 Plaster	
6.4 Clay and Ceramics	
6.5 Glass	
6.6 Cement and Concrete	
6.7 Economics of Modelled and Cast Concrete Sculpture	
6.8 Discussion and Reflection on a Concrete Sculpture	
Chapter 7 .....	168
Steel Sculpture	
7.1 Introduction	
7.2 Grades of Steel	
7.3 Shapes, Sizes and Finishing of Steel Products	
7.4 Processing of Steel Sculpture	
7.5 Economics of Steel Sculpture	
7.6 Discussion and Reflection on a Stainless Steel Sculpture	
Chapter 8 .....	183
Nonferrous Metals and Alloys	
8.1 Introduction	
8.2 Copper, Brass and Bronze	
8.3 Aluminum and Magnesium and Their Alloys	
8.4 Zinc, Lead and Tin and Their Alloys	
8.5 Gold, Silver and Platinum	
8.6 Economics of Nonferrous Sculpture	
8.7 Discussion and Reflection on Sculptures of Reclining Figures	

Chapter 9 .....	197
Plastics and Composite Materials	
9.1 Introduction	
9.2 Characteristics of Plastics	
9.3 Characteristics of Composite Materials	
9.4 Processing of Plastics and Composite Materials	
9.5 Artworks in Plastics and Composites	
9.6 Economics of Making Sculpture from Plastics and Composites	
9.7 Discussion and Reflection on FRPC and Bronze Sculptures	
Chapter 10 .....	218
Constructions, Installations, Combines and Assemblages	
10.1 Introduction	
10.2 Public Sculpture	
10.3 Constructions and Assemblages	
10.4 Combines	
10.5 Installations	
10.6 Light Art	
10.7 Environmental Art	
10.8 Discussion and Reflection on an Installation	
Chapter 11 .....	238
New Materials and Processes	
11.1 Introduction	
11.2 Shape Memory Materials	
11.3 Smart Materials	
11.4 Eco-Friendly Materials	
11.5 Ice Sculpture	
11.6 Sand sculpture	
11.7 Translucent Concrete	
11.8 Metamaterials	
11.9 CAD/CAM Systems	
11.10 Additive Manufacturing	
11.11 Virtual Reality in Sculpture	
Bibliography and Further Reading .....	254
Glossary .....	260
