

	Introduction	7
A	ICT Infrastructure	9
	Fixed telephone voice subscriptions.....	10
	Mobile telephone voice subscriptions.....	12
	Telephone traffic in fixed and mobile network	14
	Fixed broadband household and business subscriptions	18
	Fixed broadband subscriptions by speed tiers	22
	Mobile broadband subscriptions.....	24
B	Households	27
	Mobile phones and s Smart TV	28
	Computers used in households.....	29
	Access to the internet; uing a WiFi router.....	30
	Internet of Things	32
C	Persons	33
	Mobile phone users.....	35
	Internet users	36
	Using a mobile phone to access the internet.....	38
	Using social networks	40
	Reading online news sites.....	42
	Internet banking	44
	Purchasing on the internet	46
	Online communication.....	48
	Listening to music, watching videos, playing games online ..	50
	Using paid entertainment services	52
	Performing selected security activities on the internet.....	54
	Expressing opinions on civic or political issues online	56
D	Enterprises	57
	Internet access.....	59
	The maximum contracted download speed of fixed internet.	60
	Employees with internet access at work.....	62
	Remote access and meetings via the internet.....	64

	Enterprises' websites and their functionalities	66
	Web sales	70
	Social media	72
	Paid cloud computing services	74
	Performing data analytics	76
	Artificial Intelligence technologies	78
	Enterprises by level of digitalisation	80
	3D printing and robotics in Manufacturing Industry	82
E	eGovernment	83
	Czech POINT services	84
	Data Boxes	86
	Electronic tax returns	88
	Citizen Portal and electronic identification	89
	Citizens using internet for government-related activities	90
F	ICT in Education and Digital Skills	93
	Schools with wireless network and school portal	95
	Computers available to students and teachers in schools	96
	Time spent daily on digital devices by 15-year-olds	98
	Students and the internet	100
	Online learning activities	102
	Selected digital skills of persons	104
	Level of digital skills of persons	108
G	eHealth	111
	ICT used by physicians	112
	Online health services offered by physicians	113
	eHealth information systems	114
	Using the internet for seeking health-related information	115
	Making an appointment with the physician online	118
	Purchasing medicine online	119
