### Part III Approaches for Making Changes and Innovations

- 7 Designing for Epistemic Development** ..... 121  
Richard Lehrer, Panchompoo Wisittanawat, and Leona Schauble
- 8 Designing with Mathematics in Fifth-Grade STEM Education** ..... 149  
Lyn D. English
- 9 Using an Alternative Conceptualization of STEM to Design an Engineering and Mathematics Instructional Sequence** ..... 169  
Premkumar Pugalenti and Michelle Stephan
- 10 Learning by Solving Environmental Problems: Primary Students' Experiences of E-STEM Activities** ..... 197  
Qianwen He, Zhi Hong Wan, Yiu Fai Tsang, and Winnie Wing Mui So
- 11 Connecting Mathematics and Science in an Elementary STEM Curriculum** ..... 221  
Soobin Jeon and Jon R. Star
- 12 Broadening STEAM Education Through Cross-Curricular Collaboration: The Case of Argumentation in Science and Religious Education** ..... 241  
Sibel Erduran, Liam Guilfoyle, and Wonyong Park
- 13 Creating New STEM Opportunities in Schools: Teachers as Curriculum Designers** ..... 265  
Judy Anderson and Deborah Tully
- 14 Teacher Factors Contributing to an Innovative Hong Kong School-Based Experience of STEM Curriculum Design via Teacher Agency Perspectives** ..... 295  
Ida Ah Chee Mok, Mudan Chen, Cheuk Pun Ho, and Chi To Lui
- 15 Mathematics as a Central Focus in STEM – Theoretical and Practical Insights from a Special Study Program Within Pre-service (Prospective) Teacher Education** ..... 317  
Hans-Stefan Siller, Stephan Michael Günster, and Vince Geiger
- Correction to: Learning by Solving Environmental Problems: Primary Students' Experiences of E-STEM Activities** ..... C1  
Qianwen He, Zhi Hong Wan, Yiu Fai Tsang, and Winnie Wing Mui So
- Index** ..... 345
