Preface	xxvii
Acknowledgments	xxx
Part I Basic Economics Tools	1
1 Introduction	3
What Is Health Economics?	4
The Relevance of Health Economics	6
<i>The Size and Scope of the Health Economy</i>	6
<i>Health Care Spending in Other Countries</i>	7
<i>Importance of the Health Economy in Personal Spending</i>	7
<i>Importance of Labor and Capital in the Health Economy</i>	8
<i>Time: The Ultimate Resource</i>	9
<i>The Importance Attached to Economic Problems of</i>	
<i>Health Care Delivery</i>	10
<i>Inflation</i>	11
<i>Access</i>	11
<i>Quality</i>	12
<i>The Economic Side to Other Health Issues</i>	12
Economic Methods and Examples of Analysis	12
<i>Features of Economic Analysis</i>	13
<i>Scarcity of Resources</i>	13
<i>Rational Decision Making</i>	13
<i>Marginal Analysis</i>	13
<i>Use of Models</i>	13
Two Notable Contributors to Health Economics	14
Does Economics Apply to Health and Health Care?	14
<i>An Example: Does Price Matter?</i>	15
Is Health Care Different?	16
<i>Disparities, Equity, and Need</i>	16
<i>Presence and Extent of Uncertainty</i>	16
<i>Prominence of Insurance</i>	17
<i>Problems of Information</i>	18

Contents

<i>Restrictions on Competition</i>	18
<i>Government Subsidies and Public Provision</i>	19
Conclusions	19
Summary	20
Discussion Questions	21
Exercises	21
2 Microeconomic Tools for Health Economics	25
Scarcity and the Production Possibilities Frontier	26
Practice with Supply and Demand	29
<i>The Demand Curve and Demand Shifters</i>	29
<i>The Supply Curve and Supply Shifters</i>	30
<i>Equilibrium</i>	30
<i>Comparative Statics</i>	31
Functions and Curves	32
<i>Linear Functions</i>	32
<i>Demand Functions</i>	33
<i>Derived Demand</i>	34
Consumer Theory: Ideas behind the Demand Curve	34
<i>Utility</i>	34
<i>Indifference Curves</i>	36
<i>Budget Constraints</i>	37
<i>Consumer Equilibrium</i>	38
Individual and Market Demands	38
Elasticities	39
Production and Market Supply	41
<i>The Production Function</i>	42
<i>Special Production Functions</i>	43
<i>Isocost Curves</i>	45
<i>Cost Minimization or Output Maximization</i>	46
<i>Marginal and Average Cost Curves</i>	47
The Firm Supply Curve under Perfect Competition	47
<i>Monopoly and Other Market Structures</i>	50
Externalities	53
Conclusions	54
Summary	55
Discussion Questions	56
Exercises	56
3 Statistical Tools for Health Economics	58
Hypothesis Testing	59
Difference of Means	60
<i>The Variance of a Distribution</i>	61
<i>Standard Error of the Mean</i>	62
<i>Hypotheses and Inferences</i>	63
Regression Analysis	64
<i>Ordinary Least Squares (OLS) Regressions</i>	65

<i>A Simple Regression</i>	66
<i>Estimating Elasticities</i>	67
<i>Dummy (Binary) Variables</i>	67
Multiple Regression Analysis	68
<i>Interpreting Regression Coefficients</i>	69
<i>Difference-in-Differences Estimation</i>	71
Statistical Inference in the Sciences and Social Sciences	73
Conclusions	74
Summary	74
Discussion Questions	75
Exercises	75
Part II Population Health	79
4 Production of Health	81
The Production Function of Health	82
The Historical Role of Medicine and Health Care	84
<i>The Rising Population and the Role of Medicine</i>	84
<i>What Caused the Mortality Rate Declines? Was It Medicine?</i>	86
<i>What Lessons Can We Learn from Medical History?</i>	90
The Production Function of Health in the Modern Day	91
<i>Preliminary Issues</i>	91
<i>The Contribution of Health Care to Population Health:</i>	
<i>The Modern Era</i>	91
<i>Is Health Care Worth It?</i>	93
<i>On the Effect of Social Health Insurance</i>	94
<i>The World's Pharmacies</i>	96
Do Other Measures of Health Care Affect Health?	96
<i>On the Importance of Lifestyle and Environment</i>	96
<i>Cigarettes, Exercise, and a Good Night's Sleep</i>	97
<i>The Family as Producer of Health</i>	98
<i>Social Capital and Health</i>	99
<i>Environmental Impact on Health</i>	99
<i>Income and Health</i>	101
The Role of Schooling	101
<i>Two Theories about the Role of Schooling</i>	102
<i>Empirical Studies on the Role of Schooling in Health</i>	102
Conclusions	102
Summary	103
Discussion Questions	103
Exercises	104
5 Demand for Health Capital	106
The Demand for Health	107
<i>The Consumer as Health Producer</i>	107
<i>Time Spent Producing Health</i>	108

Contents

Labor–Leisure Trade-Offs	109
<i>Trading Leisure for Wages</i>	109
<i>Preferences between Leisure and Income</i>	110
The Investment/Consumption Aspects of Health	111
<i>Production of Healthy Days</i>	111
<i>Production of Health and Home Goods</i>	112
Investment over Time	113
<i>The Cost of Capital</i>	113
The Demand for Health Capital	114
<i>Marginal Efficiency of Investment and Rate of Return</i>	114
<i>The Decreasing MEI</i>	115
Changes in Equilibrium: Age, Wage, and Education	115
<i>Age</i>	115
<i>Wage Rate</i>	117
<i>Education</i>	117
Empirical Analyses Using Grossman’s Model	118
Obesity: The Deterioration of Health Capital	120
<i>Economic Costs of Obesity</i>	121
<i>Why Has Obesity Increased?</i>	124
Conclusions	125
Summary	125
Discussion Questions	126
Exercises	126
6 Economic Efficiency and Cost–Benefit Analysis	128
Economic Efficiency	129
Background to Evaluation Analyses	131
Measuring Benefits and Costs	131
<i>Risk Equity versus Equality of Marginal Costs Per Life Saved</i>	133
<i>Marginal Analysis in CBA</i>	135
<i>Discounting</i>	137
<i>Risk Adjustment and CBA</i>	139
<i>Distributional Adjustments</i>	140
<i>Inflation</i>	140
Valuing Human Life	140
<i>Willingness to Pay and Willingness to Accept</i>	140
<i>Contingent Valuation</i>	141
<i>How Valuable Is the Last Year of Life?</i>	141
<i>Cost–Benefit Analyses of Heart Care Treatment</i>	142
Cost-Effectiveness Analysis	143
<i>Advantages of CEA</i>	143
Cost–Utility Analysis, QALYs, and DALYs	144
QALYs Revisited: Praise and Criticism	146
<i>Extra-Welfarism</i>	146
<i>What People Think</i>	147
<i>The Ageism Critique</i>	147
<i>Use of QALYs in Evaluation</i>	147

Conclusions	148
Summary	149
Discussion Questions	149
Exercises	150
Appendix: Discounting	152
7 Disparities in Health and Health Care	154
Disparity in the United States	155
<i>Disparities in Health and Health Outcomes</i>	155
Definitions and Economic Theory	158
<i>Direct and Indirect Effects</i>	158
<i>Grossman Model and Disparity</i>	162
<i>Empirical Evidence of Disparity</i>	163
Measuring Disparities	167
<i>Measuring Bias</i>	167
<i>Measuring Mistrust and John Henryism</i>	168
<i>Measuring Disparity in Quantity and Quality of Care</i>	169
<i>Measuring Disparity in Health</i>	170
<i>Disparities in Health Care Access and Delivery in Other Countries</i>	171
Differences Which Are Not Disparities	171
Addressing Disparities	173
<i>Equality in Health and Health Care</i>	174
<i>Equity</i>	175
Conclusions	180
Summary	180
Discussion Questions	181
Exercises	181
8 The Health Economics of Bads	183
An Introduction to Bads	184
Models of Addiction	187
<i>Imperfectly Rational Addiction Models</i>	187
<i>Myopic Addiction Models</i>	187
<i>Rational Addiction</i>	187
Rationales for Public Intervention	190
Advertising Restrictions on Cigarettes and Alcohol	190
<i>The Possible Effects of Brand Switching</i>	192
<i>Increased Demand or Brand Switching?</i>	193
<i>Advertising and Alcohol Consumption</i>	193
<i>Advertising and Opioid Consumption</i>	194
Taxes and Consumption of Cigarettes and Alcohol	194
<i>The Consumption-Reducing Effects of Taxes in Theory</i>	194
<i>Taxes and Cigarette Consumption in Practice</i>	195
<i>Taxes and Alcohol Consumption</i>	196
Regulation of Production and Consumption of Alcohol and Drugs	197
<i>Regulation of Smoking</i>	197

Contents

<i>Regulation of Consumption of Alcohol</i>	198
<i>Regulation of Drugs and Opioids</i>	198
Conclusions	201
Summary	201
Discussion Questions	202
Exercises	202
9 Pandemic Economics	204
Pandemic Economics	204
Determinants of Pandemics	205
Epidemics versus Pandemics	206
Epidemic as an Economic Externality	207
Vaccine Externalities	209
Two Models of Epidemics: Tax or War?	210
Policies to Fight Pandemics	215
Pandemic Direct and Indirect Costs	216
Equity, Race, and Ethnicity Issues	216
Case Study: COVID-19	217
<i>How It Started</i>	217
<i>Direct Costs of Treating the Disease</i>	220
<i>Costs Related to Mortality and Morbidity</i>	220
<i>Education</i>	222
<i>Caring for the Elderly</i>	224
<i>Equity and Race</i>	225
<i>Was the Cure Worse than the Disease?</i>	226
Conclusions	228
Summary	228
Discussion Questions	229
Exercises	229
Part III Supply and Demand	231
10 The Production, Cost, and Technology of Health Care	233
Production and the Possibilities for Substitution	234
<i>Substitution</i>	234
<i>What Degree of Substitution Is Possible?</i>	235
<i>Elasticity of Substitution</i>	236
<i>Estimates for Hospital Care</i>	238
Costs in Theory and Practice	238
<i>Deriving the Cost Function</i>	238
<i>Cost Minimization</i>	239
<i>Economies of Scale and Scope</i>	240
<i>Why Would Economies of Scale and Scope Be Important?</i>	241
<i>Empirical Cost-Function Studies</i>	242
<i>Difficulties Faced By All Hospital Cost Studies</i>	243
<i>Modern Results</i>	244

Technical and Allocative Inefficiency	244
<i>Technical Inefficiency</i>	244
<i>Allocative Inefficiency</i>	245
<i>Frontier Analysis</i>	246
<i>The Uses of Hospital Efficiency Studies</i>	248
<i>Efficiency and Hospital Quality</i>	248
Technological Changes and Costs	249
<i>Technological Change: Cost Increasing or Decreasing?</i>	250
<i>Health Care Price Increases When Technological Change Occurs</i>	251
Diffusion of New Health Care Technologies	253
Other Factors That May Affect Adoption Rates	254
Conclusions	255
Summary	255
Discussion Questions	256
Exercises	256
11 Consumer Choice and Demand	258
Applying the Standard Budget Constraint Model	259
<i>The Consumer's Equilibrium</i>	261
<i>Demand Shifters</i>	262
<i>Health Status and Demand</i>	264
Two Additional Demand Shifters: Time and Coinsurance	265
<i>The Role of Time</i>	265
<i>The Role of Coinsurance</i>	267
Issues in Measuring Health Care Demand	269
<i>Individual and Market Demand Functions</i>	269
<i>Measurement and Definitions</i>	270
<i>Differences in the Study Populations</i>	270
<i>Data Sources</i>	270
<i>Experimental and Nonexperimental Data</i>	271
Empirical Measurements of Demand Elasticities	272
<i>Price Elasticities</i>	272
<i>Individual Income Elasticities</i>	272
<i>Income Elasticities over Time and across Countries</i>	273
<i>Insurance Elasticities</i>	274
<i>Demand Elasticities and Aggregate Expenditures</i>	276
Other Variables Affecting Demand	276
<i>Ethnicity and Gender</i>	276
<i>Urban versus Rural</i>	277
<i>Education</i>	277
<i>Age, Health Status, and Uncertainty</i>	278
Behavioral Economics and Health Care Demand	278
<i>Framing Bias</i>	279
<i>Present Bias</i>	280
<i>Inertia Bias</i>	280
Modeling Consumer Choice with Behavioral Hazard	280
Conclusions	281

Contents

Summary	283
Discussion Questions	284
Exercises	285
Part IV Information and Insurance Markets	287
12 Asymmetric Information and Agency	289
Overview of Information Issues	290
Asymmetric Information	290
<i>On the Extent of Information Problems in the Health Sector</i>	<i>291</i>
<i>Asymmetric Information in the Used-Car Market: The Lemons Principle</i>	<i>293</i>
Application of the Lemons Principle: Health Insurance	295
<i>Inefficiencies of Adverse Selection</i>	<i>296</i>
<i>The Affordable Care Act and Adverse Selection</i>	<i>296</i>
<i>Experience Rating and Adverse Selection</i>	<i>297</i>
The Agency Relationship	298
<i>Agency and Health Care</i>	<i>298</i>
Consumer Information, Prices, and Quality	300
<i>Consumer Information and Prices</i>	<i>300</i>
<i>Consumer Information and Quality</i>	<i>302</i>
<i>Other Quality Indicators</i>	<i>303</i>
Conclusions	305
Summary	306
Discussion Questions	307
Exercises	308
13 Demand and Supply of Health Insurance	309
What Is Insurance?	310
<i>Insurance versus Social Insurance</i>	<i>310</i>
<i>Insurance Terminology</i>	<i>311</i>
Risk and Insurance	311
<i>Expected Value</i>	<i>312</i>
<i>Marginal Utility of Wealth and Risk Aversion</i>	<i>312</i>
<i>Purchasing Insurance</i>	<i>315</i>
The Demand for Insurance	316
<i>How Much Insurance?</i>	<i>316</i>
<i>Changes in Premiums</i>	<i>318</i>
<i>Changes in Expected Loss</i>	<i>319</i>
<i>Changes in Wealth</i>	<i>319</i>
The Supply of Insurance	320
<i>Competition and Normal Profits</i>	<i>320</i>
<i>The Optimal Level of Coverage</i>	<i>321</i>
The Case of Moral Hazard	322
<i>Demand for Care and Moral Hazard</i>	<i>323</i>
<i>Effects of Coinsurance and Deductibles</i>	<i>325</i>

Health Insurance and the Efficient Allocation of Resources	325
<i>The Impact of Coinsurance</i>	326
<i>The Demand for Insurance and the Price of Care</i>	329
Income Transfer Effects of Insurance	330
The Welfare Loss of Excess Health Insurance	333
Conclusions	335
Summary	335
Discussion Questions	336
Exercises	336
14 The Organization of Health Insurance Markets	339
Loading Costs and the Behavior of Insurance Firms	340
<i>Impacts of Loading Costs</i>	340
<i>Insurance for Heart Attacks and Hangnails</i>	341
<i>Loading Costs and the Uninsured</i>	341
Employer Provision of Health Insurance: Who Pays?	343
<i>How the Tax System Influences Health Insurance Demand</i>	346
<i>Who Pays the Compensating Differentials? Empirical Tests</i>	347
<i>Other Impacts of Employer Provision of Health Insurance</i>	348
Employer-Based Health Insurance and Labor Supply	350
<i>Health Insurance and Retirement</i>	350
<i>Health Insurance and Mobility</i>	350
The Market for Insurance	352
<i>The Market for Private Insurance</i>	353
<i>Insurance Practices</i>	353
<i>Health Insurance Markets Since the 1980s</i>	355
The Uninsured: An Analytical Framework	356
<i>The Working Uninsured</i>	356
<i>The Impacts of Mandated Coverage</i>	357
Impacts of the Affordable Care Act on the Uninsured	358
<i>Elements of the ACA</i>	358
<i>Evidence on the Impact of the ACA on the Uninsured</i>	359
Conclusions	360
Summary	362
Discussion Questions	362
Exercises	363
15 Managed Care	365
What Is the Organizational Structure?	367
What Are the Characteristics of Managed Care?	368
The Emergence of Managed Care Plans	369
<i>Employer-Sponsored Managed Care Plans</i>	369
<i>Medicaid and Medicare Managed Care Plans</i>	371
<i>Managed Care Contracts with Physicians</i>	372
<i>Managed Care Contracts with Hospitals</i>	373

Development and Growth of Managed Care: Why Did It Take So Long?	373
<i>Federal Policy and the Growth of Managed Care</i>	374
<i>The Economics of Managed Care</i>	374
Modeling Managed Care	375
<i>Modeling Individual HMOs</i>	375
<i>How Much Care?</i>	376
<i>What Types of Care?</i>	377
<i>Framework for Prediction</i>	377
<i>Where Managed Care Differs from FFS: Dumping, Creaming, and Skimping</i>	378
<i>Equilibrium and Adverse Selection in a Market with HMOs</i>	378
How Does Managed Care Differ? Empirical Results	381
<i>Methodological Issues: Selection Bias and Quality of Care</i>	381
<i>Comparative Utilization and Costs</i>	381
<i>The RAND Study: A Randomized Experiment</i>	382
<i>Subsequent Evidence</i>	382
Medicare Managed Care: Performance, Risk Adjustment, and Selection Bias	383
Growth in Spending	385
The Managed Care Backlash	386
Managed Care and the Affordable Care Act	388
Conclusions	389
Summary	389
Discussion Questions	391
Exercises	391
Part V Key Players in the Health Care Sector	395
16 Hospitals and Long-Term Care	397
Background and Overview of Hospitals	398
<i>History</i>	399
<i>Organization</i>	399
<i>Regulation and Accreditation</i>	400
Hospital Utilization and Costs	401
<i>Competition and Costs</i>	402
Closures, Mergers, and Restructuring	405
Quality of Care	406
<i>Digital Medicine: Hospital-at-Home</i>	409
Nursing Homes	410
<i>Background and Costs</i>	410
<i>Quality of Care</i>	411
<i>Excess Demand</i>	413
<i>Financing Long-Term Care</i>	414
Hospice, Home Health, and Informal Care	415
Conclusions	416
Summary	417

Discussion Questions	417
Exercises	418
17 The Physician's Practice	420
Modeling Physician-Firms and Supplier-Induced Demand (SID)	421
<i>Physician Agency, Asymmetric Information, and SID</i>	422
<i>Supplier-Induced Demand</i>	422
<i>The Reinhardt Test of SID</i>	423
<i>Do Physicians Respond to Profit Incentives?</i>	424
<i>The McGuire and Pauly Model</i>	425
<i>The Target Income Hypothesis</i>	426
<i>What Do the Data Say about Supplier-Induced Demand?</i>	426
<i>A Marketplace Approach</i>	427
<i>Conclusion on SID</i>	428
Diffusion of Information and Small Area Variations (SAV)	429
<i>Contributions to These Variations</i>	429
<i>The Physician Practice Style Hypothesis</i>	430
<i>Education, Feedback, and Surveillance</i>	430
<i>The Demand Side</i>	431
<i>The Supply Side</i>	431
Hospital and Private Equity Acquisitions of Physician Practices	432
Conclusions	435
Summary	435
Discussion Questions	436
Exercises	436
18 Health Care Labor Markets and Professional Training	438
The Demand for and Supply of Labor	439
<i>Production Functions and Isoquants</i>	439
<i>Marginal Product and Marginal Revenue Product of Labor</i>	440
Factor Substitution and Labor Demand	441
<i>The Supply of Labor</i>	442
Factor Productivity and Substitution among Factors	443
<i>Measurement of Physician Productivity</i>	444
<i>The Efficient Utilization of Physician Assistants: Substitution among Inputs</i>	444
Digital Medicine and Health Care Labor	444
<i>Modeling Telemedicine</i>	445
<i>The Growth of Telemedicine</i>	446
Health Care Labor Supply and the Meaning of Shortages	447
<i>Availability of Physicians</i>	448
<i>Economic Definitions of Shortages of Health Professionals</i>	449
Medical Education and Control over Entry	451
<i>The Control over Medical Education</i>	452
<i>Licensure and Monopoly Rents</i>	453
<i>Licensure and Quality</i>	455

Other Physician Labor Market Issues	456
<i>International Medical School Graduates</i>	456
<i>Specialization</i>	457
<i>Private Practice or Employed</i>	458
<i>Physician Income By Gender: The Increasing Role of Women</i>	458
Nursing Labor Markets	460
<i>The Role of Monopsony Power: Shortages of Registered Nurses</i>	461
<i>Monopsonistic Nursing Labor Markets</i>	461
<i>Other Earnings Issues and Scope of Practice Laws</i>	463
Conclusions	464
Summary	465
Discussion Questions	466
Exercises	466
19 The Pharmaceutical Industry	468
Structure and Regulation	470
<i>Competition</i>	472
<i>Barriers to Entry</i>	474
<i>Regulation</i>	476
The Production of Health and Substitutability	478
<i>Least-Cost Production</i>	479
<i>Insurance and Substitutability</i>	480
<i>Technological Change</i>	481
Drug Pricing and Profits	482
<i>Monopoly Pricing</i>	482
<i>Price Discrimination</i>	483
<i>Monopoly Pricing and Price Controls</i>	484
<i>Competition and Generic Entry</i>	485
Research and Development (R&D) and Innovation	485
<i>Investment Decisions</i>	486
<i>R&D Spending</i>	487
<i>Firm Size and Innovation</i>	488
<i>Prices, Price Regulation, and Innovation</i>	489
Cost Containment	489
<i>Copayments</i>	490
<i>Generic Substitutes</i>	491
<i>Pharmacy Benefit Managers (PBMs) and Drug Formularies</i>	492
<i>Reference Pricing</i>	492
New Drugs and Health Care Spending	493
Conclusions	494
Summary	494
Discussion Questions	495
Exercises	496

Part VI Social Insurance	499
20 Equity, Efficiency, and Need	501
Efficiency and Competitive Markets	502
<i>The Concept of Pareto Efficiency (Optimality)</i>	502
<i>Trading along the Budget Line</i>	504
<i>The Competitive Equilibrium</i>	505
<i>The First Fundamental Theorem of Welfare Economics</i>	505
<i>Redistribution of the Endowment</i>	505
<i>Price Discrimination</i>	506
<i>Trade-Offs between Equity and Efficiency</i>	507
Deviations from the Competitive Model in the Health Care Sector	507
<i>The Assumptions under Perfect Competition</i>	507
Promoting Competition in the Health Care Sector	509
<i>The Theorem of the Second Best</i>	509
An Economic Efficiency Rationale for Social Health Insurance	510
Need and Need-Based Distributions	511
<i>Health Care Needs and the Social Welfare Function</i>	512
<i>Norman Daniels's Concept of Health Care Need</i>	516
<i>Economic Criticisms of Need-Based Distributions</i>	517
Horizontal Equity and Need	517
<i>Income Inequality</i>	519
<i>Schooling and Income Inequality</i>	520
Theories of Social Justice	521
<i>Utilitarianism</i>	522
<i>Rawls and Justice as Fairness</i>	522
Conclusions	523
Summary	524
Discussion Questions	525
Exercises	525
21 Government Intervention in Health Care Markets	527
Economic Rationale for Government Intervention	528
<i>Monopoly Power</i>	528
<i>Public Goods</i>	529
<i>Externalities</i>	531
<i>Other Rationales for Government Intervention</i>	532
Forms of Government Intervention	533
<i>Commodity Taxes and Subsidies</i>	533
<i>Public Provision</i>	534
<i>Transfer Programs</i>	537
<i>Regulation</i>	537

Government Involvement in Health Care Markets	538
<i>Support of Hospitals</i>	539
<i>Department of Veterans Affairs and Department of Defense</i>	540
<i>Food and Drug Administration</i>	540
<i>Tax Policy</i>	540
<i>Public Health</i>	541
<i>Other Government Programs</i>	541
<i>Health Sector Regulation and the Prospective Payment System</i>	543
<i>Description of PPS</i>	544
The Theory of Yardstick Competition and DRGs	546
Government Failure	549
<i>Who Does the Regulator Represent?</i>	550
<i>An Example: Physician Payment</i>	551
Conclusions	552
Summary	552
Discussion Questions	553
Exercises	554
22 Social Insurance	556
Social Insurance Policies and Social Programs	556
<i>Program Features</i>	558
Historical Roots of Social Insurance	560
<i>European Beginnings</i>	560
<i>Early Experience in the United States</i>	560
