I, **Tomáš Koudelka**, thereby declare that I wrote the Ph.D. thesis entirely by myself, without any help or collaboration, work of me and colleagues and with help of other publication resources which are properly cited.

I hereby declare that, in accordance with the § 47b Act No. 111/1998 Coll., as amended, I agree with publishing of my Ph.D. thesis in full version electronically in a publicly accessible part of the STAV database operated by the University of South Bohemia in České Budějovice on its own sites, with keeping my copyright to the submitted text of this Ph.D. thesis. I also agree so that the same electronic way, in accordance with above mentioned provision of the Act no. 111/1998 Coll., was used for publicizing reviews of supervisor and reviewers of the thesis and all other information about the progress and result of the thesis defense, also during publishing the text of my Ph.D. thesis with a database of theses ("theses CT") operated by the National and Regional Library in Prague, available at [theses.cz](http://theses.cz).
