

## Contents

Summary	2
Souhrn	3
Keywords:	4
Klíčová slova:	4
Contents	5
Introduction	6
PIC simulations	7
1. Particle motion	10
2. Weighting particles	11
3. Field computation	11
4. Weighting fields	12
PIC Package Add-ins	13
1. Program package VISUAL	13
2. Diagnostics	16
3. Collisions	18
4. Radiation	19
5. Role of the Dust	20
6. Animations	21
Some Results	22
1. Surface turbulences and helical structure onset	22
2. Radiation of the fiber	23
3. New visualization techniques	24
4. Current decomposition	25
5. Radiative pinch	26
6. Authors of the PIC model	26
References	27
