Foreword 7

Directions for use 11

- Taxonomy 12
- Subspecies 13
- Individual variation 14
- Numbering of flight-feathers 15
- Wing-formula 16
- Measurements 19
- Colours 28
- References 30

General techniques for ageing and sexing 31

Ageing 31

- Juveniles 31
- Shape of tail-feathers 32
- Shape, wear and gloss of primary coverts 32
- Moult and wear 33
- Growth bars 41
- Skull ossification 43
- Tongue marks 45
- Colour of bare parts 46

Sexing 47

- Shape of the cloacal region 47
- Incubation patch 48
- Sex according to size 48

Characters of species, age and sex 51

- Abbreviations 51
- Bird topography 54
- Systematic list 57

Alaudidae	57
Hirundinidae	71
Motacillidae	75
Bombycillidae	98
Cinclidae	100
Troglodytidae	102
Prunellidae	104
Turdidae	108
Sylviidae	156
Muscicapidae	220
Timaliidae	232
Aegithalidae	233
Paridae	235
Sittidae	242
Tichodromadidae	245
Certhiidae	246
Remizidae	250
Oriolidae	252
Laniidae	254
Corvidae	264
Sturnidae	276
Passeridae	282
Estrildidae	286
Fringillidae	288
Emberizidae	314
