

TABLE OF CONTENTS

Medium-term and Long-term Planning of Transport Processes in Passenger Station Using Simulation	5
Michael Bažant	
Assurance and Safekeeping Salute Near Work on Place of Work ZSSK inc	9
Martin Duc-Anci	
The Educational Potential	15
Author: Alena Holíková, Translation: Zuzana Luptáková	
Application of non-conventional technological practise especially CNC machines by shaping the violin components	23
Anna Danihelová, Stanislav Košůth	
Management of integrated transport system	27
Nina Kudláčková	
Knowledge management in Public Administration	31
Iveta Malá	
Simulation of distribution of heterogeneous mixture within filtration unit	35
Michal Marko	
The Optimalization Solving Barrier-free Accessibility in GIS	41
Jakub Švrček, Marek Míhola	
Company logistics	46
Iveta Nývltová	
Connectivity between Air and Rail Transport and its Application in the Czech Republic and in Europe	48
Michal Palán	
Long-Term and Medium-Term Planning of Processes in Marshalling Yards Using Simulation.....	52
Viktor Patras	
Transportation Processes Quality Model Proposal	56
Daniel Salava	
Development of an International Airport Praha Ruzyně.....	60
David Šourek
