

CONTENTS

1. Hydraulic Transport in Practice	6
1.1 Major Applications in the Czech Republic	6
1.2 Major Applications Abroad	8
2. Potential Problems Associated With Operation of Pipelines Transporting Settling Slurries	13
3. Optimization of Pipeline Transport System	14
3.1 Economy Related Parameters of Slurry Flow in Pipe	14
3.2 Possibilities to Optimize Pipe Operation	16
4. Frictional Pressure Loss in Settling Slurry Flow	16
4.1 Pipe Characteristic: I-v curve	16
4.2 Modeling Techniques and Contemporary Trends in Research on Characteristics of Settling-Slurry Pipes	17
4.3 Author's Contribution to Flow-Friction Research	19
5. Conclusions and Recommendations	20
5.1 Conclusions	20
5.2 Recommendations	21
References	21
Dr. ing. Václav Matoušek - Curriculum vitae	24
