

# CONTENTS

1. Introduction.....	6
2. Linear time delay system.....	7
2.1 Example of TDS, model of laboratory heating system.....	8
3. Algorithm for computing spectrum of TDS.....	11
4. Direct pole placement in TDS .....	13
4.1 Application of direct pole placement to the laboratory heating system .....	14
5. Continuous pole placement applied to neutral system.....	17
5.1 Application example.....	17
6. First order TDS model in control design.....	19
6.1 Implementation of the anisochronic controller on PLC.....	20
7. Conclusions.....	22
