

# CONTENTS

Summary .....	2
Souhrn .....	3
1. INTRODUCTION .....	6
2. ULTRA-FINE GRINDING PROCESS .....	6
3. ENERGY TRANSFER AND GRINDING MODELS .....	7
3.1 Material Functions .....	7
3.2 Population Balance Model .....	8
3.3 Process Function .....	9
3.4 DEM of Grinding Processes .....	9
3.5 How successful are we in formulating the process functions .....	11
4. MODIFICATION OF THE SURFACE'S PROPERTIES .....	11
4.1 Effects of Surface's Modification .....	11
4.2 Surface Modification by Co-Grinding or "Dry"-Coating .....	12
4.3 Equipment for Surface Treatments .....	12
5. MECHANICAL ACTIVATION .....	13
6. SORTS OF MILLS .....	14
6.1 High-Compression Roller Mill .....	14
6.2 Planetary Mills .....	15
6.3 High-Power-Density-Mills .....	16
6.3.1 MaxxMills .....	18
6.3.2 Nanoparticles milling equipment .....	19
6.3.3 Grinding Media Beads .....	21
6.4 Acoustic grinding .....	22
6.5 Other sorts of Grinding Equipment .....	23
6.5.1 Ball Mills .....	23
6.5.2 Jet mills .....	23
6.5.3 Crushers .....	23
7. COMMINATION PROCESSES CONTROL METHODS .....	24
8. CONCLUSIONS .....	24
REFERENCES .....	25
Author's CV .....	27
