| | |
|---|-----|
| Preface | 7 |
| 1 Introduction | 9 |
| 1.1 <i>Aims and scope</i> | 9 |
| 1.2 <i>Material and methods</i> | 11 |
| 1.3 <i>Acknowledgements</i> | 12 |
| 2 Considerations on the significance of native butterflies for the conservation of nature in Europe | 13 |
| 3 The decline of European butterflies, its anthropogenic causes and present countermeasures: survey and analysis | 31 |
| 3.1 <i>Outline of biogeographic history of European butterflies during the holocene</i> | 31 |
| 3.2 <i>Anthropogenic factors harmful to butterflies, their causes and control</i> | 42 |
| 3.3 <i>Considerations on the significance of collecting for the conservation of European butterflies and lepidopterological research</i> | 74 |
| 3.4 <i>Considerations on the significance of the so-called "Red Data Books", with an annotated check-list of butterflies threatened in Europe</i> | 88 |
| 3.5 <i>Considerations on the present state of our knowledge of European butterflies</i> | 99 |
| 3.5.1 <i>Literature on European butterflies</i> | 99 |
| 3.5.2 <i>Mapping the distribution of European butterflies</i> | 108 |
| 4 Applied taxonomy of European butterflies | 113 |
| 4.1 <i>Taxonomy (s. l.) as an auxiliary biological science</i> | 113 |
| 4.2 <i>Zoological nomenclature, its principles and their application</i> | 116 |
| 4.3 <i>Taxonomic categories and their pragmatic application</i> | 127 |
| 4.4 <i>Glossary of common taxonomic terms</i> | 143 |
| 4.5 <i>An annotated checklist of European butterflies</i> | 156 |
| 4.6 <i>A provisional synonymic check-list of generic and specific names of European butterflies</i> | 186 |
| 4.7 <i>Priority tasks in taxonomic research</i> | 215 |
| 5 Applied biogeography of European butterflies | 217 |
| 5.1 <i>Biogeography as an applied science</i> | 217 |

| | | |
|----------|---|------------|
| 5.2 | <i>Survey of the colonies of European butterflies</i> | 218 |
| 5.3 | <i>Biogeographic evaluation of nominal species</i> | 244 |
| 5.3.1 | Biogeographic disposition | 244 |
| 5.3.2 | Biogeographic condition | 254 |
| 5.3.3 | Biogeographic disposition and condition of European butterflies . | 256 |
| 5.3.4 | Application of the Chorological index (CI) values | 268 |
| 5.3.5 | Application of the Vulnerability index (VI) values | 269 |
| 5.4 | <i>Preliminary considerations concerning the ecology of European butterflies</i> | 270 |
| 6 | Outline of a European comprehensive conservation programme for indigenous butterflies | 287 |
| 6.1 | <i>Definition of principles and priorities</i> | 287 |
| 6.2 | <i>European register of butterfly sites</i> | 289 |
| 6.3 | <i>Conservation (protection) of species acutely threatened by extinction in Europe</i> | 292 |
| 6.4 | <i>Conservation of rare endemic species</i> | 293 |
| 6.5 | <i>Conservation of eurychoric species</i> | 299 |
| 6.6 | <i>Conservation of incipient species</i> | 301 |
| 6.7 | <i>Guidelines for collecting of and trade in European butterflies</i> | 302 |
| 6.8 | <i>Suggestions concerning the implementation of the Comprehensive Conservation Programme for European Butterflies</i> | 307 |
| 7 | Bibliography | 310 |
