

# Contents

Foreword	vii
Preface to Volume 10	ix
Contributors to Volume 10	xiii
Contents of All Volumes	xv
1 Intermediary Metabolism D. J. CANDY	1
2 Carbohydrate Metabolism S. FRIEDMAN	43
3 Lipid Metabolism R. G. H. DOWNER	77
4 Lipid Transport: Biochemistry of Hemolymph Lipophorin H. CHINO	115
5 Steroids J. A. SVOBODA and M. J. THOMPSON	137
6 Amino Acid and Protein Metabolism P. S. CHEN	177
7 Insect Nucleic Acids S. J. BERRY	219
8 Molecular Biology: Protein Synthesis M. S. KAULENAS	255
9 Insect Storage Proteins L. LEVENBOOK	307
10 Heat Shock Proteins N. S. PETERSEN and H. K. MITCHELL	347
11 Pigments H. KAYSER	367
12 Biochemistry of the Nervous System Y. PICHON and R. MANARANCHE	417

13	Biochemical Processes Directed to Flight Muscle Metabolism A. M. TH. BEENAKKERS, D. J. VAN DER HORST and W. J. A. VAN MARREWIK	451
14	Biochemistry of Muscle Contraction K. MARUYAMA	487
15	Toxins Derived from Arthropod Venoms Specifically Affecting Insects E. ZLOTKIN	499
16	Metabolism and Characterization of Insect Cell Cultures W. F. HINK, D. A. RALPH and K. H. JOPLIN	547
17	Silk Synthesis J.-C. PRUDHOMME, P. COUBLE, J.-P. GAREL and J. DAILLIE	571
18	Aging in Insects R. S. SOHAL	595
19	Allozymes and Biochemical Adaptation A. J. ZERA, R. K. KOEHN and J. G. HALL	633
	Species Index	675
	Author Index	679
	Subject Index	703
